McKENZIE SAYS IT PUT HIM ON THE JOB AGAIN

Halifax Citizen Declares Tanlac Entirely Overcome Stubborn Stomach Trouble And Helped Him Make Big Gain In Weight.

"Tanlac came to my rescue just in time for I was almost down and out from a case of stomach trouble of eight years standing," declared Richard McKenzie, 52 Longard Road, Halifax, N. S.

"My trouble started with indigestion. My food would turn sour in my stomach and hurt me so I had to go on a milk diet. I would bloat up with gas terribly and seemed to have inflammation of the stomach for I had an awful burning sensation just below my breast bone. I also suffered from a dull pain across my back that hurt me so at night that many times I had to get up and pace the floor. I fell off to one hundred and thirty-two pounds and got so weak I had to lay off from work eight months.

"But the way Tanlac pulled me around was amazing. I soon had a good appetite and haven't had a bit of indigestion or pains since. I now weigh one hundred and ninety and am on the job every day. I'll be glad to tell everybody what a fine medicine Tanlac is."

Tanlac is sold by all good druggists

BUD WORM EXPERT GIVES INFORMATION

Snowball Lands Worst Infected in Canada—Damaged Timber Used for Pulp-wood in Quebec

Dr. F. C. Craighead of Ottawa, doing special work for the Dominion Entomological Branch in connection with the Spruce Bud Worm infestation in New Brunswick, arrived in Fredericton Tuesday night and interviewed officials of the Department of Lands and Mines.

Investigation work is being carried on at various places in the northern and central sections of New Brunswick. For the past month a camp has been established on lands of the Snowball Company on the Tabusintac.

The work is directed from Ottawa. Dr. Craighead stated that the infestation on the Snowball lands was the worst in Canada. Particular attention was given to that locality. No other tract of timber-land in the Dominion which has been investigated has shown such destruction from this pest.

Dr. Craighead punctured the contention of lumbermen of this province that timber in which the Bud Worm has got, is useless for pulp-wood purposes. Dr. Craighead stated directly that this season in the province of Quebec, Price Bros. one of the great pulp and paper firms of that province were using Bud Worm killed lumber for the manufacture of pulp to the extent of seventy-five per cent of the total which was passing through their mills.

At the present time according to Dr. Craighead there is little feeding by the Bud Worm going on on the Snowball lands. The peak of the damage seems to be past.
