Vigilance Needed.

On Saturday we drew attention to the need of greater vigilance on the part of the public, if any real reform is to be obtained in Municipal affairs. Since the present Civic system was established, two full terms have passed, and yet civic affairs are in a most unsatisfactory condition. The one outstanding work which is to the credit of the Municipal Council is the additional water supply, but as the Hon. John Harris pointed out in the Legislative Council, the distribution of this water supply leaves much to be desired. But the city is as dirty as ever it was, and the state of the streets are disgracefully foul and offensive.

For this state of affairs we are more inclined to blame the public than the Councilors. It must be acknowledged that the public have in the past been apathetic, and we confess the Press has not been much better. To-day there is a chance of new start. There will be at least five new Councilors. We are convinced that the new Mayor and the six new Councilors will enter upon their duties with the firm intention of doing their duty to the city. But as Dr. Johnson said: "Hell is paved with good intentions" and something more is required, and what is required is vigilance on the part of citizens.

There is an old saw among the lawyers which might be adapted and adopted by citizens. Lawyers say "the law assists those who watch, not those who are asleep." Citizens might say: "The Council will clean up the city, if citizens are vigilant; but will not, if they are asleep." With a view then of keeping a sharp eye on the new Council, we announce we shall join with "Reform" and other Vigilantes in keeping the new Council up to their work, and we make this announcement to-day before the poll is declared, and we know the personnel of the new Council.

SHOULD STOP IT.—Recently it has been noticed that a teamster who often brings his horse up Pleasant Street beats it unmercifully. This should be stopped at once.

Your Success

depends on how you think and work.

Well nourished brains and nerves are absolutely necessary to successful thinking and working.

Many successful men all around you, can tell of the value of

Grape-Nuts

as a brain and nerve food. It is made of wheat and barley (including the phosphate of potash—grown in the grains) and supplies the very food Nature requires to rebuild the delicate gray substance in the Brain and Nerves.

You can safely make your morning meal on Grape-Nuts and cream, with an egg or two and some fruit.

Grand Falls Notes.

John P. Riley, Superintendent of mills here, has severed his connection with the Company and leaves for his home at Bellows Falls, Vermont, by Wednesday's express. He is accompanied by J. J. Gately, paper maker, who is also leaving. Both these gentlemen have superintended the world's record output of paper. They have made many friends in Newfoundland, have advanced every native with a go in them whilst on the works, and are leaving Grand Falls with splendid testimonials as to character, ability, energy and upright many men. It is hoped the new Superintendent, the genial Mr. Jones, will be as successful as his predecessor.

In reference to the world's record in paper making which is held at Grand Falls and to the article chronicled by us, we omitted to mention that the machines the record was made on are electrically driven. So neat, accurate and well placed together was the electrician's work that from the word go everything worked as well and smoothly as if the plant had been in operation for years. Too much credit cannot be given Thomas Judge, chief electrician, his brother James, second hand, and the other helpers for their indomitable energy, perseverance and stickativeness in the face of many difficulties in having the honor of mechanically putting together the most intricate and delicate machinery placed in any concern. To the good work of electrician Judge is attributable in no small degree the splendid record of the A. N. D. Co.'s mills.

Special to Evening Telegram.
FRIEDBERG, Hesse, June 25.
Herr Busold, Socialist, to-day won the bye-election for a seat in the Reichstag; he received 11,000 votes against 9,000 polled by Herr Helms, Conservative. The seat hitherto has been occupied by a Nationalist Liberal.

LISBON, June 26.
Following the request of King Manuel, Don Antonio Fairfira de Sousa, the ex-Minister of Finance, has formed a Cabinet with himself as Premier and Minister of the Interior. The Ministry, under the Presidency of Francisco Davelga Beirao, resigned on June 17th, after having recommended the dissolution of the Chamber of Deputies which was opposed by the King as well as by the Liberals.

KIEL, June 26.
In a stiff breeze to-day the American yacht Westward won the Jubilee prize, defeating the Germania by 1 minute and 42 seconds, and Empress William's American built Meteor, with the Emperor on board, finished 3rd, only a few lengths behind the Germania. The Emperor to-day conducted Divine Service on board the Imperial yacht. He chose the theme of his sermon: "Did Jesus Live." This recently has been the subject of much public discussion.

MONTREAL, June 26.
The situation in regard to the negotiations between the C. P. R. and its trainmen now appears to be that after having served ultimatums upon one another, the two parties are looking to a peaceful settlement. A conference between the representatives of the men and the company has been arranged for to-morrow, and it is prophesied that this will pave the way for an agreement. Many of the men have a considerable number of years service to their credit on the Company's books, and if they were to go out now, they would lose this, and thus be shut out of the pension. That interruption of service by a strike invalidates the pension claim was brought home to the men by the machinists' strike a few years ago, when many men were compelled to re-enter the company's employ as new employees, though some of them had 10 or 15 years service to their credit.

A British Naval Expert's View.

London, June 22.—Gerard Fienness, one of England's foremost naval experts, states in the Daily Graphic that the Anglo-Japanese alliance cannot be renewed on its expiration in 1915, and that there are grave indications that this agreement may not conserve Far Eastern affairs on peace lines even before its existence is concluded. "Japan will," he asserts, "in the last analysis, fight the United States very much for the reason that prompted Bismarck to fight France." He contends that "Europe is not going to lift a finger when war breaks out between Japan and the United States to save to the latter islands of which they deprived Spain."

Joe Martin Has Left the Liberals.

Has Lost all Confidence in Government, and Urges Liberals to Speak Out.

LONDON, June 22.—Mr. Joe Martin, M. P., comes out definitely against the party under whose umbrella he won his seat in St. Pancras. He says in a letter in the press, that he has lost all confidence in the government, and he adds that it is the duty of every Radical to speak out before the political peace now being hatched by Mr. A. J. Balfour and Premier Asquith is completed and the Liberal party completely destroyed.

Negro Burned at the Stake.

RUSK, Texas, June 21.—Leonard Johnson, a negro, charged with having killed Miss Maud Redding, a young woman near here yesterday, was burned at the stake by a mob near the scene of the crime, late last night.

Sheriff Norwood and Deputies were enroute to Rusk, with the negro when they were overpowered by a mob at Lone Star near the home of the murdered woman. Seizing the negro, who pleaded for his life, the mob composed of more than 100 men and boys dragged him a short distance from the town. There, it is said, he confessed that he had mistreated and murdered Miss Redding.

The negro was taken to a stake and brush was piled high around him, when a torch was applied. Disregarding the pleadings of Johnson, the fire was fed until he was dead and partly incinerated. Miss Redding left home intending to go to Lone Star. Later her body, with her throat cut, was found in a wood, a short distance from town.

MORE DIPHTHERIA.—A little boy named Mearns, aged 3½ years, of the Battery Road, developed diphtheria yesterday, and will be sent to hospital. His little brother died from the disease a couple of days ago. A man residing at Hamilton Avenue also contracted the disease to-day.

The Susu reports that a violent storm began Wednesday last in Fogo District and did not abate until Friday morning. The ship, on the return, could not call at all at the Wadhams, Musgrave and Peckford's Island. Many traps were out and it is feared some are lost or destroyed. The fishery is a blank there.

The body of the late Mrs. G. Paterson, widow of the late Mr. George Paterson, was brought from Port aux Basques this morning to Brigus Junction whence it was taken to Harbor Grace on the shore train for interment. Dr. Paterson and Masters Peterson (2), sons of the deceased, accompanied the remains from Canada to Harbor Grace.

Amongst the officers and men of the Cornwall there are some excellent footballers who play Rugby and Association. The men on board are anxious to have a game or games with some of our leading clubs and a picked city team. This would be a good idea and if some of our people would communicate with Mr. Taylor, 1st writer on board, the meet could be arranged.

Woman Wins the French Derby

Special Evening Telegram.

PARIS, June 26.
The Grand Prix de Paris was run to-day in a rain storm, and was won by Madame Gperemetoff's Colt Nuaige in a driving finish by about a length from Reinhardt, Bronzino was third. The Grand Prix de Paris is over a distance of one mile and seven furlongs, and the value of the stake is \$60,000; the betting was 9 to 1 against Nuaige. The English crack, Lemberg, which captured the English Derby on June 1st, in record time, was a favorite in the betting but finished away back. Although the King and Queen of Bulgaria were present, the heavy rain greatly reduced the attendance, and the exhibition of frocks, for which this event is famous, was very disappointing. This is the first time a woman has won the Grand Prix de Paris.

STAR SOCIETY MEETS.—The Star of the Sea Association met yesterday afternoon when dues were collected and 5 new members were added to the roll.

Made a Special Appeal.

At the last Mass in St. Patrick's Church yesterday Rev. Joseph Pippy from the pulpit made a special appeal to the people of the West End for the necessary funds to put the Church in thorough repair. He extolled the generosity of the many who had so nobly responded at the meeting held recently in the Star of the Sea Hall, but reminded the congregation that all without exception should give most liberally if the work was to be completed. A collection will be taken up at all the Masses on Wednesday, and he looked forward to a response worthy of the people and the object which they were asked to contribute towards. Experts who had gone over the edifice had stated that it could not be left longer without ample repairs, and if such were not done it would be positively dangerous for people to attend Mass in the building next winter. He believed that the people were as anxious as their pastors to see the church properly finished and hoped soon to witness the work of repairs commenced.

Candidates for the Ministry.

There arrived by the Siberian from England yesterday the following young men who are candidates for the Methodist ministry in Newfoundland. Most of them came from Cliff College and had been preaching in Epworth and Cornwall. Their names are Messrs. Allenby, Ball, Brook, Green, Geddie, Matthews, Pollett, Pollard, Teate and Westlake. Messrs. Ball, Green and Westlake were introduced to the people of Wesley Church after service last night. Each gave a short interesting address.

Plucky Rescue.

A five year old girl named Hynes, of Hoytestown, fell into the harbor while playing on a raft near the public wharf near Woods' Dock Saturday afternoon last. James Morgan, a 16 year old lad, who was in the neighborhood heard the cries of the girl's companions for help and ran to the spot. Being a good swimmer young Morgan jumped off the wharf with his clothes on, caught the girl by the hair and held her up till Herb Angel came to his assistance and helped both to reach the wharf. The girl, who is a daughter of William Hynes, of Temperance Street, was all right after getting a change of clothing and stimulants.
