The "Ins" Are at "Outs"

The Daily News has another "latest" and the chief virtue is that its statements have been consistent. It persists in the declaration that the smallpox Observation Hospital is but a temporary structure, and that "it will disappear just as soon as its immediate usefulness is ended."

What could be more definite than this extract from the News:—

"It is a temporary abode to shelter the men. There is no idea of permanency, nor has there been any such idea on the part of the Government. In making this statement we have the assurance of the Premier, as well as of the Minister."

Consistency is a jewel, and we congratulate our morning contemporary. The conflict, however, between the senior Government organ and the junior organ still remains, and is indeed emphasized by the incisive and unequivocal and unambiguous declaration of the Daily News. For the latest of the Evening Chronicle is equally definite, clear and certain. The Chronicle states as a "fact" that by the present structure the Colony will be provided with a place of detention for all parties in the future who may require to be placed under observation for this disease," i.e., smallpox.

The Daily News is politic in ignoring the flat contradiction of the two declarations. If the Daily News is right, the Chronicle is wrong; and the Daily News wisely eschews the impossible.

When the Government organs differ so radically, and in a matter which involves the question of permanency or not of a serious menace to a section of the city, it is for the City Council to settle definitely and have a clear agreement in black and white that the building will be pulled down immediately the sealers who are now under observation are discharged.

Our New Industries.

The Newfoundland Pine and Pulp Company, of which the genial Mr. H. J. Crowe is President, has had the best season for logging during the past winter for nine years. Teams are still hauling to the Exploits. Some 4,000,000 feet of lumber, pine mostly, have been logged, and in addition 25,000 cords of pulpwood, equal to 14,000,000 feet, have been delivered to the Anglo-Newfoundland Development Company at Grand Falls. Altogether the output of the firm for the season is about 18,000,000 feet.

We hear that the danger of rafting on the Exploits which some people apprehended, and which it was thought might take place above the railway bridge, is past. A channel has been formed naturally in the midst of the river and the ice is thawing out gradually. Competent hydraulic engineers had expressed the opinion some years ago that the new dam below the bridge would, instead of increasing the danger, minimize it.

We learn that the pulp works of the Albert Read Company are practically complete and that pulp grinding will commence within a few days. The plant is a very fine one, most recent improvements in machinery having been installed. It is understood that the company contemplate putting down a paper plant in the near future.

We understand that the Anglo-Newfoundland Development Company at Grand Falls have placed orders for two new paper machines. When these are installed, little pulp will be exported, as most of it will be converted into news print at Grand Falls.

Some people believe that it would be wise to extend the Botwood railway to Port Lannington for winter shipping, as the latter port is 25 miles nearer the sea than Botwood.

The Mongolian Here.

The a.s. Mongolian, Capt. Peters, arrived here at 8 o'clock this morning from Philadelphia. She left there Saturday at midnight, and had fine weather until Wednesday, when the storm which prevailed here overtook her, and which consisted of a N.E. gale with snow, sleet and fog and a high sea. She was off this port all last night laying to with a big sea running. Owing to this the pilots could not get off to her and she steamed in towards the Narrows after daylight. She brought 488 tons cargo, considerable mail and the following passengers: Hon. C. H. Emerson and Mr. and Mrs. P. Maher. She sails at midnight for Liverpool, taking Mr. A. J. Harvey, Mrs. J. S. Munro, Misses Robinson, Cole, Ayre, Boyd (3), J. Simms, Hayward (2) and Crowley (2). Mr. Boyd and wife, Hon. J. C. Crosby, J. F. Steward, B. K. Bose, R.N.; H. E. Ritchie, Mr. Clarke and 2 steerage.

When Sleep Fails You

DR. CHASE'S NERVE FOOD will bring rest, comfort and vitality by building up the nerves.

Mr. Jas. Wesley Weaver, a veteran of the Fenian Raid, Port Dalhousie, Ont., writes:—"For years I was afflicted with nervousness and dreaded insomnia, so that I never knew for three years what a full hour's sleep was, never more than dozing for a few minutes at a time. Heart pains and headaches almost drove me wild. I had spells of weakness and cramps in stomach and limbs."

"Though I tried several doctors, it was money uselessly spent. Finally Dr. Chase's Nerve Food was brought to me and eight boxes cured me. It is simply wonderful what benefit I have obtained from this treatment."

Sleeplessness and headaches are failings of approaching old age and lapses. You can positively remove these symptoms and prevent prostration or paralysis by the use of Dr. Chase's Nerve Food. 50 cents a box, 6 for \$2.50, at all dealers or Edmondson, Bates & Co., Toronto. Write for free copy of Dr. Chase's Recipes.

The remains will probably be removed to Whitebourne by to-morrow's train and sent home for interment. Mr. Watson, on receipt of the message, wired Rev. Mr. White, of New Harbor, to break the sad news to his friends.

SHANGHAI, Sunday, April 12. Mr. John Murray, a member of the American Presbyterian mission at Tsai-nan-fu, was attacked by ruffians, on March 28, seventeen miles north of Tsai-nan-fu, being badly wounded in the head, arm, and legs. The cause of the attack was a ridiculous report that he had stolen a child.

Mr. Murray was brought back to the mission under a Government escort. He is now out of danger. His assailants have been arrested.

The Chinese officials, on learning of the attack, were most solicitous in doing everything in their power on Mr. Murray's behalf and showed great efficiency in the arrest of the offenders.—Reuter.

Uncle Walt
THE POET PHILOSOPHER.

I went to roost without a dime, and there I lay for hours and dreamed that I was John D. Morganheim, and wealth into my coffers streamed. I watched my speedy minions flee to dump the bullion in the banks, and sleuths forever walked with me, protecting me from wildcat cranks. The world sent forth its host of bodes, and mendicants in serried squad filled all the landscape out of doors, and tried to touch me for my wad. And all the jealous plutocrats were there to get my coin away; they poked me sorely in the slats, and kept me bumping, night and day. In solemn state I seemed to sup, and sleepless tossed upon my bed; and interviewers called me up and twisted everything I said. I had no pleasant hours to while away at games I loved before; I mounted guard upon my pile, and counted sacks of gold and swore. I had no friends; I had men's hate, and I suspected other men of low down schemes to swipe a crate of my long green, and then again. I had no comrades; uncles, aunts, and all my kindred eyed my thim, and changing to cringing sycophants that they might figure in my will. And O, the joy when from this dream to cheerful poverty I woke! I uttered one long gladsome scream, and cried: Copyright, 1911, by George Matthew Adams. Oscar Mason

LATEST CABLE NEWS.

Special to Evening Telegram

KINGSTON, Ja., To-Day.

Disturbances have been raging here for two days between the soldiers of the West Indian regiment and civilians. The police have difficulty in handling the rioters, and the soldiers are using razors with deadly effect. There are many wounded at the hospital.

NEW YORK, To-Day.

From British baronet to expert rider with a wild west show and then a janitor in the Salvation Army Hall, Brooklyn, is the experience of Greenville Cave, who announces his resignation as a vice-president of the British Boy Scouts' Organization to apply for admission in the Salvation Army. The Editor of the War Cry who has investigated the case says the new recruit is actually the twelfth baronet, Cave-Brown-Cave.

WASHINGTON, To-Day.

Taft is more determined than ever that the States must not intervene in Mexico. At a conference between Taft, Knox and the Committee of House of Representatives, the President states that difficulties must arise out of the conditions in Mexico, because of the proximity of the fighting to the American line, "but," he is quoted as saying, "it takes two to make war."

PARIS, To-Day.

The situation in Morocco is resulting in the talk of French intervention by sending an army to the gates of Fez. A Spanish entente regarding Morocco foresees a rapprochement between Spain and Germany.

EL PASO, To-Day.

Madero refused to grant an armistice as suggested by Gomez at Washington and sent word, "he would armistice after the battle of Juarez and then only." "They want an armistice to get up reinforcements," said Madero.

A Clean Sweep.

People up from the eastern settlements to-day say that the storm of the past two days was the worst experienced there for a long while past. At Torbay from Tappan's Cove to the Beach, there has been a clean sweep, and not a flake or stage is left standing. At Flatrock, five stages, three boats and the rest of the public wharf have been carried away and the sea ran up higher on the beach than ever before witnessed, taking away the boats which were believed to be altogether out of danger. Nearly all the flakes and stages have also been swept out of Pouch Cove, and the damage done is almost irreparable.

Backache Suffering

A wonderful medicine is this man's description of DR. CHASE'S KIDNEY-LIVER PILLS.

Mr. Fred Gummer, Lillies, Ont., writes: "I can honestly say that Dr. Chase's Kidney-Liver Pills are a wonderful medicine. For six weeks last fall I could scarcely walk around for pains in the back and legs, and was almost completely unfit for work. Though I tried several medicines I got no better. I saw Dr. Chase's Kidney-Liver Pills advertised and bought five boxes. After I had used three boxes, I was greatly improved and by the time I had them all taken felt as well as I ever did. I would advise anyone suffering from kidney disease to use Dr. Chase's Kidney-Liver Pills."

"We have also used Dr. Chase's Syrup of Linseed and Turpentine for bad colds and sore throat and would not be without these medicines for anything."

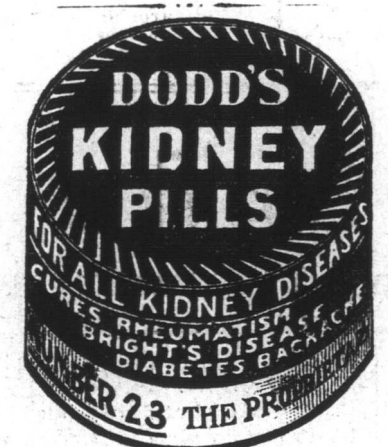

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers or Edmondson, Bates & Co., Toronto. Write for a free copy of Dr. Chase's Recipe Book.

Made a Record.

Kennedy Bros. who put up the new shed or hospital or whatever it might be designated, undoubtedly made a record in the work. The building is a large one and they had it thoroughly finished and ready for occupancy, with an annex built at the rear in 5 days. They are certainly hustlers at their business. Indignation is growing instead of abating in the East End with the Government for permitting the building to be erected where it is. The pertinent question is asked would Sir Edward like it opposite his own palace on Rennie's Mill Rd. where there is plenty of spare ground. People also observe that if a man wants to put a clapboard to his home or take a brick from his chimney he must ask for the Council's permission to do so, and the residence of Hoylston want to know why the Government did not wait until the council could determine the matter. The East Enders intend to agitate to have the obnoxious residence removed.
