ST. BON'S GUARDS INDOOR SPORTS.—RACES PROVED VERY EXCITING.

Two New Records Established.
The indoor sports, held in the Prince's Rink, last night, under the management of the Guards and St. Bon's Clubs, drew a fairly good attendance of spectators. Amongst those present were His Excellency the Governor and Lady Allardice and His Worship the Mayor, Hon. Tasker Cook, besides many prominent citizens.

The different items on the programme were all keenly contested, the result of all contests being uncertain until the tape was breasted, and some new local records were made. The sports were conducted in a high class manner; they began on time, and a pleasing feature was the fact that no warts were in evidence between the different items. The Methodist Guards Band was in attendance and discouraged pleasing music throughout. All the short runs, mile and half mile, were closely contested. The 1 mile walk was a good item. At the outset Hurley got a comfortable lead on T. O'Neill and his other opponent, but when about half way, O'Neill caught and passed him and won by a safe margin. The putting of the 16 lb shot was a new indoor event, and was won by T. Butler, with a put of 31ft. 11 inches. Clifford Stone's performance in the 1-mile race pleased the

spectators. In this a new indoor record was made, the time being 4 min. 53 sec., which is 2 4-5 seconds better than the previous record, made by Laurie Jackson, the Canadian runner, on December 7th, 1922. The Relay Racing items were all closely contested and very thrilling, particularly in the Inter Club Race, in which the T.A. Guards and St. Bon's completed the T.A. team lead right up to within a few feet of the finish, when Parsons, for the Guards, nosed out the other runners by inches.

One of the best exhibitions of athletic skill seen in the whole meet, was the performance of Gordon Baker, in the High Jump. Baker, who was in splendid form, cleared the bar at 5 feet 4 1-2 inches, thus establishing a new indoor and outdoor record. The Tug-of-War, between the St. Bon's and Guards' athletes, the concluding event of the evening, was most exciting. The St. Bon's team, who were heavier than their opponents, won by two straight pulls.

The prizes were presented to the winners after each event by Mr. T. W. Sparks, on behalf of the joint committee, who congratulated the victors on their success.

The following is the complete programme and winners:—
50 Yards Dash—Dead heat; G. Hally, S. Parsons. Time, 6 seconds.

Tug-of-War—Won by St. Bon's. Two straight pulls.

Gen. Sarraill Compelled to Shell Druses

MOSLEM HORDES THREATENED TO OVERTURN AND DESTROY CITY OF DAMASCUS.

(By Canadian Press)

ALEXANDRIA, Egypt, Nov. 11.—General Sarraill, recently relieved of his office as High Commissioner in Syria, is on his way to Paris to explain what happened in that country where the French are reported to have lost nearly 7,000 men and spent four billion francs in the past four years. He was met at this port by a special correspondent of Paris Petit Parisien, who bluntly informed him.

"They say in France that you have destroyed one half of the city of Damascus," General Sarraill is quoted as replying: "Three hundred houses are down in the Moslem quarter. We had been attacked and fourteen French soldiers were killed and forty-seven wounded."

General Sarraill further declared that 137 lives were lost, including soldiers, civilians and about fifty Armenians, who were butchered by the rebels.

"I never refused to meet the chief of the Irbel Druses," he continued, "and I am conscious of having done my best to fulfill the French mandate in Syria."

The general is also quoted by the correspondent as having spoken in strong terms of the British consul at

Damascus, who, he asserted, "provoked a panic."

General Sarraill added: "I warned him that I must bombard the Moslem section of the town. I could not surrender the city to the bandits and there had to be fighting in the streets."

With respect to his alleged stringent measures General Sarraill said: "I stopped the pillage. That was the extent of my military repression, and notwithstanding what some foreign correspondents have said, I have the situation well in hand in Syria."

Armenians Ask for U.S. Relief

Thousands of Refugees from Asiatic Turkey in Dire Straits.

Aleppo, Syria, Nov. 11. (A.P.)—Recent disturbances in Damascus and other parts of Syria are raising new and serious problems for the United States workers of the Near East Relief.

The troubles at Damascus cut off the principal market of 40,000 Armenian refugees from Asiatic Turkey who have been living in camps at Aleppo and have kept alive by weaving cloth for Damascus. Now they are besieging the Near East Relief for help to tide them over the winter.

Miss Elizabeth Siff of Pittsburgh, who is directing relief operations here, is sending out appeals for help. The United States organization also has sent Miss Helen Lund, of Freeport, Me., to organize relief at Damascus, and has answered the appeal of 5,000 refugees from Hauran, the district south of Damascus, who are suffering from the failure of their crops and the Diel Druse war.

The French authorities have decided to lend the Hauranese \$250,000 to buy foodstuffs and seed, and the Near East Relief has promised to provide them with winter clothing. This action promises to have the political effect of keeping the people of Hauran loyal to the French in the war with the Druses.

Aleppo is placarded with two-word posters, bearing the legend "Justice first," protesting against the French decision requiring the Syrian Government to pay the fine of \$500,000 originally assessed against the city of Damascus for the troubles of October 18 to 20.

If this decision is enforced it means that the people of Aleppo will be forced to pay the city's share of the fine, amounting to nearly \$100,000, by special taxation. A group of local leaders has petitioned the French authorities at Damascus to endeavor to obtain a remission of the fine as far as Aleppo is concerned. In the Aleppo district the French within the last two weeks have increased their forces from 100 to 3,500 men.

Nations League Powerless to Act

CANNOT PROBE SYRIAN REBELLION WITHOUT CONSENT OF FRANCE.

The League of Nations Council is powerless to investigate the circumstances of the Syrian rebellion without consent of the French, against

French mandate there in 1925, will not be submitted to the League's permanent Mandate Commission at a special meeting to be held in February, probably in Rome.

France already has agreed to submit the report, but so far there has been no move toward independent investigation by the league, although Moslem, and Druse leaders are anxious for the league to get its facts first hand.

This does not mean, however, that a complete report on the entire situation in Syria, and particularly relating to the administration of the

French cruellers are especially attractive when they are fed very lightly.
