Montreal, Sept. 28.—There were about 600 heat of cattle, 75 calves and 10,000 sheep and lambs offered for sale at the east end abattoir today. The butchers were present in large numbers, but there was no perceptible improvement in trade, and prices paid were about the same as were paid last Thursday, quality considered. A few head of the best cattle were sold at about 35c per lb, and others about 35c per lb, pretty good, Beeves were fold at from 25c to 35c, and the common stock at from 2c to 25c, while quite a few of the leaner beasts went at 5c per lb.

Calves were in good demand, and Mr. Jos. Richard paid \$22 for three of the best veal calves on the market. Common calves sold at from \$3 to \$5 50 each.

Shippers are paying from 25c to 3c per lb for good large sheep. Lambs sell at from 3c to 35c per lb, very few going about 35c per lb.

Fat hogs continue to sell at from 35c to 4c per lb. mothyseed, per bu. . . . . 0 00 to

# TELEGRAPHIC BREVITIES

Mrs. Duff, wife of Mr. J. Mowat Duff. manager of the branch of the Bank of Commerce at Guelph, died Tuesday morning.

At the West Wisconsin Methodist Conference the vote in favor of admitting women to general assemblies was 86 to 6. Mr. J. C. Donaldson, barrister, Fer-

gus, is lying dangerously ill from can-cer of the stomach, and his life is despaired of. Gerrard street Church, Toronto, has the honor of being the first one of

the Methodist connexion in that city to be free from debt. The last \$50 was paid off last week. A stranger believed to be G. L. Twiss, of Hartford, swallowed a quantity of laudanum at St. Catharines with suicidal intent. He recovered un-

der a doctor's care. The Spanish Government is withdrawing the detachments of troops stationed at the different plantations in Cuba, and is authorizing the planters to enlist local guerilla forces for

their own protection. An inquest was begun at Rainham Center in the case of Geo. H. Sternaman, who married a widow in Buffalo and was taken sick with symptoms of poisoning. He died after being brought home, and the case is exciting great interest in the neighborhood. The Century Theater, which has been in the course of erection for more than a year, at a cost of nearly \$2,000,000.

with stealing wheels and whips from a Lambeth farmer. -A horse driven by Mr. Jas. Learn, of South London, went into a hole on the Wortley road, south of Elmwood avenue, today, and came near being placed "hors de combat," but fortunately it was extricated without serious damage.

-The committee chosen Dairymen's Association to draft a constitution and bylaws governing the organization met last night in Heard's Hall, Wellington street. There was little business done, and they adjourned for two weeks.

-The game throughout the country seems to be somewhat scarce this year, according to accounts from sportsmen. The partridge season opened on Sept. 15, and will close on Dec. 15. Quail and wild turkey may be shot on and after Oct. 15, until Dec. 15. -The second installment of city taxes was due today, and there was quite a rush to save the fine for arrears. A good many paid the third installment in advance in order to get the 3 per cent discount, but they were not so numerous as the collectors would like.

-A social will be given in Cullis' Hall tomorrow evening, under the auspices of the G. I. A. of the B. L. Engineers. It is called a "Blue Jay Social," and promises to be a rich treat for those who attend. A splendid programme will be rendered. Refreshments will also be served.

-A novel party was in the city yesterday. It comprised Mr. T. C. Patteson postmaster of Toronto; the Misses Patteson, Mr. C. S. McInnes and Mr. James Drew. This tried thousands of local applications, means that London has no chance. YOUNG LIBERAL ELECTION.

At a largely attended meeting of the executive of the Young Liberal Club, held last evening, the president, Dr. Geo. C. Davis, being in the chair, it was decided to hold the meeting for the nomination of officers on Tuesday evening, Oct. 6, and the election on Friday, evening, Oct. 16. There will be an unusually keen competition for PROF. ALEXANDER'S LECTURE.

Prof. Alexander gives his celebrated lecture on "Love, Courtship, Marriage and Jealousy" tonight at Music Hall. The professor has proved himself to be a popular lecturer during his stay in London, and his lectures have been well worthy of the patronage they have received, but none of them have attracted so much favorable comment from the press and public wherever it has been given as that to be delivered tonight. The subject is one of interest to married and single, young and old, and the manner in which it is presented has gone far towards making the reputation of the professor as an earnest, capable and witty exponent of the gospel of common sense. The professor continues his lectures this week, lecturing tomorrow at 2:20 to ladies, and every evening to men. WEDNESDAY'S POLICE COURT.

The police magistrate this morning had not many cases to deal with. It was a miserable day outside, and the inside of the court was almost as dismal. James Kelly was charged with vagrancy and begging at the corner of King and Richmond streets. He pleaded hard to be let go and given a chance to get out of the country. By questioning him the magistrate learned that he had been in the Central Prison for being drunk and dis-orderly; had been at the Alexandria Home in Waterloo, and had served two years in Kingston Penitentiary for robbery at Sarnia, which he said admitted. The magistrate remanded him for one week to make further inquiry as to his identity. Robert was charged with a breach of the bylaw for tieing his cow to a tree on Tecumseh avenue, South London. PRESBYTERIAN MISSIONS.

The half-yearly meeting of the Western Canada Presbyterian Foreign Mission Committee convened yesterday. in Toronto, Mr. Hamilton Cassels occupying the chair. The meeting was a large one. Business relating to the general field occupied most of the day Applications for appointments as missionaries were considered, and, as the finances of the fund are slightly in arrears, it was decided to make a spe-cial appeal for aid to the churches. The establishment of a training school for lady missionaries was discussed. Forms were adopted for securing detailed information regarding mission work, permanent records of which will be kept by the secretary. Rev. Dr. J. Frazer Smith, who was formerly connected with mission labor in Honan, China. was appointed mission treasurer for India. The meeting will continue in session today.

STILL A MYSTERY. A final attempt was made last night to pierce the deep, dark, dense mysning. The building covers half a tery surrounding the two watering square, and is of white marble, with carts which seem to have gone where the woodbine twineth. Even the cathode rays of aldermanic intellect have failed to penetrate the gloom in which those carts are wrapped. Last

night the special investigating com-mittee, appointed at Ald. Pritchard's request, besought ex-Ald. Fitzgerald to throw some light on it. Mr. Fitzgerald was chairman of No. 3 ccmmittee when those carts were supposed to be doing business. He had a feeble, flickering recollection that some of the carts were repaired during his term of office, and that there was a cart in pieces at Mr. George Heaman's yard, which the latter had no use for. The committee could get no further than this, and it was decided to read a report of the evidence, gathered at three sittings, at the council meeting on Monday night. It is evident that the watering carts will have to go down in history in the same category as Charlie Ross and other mysteries of the nineteenth cen-tury. Ald. Pritchard, Douglass, Carrothers, McCallum and Armstrong compose the committee.

#### COMING TO LONDON.

Four Grand Trunk Dispatchers From Hamilton-The Work to be Contralized Here.

Private information to The Advertiser from Hamilton states that it has been definitely decided that four of the Grand Trunk dispatchers at present employed there will be removed to London. This is a change which has been contemplated for a long time, and it becomes necessary under the new order of things by which Grand Trunk affairs west of Toronto have

been largely centralized in London.

The accession of the Hamilton men will make no change in the office here. The work which is now being done at Hamilton will be done here instead. The acquisition of four well-paid men, such as dispatchers are, is a matter for congratulation.

#### NORTHWEST ASSEMBLY.

#### Opening Day - Lieut.-Gov. Macintosh's Statement of the Situation.

Winnipeg, Man., Sept. 30. - The Northwest Assembly was formally opened yesterday at Regina by Governor McIntosh. In the course of his address, he said:

"Altogether agricultural and stock raising interests throughout the Northwest are eminently satisfactory, and although certain crops are not as large as in some years, other branches of farming industry have permanenty improved."

The progress of educational institutions in the Territories must be considered as very satisfactory. On Aug. 29, 1895, there had been proclaimed 384 public schools, 36 Roman Catholic public schools, 10 Roman Catholic separate schools, and 2 Protestant separate schools, in all 432 school districts. During thirteen months that have since elapsed 50 public schools, two Roman Catholic public schools, and one Protestant separate school have been erected, making a total of 485 schools, and estimated number of pupils in attendance was 10,710.

IN PENNSYLVANIA.

Philadelphia, Pa., Sept. 30.—Last night's storm did great damage in this State, but the wires are down in nearly every direction, and it is difficult to obtain reliable information. Between this city and Baltimore, out of 100 wires only five are working. South of Baltimore there is not a single wire of any sort. In New Jersey the storm was also severe.

Newburgh, N. Y., Sept. 30.—During

the terrific storm on the Hudson River this morning the passenger propeller Redfield, from New York for Hudson, collided with the tug boat Edwin Terry, off Coldspring. George Ham-mond and Robert Roosa, both of the tug Terry, were seriously injured.
New York, Sept. 30.—Last night's wind storm, though furious in this city and vicinity, as elsewhere in the East, did but little damage ashore. BUSINESS SUSPENDED IN SAV-

ANNAH. Savannah, Ga., Sept. 30 .- During the storm business in the city was suspended. No person dared appear on the streets. The street cars halted, elevators stopped running, electric currents were shut off through fear or because of breakages, portions of big buildings were wrecked, vessels turned over in the river and church steeples toppled over, and the streets literally strewn with debris of every imaginable kind. The wind reached a velocity of 80 miles an hour.

Among prominent buildings damaged are: City Exchange, Savannah Theater, J Bounke & Sons, Savannah guoana factory, Savannah pants factory, Somer & Hill Co., guoana factory; Solomon & Sons, wholesale grocery building; A. S. Brown & Sons, planing mills; Plantráilway system depot, total wreck; Plant system shops; central of Mas-sops; Chatham Academy; Presbyterian and Lutheran Churches; car sheds of the City and Suburban Railway Co., Savannah Brewing Company.

Hundreds of dwellings are either totally demolished or damaged, and many of the principal retail stores of the city are sufferers. There has not been such a general

loss from a storm in this city in years. The loss of life, it is feared, will be great. Already ten deaths are reported. Within two hours and a half after the storm began the sun was shining and the rain ceased.

AT CHICAGO. Chicago, Sept. 30.-Great damage to property and many accidents resulted from the furious gale on the lakes. The most serious accident in the port of Chicago occurred this morning, when the schooner Seaman broke from her moorings in slip E, at the foot of Randolph street, and while being hurled about by the storm, wrecked and sunk half a dozen smaller crafts

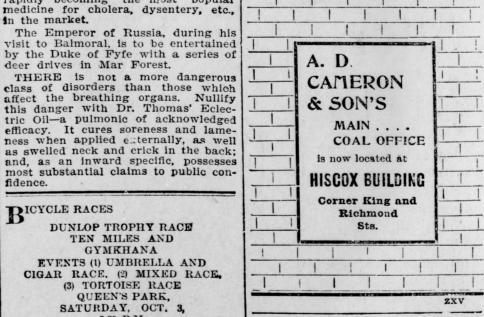

COMING ALONG. "The West Indian storm," says Prof. Garret, of the Weather Bureau, today, 'has moved west of north, and is cen-

tral this morning over northern Lake Huron. The western movement of the storm has been attended by destructive easterly gales along the Atlantic coast. Over the lake region the northward advance of this storm has been attended by heavy rain and high winds, the highest velocity reported, 52 miles from the southwest being eastward over the St. Lawrence Val

#### ley.' A RECORD-BREAKER.

Lancaster, Pa., Sept. 30.-For over an hour last night this city and county were subjected to the severest wind storm ever known here. It is impossible to form any estimate of the number of buildings wholly or partially demolished or the monetary extent of the damage. The greatest single loss is that of the Pennsylvania Railroad bridge across the Susquehanna at Columbia, nothing being left of it but the piers, the iron span in the middle and the first span at each end. The bridge was a mile and a quarter long. and cost \$1,000,000.

Washington, D. C., Sept. 30.-An equinoctial storm last night gave Washington the worst shaking up it ever had. The wind blew in a rotary, twisting, wrenching velocity of 75 miles an hour. Rain was driven in floods-it did not fall. Many buildings were either demolished or badly damaged. At the water front every boat received terrible wrenchings. The yachts were all torn loose from their moorings, and some of them went adrift down stream or were dashed against other boats and the sea wall. It is impossible to compute the amount of damage. At 11 o'clock p.m. a crash that could be heard a mile away told those in its vicinity that the Metrooplitan Railroad power house on Four and Half streets had fallen in. All the houses within half a block were shaken to their foundations.
