Now Believed in London That Balfour is Good For a Long Term.

Cape Colony's New Emigration Scheme Seems to Work Very Well.

Yorkshire Post Says Laurier Raises Question of Imperial Responsibility.

London, Oct. 26.—(Special.)—The minis.erialists, instead of reckoning the life of the present parliament by months now give it years, and believe that it will not be dissolved until it runs its natural course. The principal object of the Liberals is to force a dissolution, to do which would require the defeat of the government, and to accomplish which they have very little chance. Premier Balfour favors an election at no distant date. Mr. Chamberlain has said he could not leave England this year. Since he has left the government his presence is not needed in the Commons next session. He could, without inconvenience, tour the colonies next year, and rumor says he will.

Cape Colony's new emigration scheme seems to work well. By the new arrangements husbands have to satisfy the Cape authorities that they are married, and when their case is approved of there, assisted passages are granted their wives and children at reduced

The clause of the will relating to the care of the children, was the first one attacked by the legal representative of Mrs. Burdick. She retained possession of the children pending a decision on the centested clause, which was eventually decided in her favor, so that the children have never

Portland, Oct. 26.—The United States grand jury today returned an indictment against Asa R. Thompson, receiver of the land office at La Grange, Oregon. There are three counts in the in-
