THE NEW YEAR.

The most momentous year in the history of the world has closed and we are on the threshold of a new year. What will it bring forth?

We trust that it will bring peace and prosperity to Canada. With the return of thousands of soldiers to the walks of peace, business and production will take great strides and great prosperity is looked for.

With the return of shipping to the trade routes New Brunswick will see great activity as its ports during this winter and next summer. The lumber ports will be crowded with shipping to enable the large stocks of lumber now on hand to be landed in England and Europe where much such material will be needed for reconstruction.

This is no time for faltering. It is a time to "carry on" in every sphere of activity, in agriculture, in manufacturing industries and in the development of our natural resources. We have a great west, only just entered upon its development. We have a great east, capable of much further development. The scattered provinces confederated as the Dominion of Canada have a great future in store and their destiny, wisely directed, is to fill a still more important place in the great empire of which we form a part.

IMPROVEMENT NEEDED.

For years people travelling on the west suburban, which is supposed to leave the depot here each night at about 9 o'clock have been obliged to put up with a train service which is a disgrace to the officials in charge at this divisional point.

A correspondent who was a shopper here the day before Christmas tells of his, (and others) experience, and we understand this is a regular occurrence.

Now that the war is over something should be undertaken to improve the railway accommodation in and out of Campbellton. Much of the trade which should naturally come to Campbellton is driven away by an indifferent railway service and steps should be taken as early date to have the service improved.

A CHANCE FOR ECONOMY.

The question asked by Conn. Currie, "Are three policemen needed" is a timely one. There are many citizens who claim that for the past three months the work of keeping the peace in this town could be very well looked after by two men. A glance at the police book will show that outside a few prisoners who were lodged in the lockup by the C. G. R. police or the Prohibition Inspector, very few arrests have been made during the past six months and it is admitted by all that Campbellton is one of the quietest towns in the province.

We could very well save \$85.00 per month for other more needed services.

THE CHEAPEST THING.

Any man can take a newspaper. It is the cheapest thing he can buy. It comes to you every week, rain or shine, calm or stormy. No matter what happens, it enters your door a welcome friend, full of sunshine, cheer and interest. It opens the door of the great world and puts you face to face with its people and its great events. No man is just to his children or good to himself who does not take his home paper.

A BAD HABIT.

Boys who smoke cigarettes are like worms. They drop long before the harvest time. They rarely make failures in after life, because they don't have any after life. The boy who begins smoking before his fifteen year never reaches the life of the world. When the other boys are taking hold of the world's work, he is concerned with the sexton and the undertaker.

WHAT IS A CORD.

A cord of wood is 128 cubic feet of wood, regardless of the length of the cord. A tier of wood eight feet long, four feet high and four feet wide is a cord. It may be twelve inches, fourteen inches or sixteen inches in length so long as it has other dimensions in proportion to make 128 cubic feet.

STATESMEN PRAISE SALVATION ARMY

Give Strong Endorsement to Salvationists' Million-Dollar Drive.

His Grace the Duke of Devonshire, Governor-General of Canada; Sir Robert Borden, Prime Minister; Sir Wilfrid Laurier, and many other leading citizens of the Dominion, heartily endorse the Salvation Army's campaign to raise one million dollars for demobilization and reconstruction work. Their letters promising support to the Drive, and praising the work of the Salvation Army during the war, follow:

The Duke of Devonshire: Best wishes for the success of your Red Shield Drive for \$1,000,000 for the Canadian home and overseas work of the Salvation Army. I hope this Drive will be generously supported by the people of Canada.

Sir Robert Borden: Very glad to send my best wishes for every success in the endeavor of the Salvation Army to raise a Million Dollars for its Canadian home and overseas work. The effort of the Salvation Army in aid of the national purpose is worthy of the highest appreciation.

Sir Wilfrid Laurier: I have the honor to acknowledge receipt of your communication, informing me that you are making a special appeal for assistance to the Salvation Army. I can testify to the good work done for many years past by your association, and I will be happy to contribute my mite.

Sir Thomas White: Glad to learn of the demobilization and reconstruction programs of the Salvation Army. Its excellent work on the Canadian and all Allied fronts is greatly appreciated by the Government. In Canada the Army has assisted all other organizations in their war campaigns and materially aided in the flotation of our Victory Loan.

N. W. Rowell: I wish you every success in your demobilization and reconstruction million-dollar campaign. The war work of the Salvation Army is deserving of support of all good citizens. I heard nothing but praise of it when overseas.

To the Editor of the Graphic,

Dear Sir:

The people who came to Campbellton from the west on Tuesday to do their Christmas shopping at Campbellton depended on going home on the Suburban got the worth of their money if staying all night on the train counts. On the arrival of the west local that was due at 9:40 the call was sounded, "All aboard for Athol, Moffats, Flatlands, Matapedia and St. Alexis." After the forty-five passengers got aboard, they were shunted up and down through the yards to where they were well satisfied they had the worth of their money before starting. At 1:45 their spirits rose as the train started away from the station but alas a sudden jolt and once again the crowd was doomed to disappointment as the train again started to back up and asking what the matter was, the passengers were informed that they would have to stay where they were until after the arrival of No. 4, due in Campbellton at 2:50. Hearing of this the passengers from Athol got off the train and walked home. The rest of us, leaving the train men well satisfied that they had made a good day's pay, and had only just got started on their journey. Hoping we'll have better luck next Christmas and thanking you Mr. Editor for the space in your valuable paper, I am,

Yours truly,

A PASSENGER.

A PUZZLER.

Here is a puzzle that puzzles everybody: Take the number of your living brothers, double the amount, add to it three, multiply by five, add to it the number of your living sisters, multiply the result by ten, add the number of deaths of brothers and subtract 150 from the result. The right figure will be the number of deaths, the middle will be the number of living sisters and the left will show the number of living brothers. Try it and see.
