

# CABLET CHANGES WILL BE THE NEXT MOVE AT OTTAWA

## MEIGHEN FORCES HERE ARE READY FOR BIG POLITICAL CONFLICT

With Bluff of Opposition Called, Government's Lieutenants Plan Keen Campaign.  
WESTERN ONTARIO WILL STAND BY FISCAL POLICY.  
Members and Leaders Optimistic As To Issue At First Conference.

The first incident of the federal campaign, which was virtually launched by Premier Meighen's election announcement of last evening, was an enthusiastic conference of Western Ontario members and leaders, held at the Tenthue House following the Grand Opera House meeting. There were nearly 100 present, and the gathering was marked by a feeling of keenest optimism.

The premier himself gave a short talk in connection with the general situation, and others who took part in the discussion included Senator John Fisher, of Paris; Dr. Michael Steele, M.P., South Perth; J. E. Armstrong, M.P., East Lambton; H. B. Murphy, K.C., M.P., North Perth; Sam Charters, ex-M.P., of Peel; and R. Dennis, Windsor.

Lieut.-Col. W. J. Windsor, remarked that he had thought his day of political activity past, but after hearing Premier Meighen he had decided to go home and take up his coat and fight as he had never done before.

**OUTLOOK EXCELLENT**

F. Stewart Scott, M.P., South Waterloo, who is in charge of party organization in the Western Ontario section, remained in the city on business, and in an interview given the Free Press this morning expressed a decidedly optimistic feeling as to the outlook for the National Liberal and Conservative party in the forthcoming contest.

"We are well satisfied with the premier's decision to go to the country this time," he said. "It will clear the air, and we will get a pronouncement on the tariff issue. There is no doubt that Western Ontario will stand by the fiscal policy of the Government. Our real opposition will come from those members of the Farmers party who are calling for free trade. The fact that the election cannot be taken as a criterion, however; there was on that occasion a combination of forces to defeat Sir William Hearst. In the coming contest the tariff is the real issue, and I believe Western Ontario will stand solidly for our policy."

**THE BLUFF CALLED**

J. E. Armstrong, M.P., left at noon for his home in Petrolia, with the intention of bringing his family from their summer home and throwing himself into the Eastern Ontario campaign as soon as a convention is held.

"The premier has called the bluff of the Opposition," he said, in conversation with the Free Press. "The premier has been going about demanding an election, and all the time afraid of it. We have every reason to be confident of our position as regards the tariff, and that is the question, and the only one of any importance, especially in Old Ontario. The western part, at least, of this province stands solidly to a man behind Mr. Meighen."

"Western Ontario has more industries, I should say, than all the remainder of Canada put together, and a population of 1,600,000. Its manufacturing industry provides a home market for the farmers of this district. Both the Farmers' platform and the Liberal platform call for free food and farm products. That would close the 200 canning factories in Western Ontario and drive the sugar beet industry out of the country. It would close a number of industries in your city, such as the breakfast food factories, and would put out of business the Quaker Oats plant at Peterboro, which is a branch of an American firm."

A number of riding executive meetings have been called throughout Western Ontario, preliminary to the holding of nominating conventions. It is understood that an office will be opened in London to assist in the campaign in Western Ontario.

**THUNDERSHOWERS**

**ROBABILITIES**

resh southwest winds, mostly fair and warm; local thunderstorms to be expected on Saturday. Sunday—Clear. Cooler.

**NOTES**

A shallow trough of low pressure extends from Lake Superior to the Southwest States, while pressure is relatively higher both east and west. The weather has been fine over the greater part of the Dominion.

## 10-Year-Old To Attend Western University

Rose Reeve Believed To Be the Youngest Student Accepted By Canadian University.

Western University will have a 10-year-old student this fall in the person of Rose Reeve, whose application has been accepted by the executive secretary, Lieut.-Col. Walter J. Brown. She will be the youngest university student in Canada, possibly in the world. Little Miss Reeve will take modern languages, including French, Spanish and German, also the full course in literature, and the regular first year course in physics and chemistry.

Col. Brown, in accepting the student, pointed out that she must first be given a complete health certificate and stated that if the youngest at any time shows any ill-effects of her precocious advance in learning, she will be sent home.

She has already made a wonderful advance in knowledge and probably knows more English words and their meaning to-day than any other person in the world. She is a native of the "U.S." students, this fall, will call her the dictionary. And when they wish to find the meaning of some such word as "microcosm," they will consult the little human encyclopedia rather than the less interesting tomes which bear the name of "Webster."

FIELD MARSHAL VON BUELOW, commander of the second German army during the war, who is dead in Berlin.

## HEAVY FIRING IN THE STRIKE ZONE

Battle Line Now About 20 Miles In Length.

## "ONE CONTINUAL ROAR."

"Invasion" of Logan County, Virginia, Is Resented.

LOGAN, W. Va., Sept. 2.—(Canadian Press Dispatch).—After a morning of uncertainty, in which reports from Spruce Fork Ridge had told of sporadic fighting since daybreak, it was officially announced at noon that "heavy firing" was taking place at Blair Mountain, Mill's Creek and Crooked Creek.

Airplanes reconnoitering over Boone County, east of the ridge, reported increased activity among the armed bands which have assembled there, while a courier from "the front" said it was "one continual roar along the entire line. These reports, which had the official sanction of the civil and military commanders here, indicated the heaviest fighting since the line was established along the Spruce Fork Ridge and efforts were made by the Logan County authorities to stop what they termed an "invasion" of their county.

They said that new men had been sent into the line, which now was about 20 miles in length, and that these men were fresh and amply provided with munitions and provisions.

Reinforcements continued to reach Logan from the southern part of the state.

In addition to their rifles and pistols they brought with them automatic rifles and machine guns. The country town of Logan, while stirred by the intense military activity, showed no signs of uneasiness or carrying on the campaign, the ridge with calm assurance. Few comments were heard when it was known that federal troops were on their way.

**TROOPS SET OUT.**

WASHINGTON, D. C., Sept. 2.—Orders for the immediate entrainment of troops for the West Virginia strike zone were issued by the War Department today. Major-General Harbord, assistant chief of staff.

They were postponed, however, on the question of declaring martial law, pending conferences between Secretary Weeks and other Government officials. (Continued on Page Fifteen)

## No Fees For High School Students In The Future

Automatic Abolition of All Charges Announced By Inspector C. B. Edwards.

"Under the law as it stands amended with regard to high school attendance," Inspector C. B. Edwards stated today, "no fees may be charged for any pupil." He then cited the section of the Education Act, which reads: "No fees shall be charged any pupil for attending a high school who has a right to do so under this (the Adolescent School Attendance Act) measure."

Final ruling in the matter has been asked from the department of education in Toronto, but Mr. Edwards, speaking with absolute conviction, believes that all fees have been automatically abolished as regards high schools. Not only for those of an age when they are supposed to attend high school, but all persons of whatever age.

"From 18 to 80," said Mr. Edwards, "it makes no difference. As the law stands, no fees can be charged for attending a high school."

Confirmation of Mr. Edwards' opinion will doubtless be received before the opening of the Collegiate and Technical School on September 6. As it is, the heads of those schools are proceeding on the presumption that all high school fees have been abolished.

At the same time the Board of Education is preparing to charge \$4.41 for each rural pupil attending the city public schools.

The question of fees to be charged high school pupils coming from the country is yet to be settled. Mr. Edwards holds that, under the amended act, the city will not be able to charge pupils any fees.

Inspector Greer holds the contrary opinion, but final settlement of the matter will have to come from Toronto.

## TROUBLE CAUSED BY LONDON'S IDLE MEN

Unrest Culminates In Big Demonstrations—Popular Councilors Arrested.

## REFUSED TO RAISE MUNICIPAL TAX RATE.

Communists Undoubtedly To Blame For Some of Recent Outbreaks.

LONDON, Sept. 2.—Demonstrations in which many thousands of London's unemployed participated occurred last night and marked the culminating point of unrest among the idle which has prevailed here during the past fortnight. Several members of the Borough Council of Poplar, a section of London, were arrested and lodged in Brixton for refusing to raise the tax rate in accordance with an order from the London Council which had taken action to raise funds to care for the destitute. The arrest of the remainder of the Council members, some of them women, was expected to-day.

The Woolwich board of guardians was asked by a deputation of a monster demonstration to pay 25 shillings a week to each unemployed man and wife in the solution of the transportation problem of the city. The buses will be under municipal control and operation and will be placed in those districts which are not now adequately served by the London Street Railway Company. It is expected that a by-law authorizing the City Council to purchase the buses will be placed before the ratepayers in the December municipal elections.

In connection with the question it is pointed out that the city is now entitled to nearly seven miles of street railway, in addition to the lines already owned. According to the street railway by-law the city can demand one mile for each thousand of population over 25,000. As the official announcement gives the city a population of more than 60,000, the mileage of tracks is now 6.34 miles short of the total, which this population could demand. The Council on a two-thirds vote could demand the company to extend its tracks to this amount.

**USELESS TO MAKE EFFORT.**

While the aldermen realize that they have this power under the by-law, they point out that it is useless to try to do anything when the franchise is nearly expired. "Thus it is probable nothing will be done to secure the additional tracks for the city."

The council could go ahead and cancel the franchise of the company," said Ald. Drake to-day. "But what good would that do us? We would be compelled to leave over the last day of the franchise, and that is what we do not wish to do. The day of the electric street car is just about closed. The motor bus is the thing of the future. You will see that we have a belt line down Adelaide and north on Talbot street, and others could be operated on the Hamilton road to the eastern city limits. Then we could also put one on Egerton street now."

**SOLVE PROBLEM.**

"This would solve the transportation problem for the meantime," said Ald. Drake, further adding that the city, with additional ones when necessary, would serve the sections of the city that are not properly served by the street railway. This at the expiration of the franchise the city would be in a good position to complete the bus system by installing a sufficient number of buses to do away with the street railway entirely."

Ald. Harley is in Toronto to-day trying to arrange for the motor bus which is showing at the Canadian National exhibition, to be brought to the Western Fair. It is expected that he will be successful in this.

CAPT. E. LLOYD JANNEY, Toronto aviator, who has been on a hunger strike in Lethbridge jail for 25 days. He went overseas with the 1st Canadian and is a native of Galt.

## TAKE VOTE ON MOTOR BUSES

By-Law Will Probably Be Submitted In December.

## TRACK CARS DOOMED?

City Entitled To Seven Miles More Car Tracks.

A small fleet of motor buses may be operating on the streets of London within a few months as the first step in the solution of the transportation problem of the city. The buses will be under municipal control and operation and will be placed in those districts which are not now adequately served by the London Street Railway Company. It is expected that a by-law authorizing the City Council to purchase the buses will be placed before the ratepayers in the December municipal elections.

In connection with the question it is pointed out that the city is now entitled to nearly seven miles of street railway, in addition to the lines already owned. According to the street railway by-law the city can demand one mile for each thousand of population over 25,000. As the official announcement gives the city a population of more than 60,000, the mileage of tracks is now 6.34 miles short of the total, which this population could demand. The Council on a two-thirds vote could demand the company to extend its tracks to this amount.

## MINISTRY TO LOSE AT LEAST FOUR MEMBERS

Reid, Doherty, Calder and Foster To Step Out For Younger Men.

## NEW BLOOD SOUGHT BEFORE THE ELECTION

Multiplication of Parties In the Coming Contest Is Predicted.

OTTAWA, Sept. 2.—(Canadian Press Dispatch).—With the return of the prime minister to Ottawa to-morrow the serious preparations for elections will be begun. Much work has to be done. Primarily, stands Cabinet reorganization. Expected some months ago the reorganization has on several occasions been delayed, but it is expected that the prime minister will now take advantage of the opportunity and go to the country on a finally reorganized ministry.

The changes will probably mean the resignations of Sir George Foster, Hon. J. D. Reid, Hon. C. J. Doherty and Hon. J. A. Calder, with possibly one or two others. Younger men will no doubt be brought in. And it is possible that the prime minister will seek new blood for his Cabinet outside the present members of Parliament. The announcement of an election has let loose a flood of rumors. The prime minister's emphasis in his London speech on the issue of protection and free trade is taken, in some quarters, to indicate that a new alignment of the older parties will be sought. Nor would some such outcome excite great surprise.

**THE FISCAL ISSUE.**

In the strength of the Government's artillery obviously will be directed against the fiscal doctrines of the National Progressives. Such a campaign, it is expected, among Government supporters, would secure a large proportion of the protection vote in the East. But the campaign is only at its initial stage and none would guess where its development may lead.

From present indications candidates will be representatives not only of the four parties officially in the field, but of almost every conceivable point of view. There are Independents innumerable, and women candidates, as well as the women's vote, may play a not inconsiderable part.

Hon. W. L. Mackenzie King, leader of the Opposition in the House of Commons, will leave for the Maritime Provinces during the last week of September and the first week of October.

## PREMIER'S AT TORONTO TO-DAY

Guest of Honor At Luncheon of Exhibition Directors.

SUPPORTERS TO MEET. Leaders To Gather At Toronto For Conference.

TORONTO, Sept. 2.—(Rt. Hon. Arthur Meighen, leader of the Canadian government, reached this city this morning, with his party, following his momentous announcement last night in London regarding the election. The premier and his general election in Canada before the new year. Premier Meighen was the guest of honor at the directors' luncheon of the Canadian National Exhibition this afternoon.

It is "Press Day," but in addition to representative newspaper men of the daily, weekly and trade papers of the province, Mr. Meighen's audience, on the occasion of his first address since the election announcement, included prominent manufacturers, farmers, labor men and professional men.

It is understood that there will be a conference of the leaders of the various parties in the afternoon, at the residence of the premier, to discuss the campaign. The premier will be accompanied by his wife and daughter.

In the afternoon Mr. Meighen gave an extended address from the main stand, using as the subject of his speech, "The Imperial Conference." He described the work that the provinces of the dominions did at the conference in London recently.

## SNIPERS MAKE TARGETS OF BOYS

Two Meet Death At Hands of Belfast Rioters.

## DEATH ROLL NOW 18.

Lads Who Climb Fence To Look Are Victims.

BELFAST, Sept. 2.—James Johnson, aged 14, died at a hospital here this morning from wounds received during street fighting here. His death, with that of Walter Campbell, who died last night, brings the death roll of the orders in the City of Belfast on Monday up to 18.

Johnson and Campbell were members of a group of five boys who climbed a wall to watch the shooting. They became targets for snipers, one of whom shot Johnson in the chest. It was a curious case of mistaken identity in connection with young Johnson. While he was lying unconscious in hospital three different families called him as a member. One man was sure the patient was his son who took Johnson's clothes home with only to find his boy seated by the side.

## DE VALERA REPLY REACHES CABINET

Lloyd George Sends Copies To London.

## DUBLIN IS ANXIOUS.

Desire In Ireland Is To Continue Parleys.

LONDON, Sept. 2.—(Canadian Press Cable).—Premier Lloyd George has sent the reply of Eamon De Valera, the Irish republican leader, to his latest communication on the Irish peace proposals to London for circulation among the members of the Cabinet. Having regard for the serious issues involved, Mr. Lloyd George has summoned a Cabinet meeting to be held on Wednesday next at Inverness, Scotland.

King George will be at Moy Hall, near Inverness, and there are reports that he will visit him there.

**DUBLIN ANXIOUS**

DUBLIN, Sept. 2.—Sinn Fein Ireland today awaited publication of the text of the letter sent to Premier Lloyd George yesterday by Eamon De Valera and his colleagues in the Irish Republican Government. Mr. Lloyd George is spending a brief vacation at Galway, Scotland, and it was announced that nothing relative to the Sinn Fein reply to the prime minister's note on the settlement of the Irish question would be given out here until it was known in the hands of our neighbors to the south.

It was believed, however, that the Sinn Fein leader did not discuss with the Sinn Fein members of the cabinet the latest note with the exception of the final clause, in which further negotiations were suggested. There is evidently a desire in the Irish Republic to develop further the conditions upon which dominion status would be granted Ireland, and there appears to be a disposition to consider favorably some features of the prime minister's terms.

A statement which, in view of the status of the peace negotiations may be significant, appears in the Irish Bulletin, official organ of the Daily Eireann.

"Ireland makes but one condition," says the paper, "that it be a free nation. The long antagonism between Ireland and England across solely from England's attempts to make the subjection of Ireland the first condition of the alliance which should naturally be between them. Whatever qualifications of 'complete political and economic separation' are made necessary by physical and historical facts will be acceptable to Ireland, provided they are consonant with the principle of government by the consent of the governed."

## APPOINT THREE "V" OFFICIALS

Murdo McLean Will Succeed R. E. Crouch As Secretary.

W. Spearman, Boys' Secretary; F. S. Houson, Laundry Supervisor.

Three appointments to the staff of the local Y. M. C. A. were announced today by Secretary Robert Liddle. Murdo McLean will succeed Richard E. Crouch as assistant to Mr. Liddle; W. Spearman, as deputy boys' work secretary, and F. S. Houson will be in charge of the new locker and laundry system which has been installed.

With the recent alterations at the "Y" the work of the association will be increased by a great deal and the directors have decided that the staff should be augmented. The work will be under direct supervision from last year, as Mr. Liddle has been placed in control of the membership, young men's and industrial departments, while Mr. Houson has been transferred to the physical department in order that Mr. Allen may be aided in caring for the double classes which will be on the two gymnasiums.

Mr. Spearman and Mr. McLean have been active in "Y" work before and will give the local association the benefit of their experience. In addition, the activities of the Red Triangle will be extended considerably.

## LETTER CARRIERS TO ASK AN INCREASE WITHOUT A BONUS

MONTREAL, Sept. 2.—This morning's edition of the Montreal Star carried a notice of the Association of Letter Carriers of Montreal, which is being held in the city. The association is mainly occupied with a discussion of wages and while no decision was finally reached it was understood that an increase of 30 per cent, with no bonus, will be asked of the Government. Final action on the question was, however, reserved until this evening's session.

It was also resolved that the superannuation paid retired carriers was "entirely insufficient" and the executive was requested to urge on the proper officials that an increase be granted in this direction.

## EMPLOYMENT SERVICES SEE GREAT NEED FOR ADVISORY COUNCILS

OTTAWA, Sept. 2.—A resolution urging on the Provincial Governments the necessity of immediately forming provincial advisory councils to the employment service of Canada was passed by the Employment Service of Canada at its session this morning. The proceedings of the council this morning again brought out sharp differences of opinion between the superintendents of the British Columbia and Ontario employment services, and Mr. Macpherson of the G. W. Y. A. This afternoon the council will deal with the unemployment situation.

## ANOTHER DISPUTE FOR LEAGUE ASSEMBLY

GENEVA, Sept. 2.—The council of the League of Nations to-day decided to refer the entire dispute among Albania, Greece and Yugoslavia to the assembly of the league for settlement.

## USE CHEMISTRY IN DIAGNOSIS

Western Medical Requires High Standing In Science.

## LIMITED FIRST YEAR.

Over 35 Applications Received For Entrance.

Graduates of Western University Medical School will not be the hit or miss diagnosticians with which people have been familiar with heretofore. For medical science has found that the tell-tale marks of disease are not found on tongues or reflexes of the leg muscles, but that absolute certainty as to the causative agent in disease may be obtained through the test tubes of chemical laboratories, under the revealing lenses of the microscope, or in the revealing evidence of apparatus which works under the laws of the science of physics.

In this respect Western University, by requiring two years preliminary work in chemistry and physics before beginning the regular medical course, and requiring even higher standing in those sciences, is following the lead of Johns Hopkins School of Medicine at Baltimore.

Chemical and physical diagnosis leaves nothing to guesswork, medical men state. The older diagnostician might, if skilled, give a correct interpretation of surface symptoms, the youngest practicing physician in his laboratory may determine the nature of diseases with a sureness that none of the old school could.

Metabolism, the study of the body, the secretions and excretions of the body. Blood tests are particularly plain indices of subtle diseases. The counting cells, blood red and white, the varieties of these white cells, the appearance of them under the microscope, all carry in plain letters the condition of the person from which the test is taken.

**NO GUESSEWORK.**

Analytic chemistry also tells the story of pathological conditions in the human body and the microscope reveals the presence of disease germs which might swarm the glands of the body while the host, apparently, was enjoying the best of health.

Physics is also valuable in determining disease. Blood pressure tests are as well known to the hydraulic engineer as to the doctor. X-ray tests, too, are common. Only 50 pupils will be admitted to the Western Medical School first year this year. Over 35 applications have already been received. Indications point to the greatest year in the history of that institution.

## SPIRIT OF KULTUR LIVES IN GERMANY

Many In That Country Predict Franco-British Struggle.

LONDON, Sept. 2.—There are many in Germany who think a "trial of military strength" between Great Britain and France is no far distant if it is declared by Adolf Hitler, the German dictator, in a lengthy interview published in the "Volkische Beobachter" of Munich.

Professor Boudin, president of the German "Kultur" still lives in the educated circles of Germany.

## FUNERAL OF MR. DEVLIN.

OTTAWA, Sept. 2.—The funeral of the late E. B. Devlin, K. C., member of Parliament, will be held to-morrow at 11 o'clock at the funeral home, 1311 St. Patrick street. The funeral will be held at 11 o'clock at the funeral home, 1311 St. Patrick street. The funeral will be held at 11 o'clock at the funeral home, 1311 St. Patrick street.

## BURGLARS ENTER SWIFT HOME, RIDOUT STREET

Burglars some time during last night entered the residence of Sidney D. Swift, vice-president of Greene-Swift, Limited, at 133 Ridout street, south of the city. The burglars entered the house by way of a cellar window.

## DETERMINE STATUS OF NONRESIDENT PUPILS

Inspector Edwards Searching School Laws To Get Information.

Senior Inspector C. B. Edwards is conning the school laws to-day in an effort to determine what the regulations state in reference to the attendance of non-resident pupils in the city schools. One clause of the act states that any non-resident who owns property in the city on which the assessment is equal to the average assessment in the city may send his children to the city schools on equal terms with resident pupils. But the trouble is to determine just what the average assessment is. Information received at the assessment office is to the effect that the average assessment in this instance would probably refer to residential property. According to some the average residential assessment is approximately \$1,200. If this is the correct interpretation non-resident who does not own property assessed at \$1,200 or more will be entitled to send children to the city schools free.

## GEN. WOOD ACCEPTS POST IN PHILIPPINES

MANILA, Sept. 2.—Major-General Leonard Wood to-day announced his acceptance of the post of governor-general of the Philippines, tendered to him by President Harding.

## RIDOUT GIRLS WIN.

Ridout Street Methodist Church Girls' baseball team defeated the Robinson Memorial team by 11 to 7 on Thursday. Hyde Park will play the Commercial team to-morrow at Broughdale.

## Prophets Agree On December 15th As Election Date

TORONTO, Sept. 2.—(Canadian Press Dispatch).—While the date of the general election for the Federal House of Commons will probably not be announced until after Premier Meighen has had ample opportunity to consult the other members of the Cabinet, the general opinion here is that it will be about the middle of December.

The prophets are nearly unanimous on Thursday, December 15, as the correct date.
