Potato Situation in the Annapolis Valley

It is not with the intention of adversely criticizing the Farmer that the following suggestions are offered.

Supporting the greater production campaign of the early spring months the Farmer finds himself with bumper crop of potatoes and a keenly competitive market. Reports from all sources indicate a world's supply, hence much care must be exercised in storing and packing to hold our own in competition. Prices in Cuba our principal market are good at present, but until the early Virginia and Carolina crops are cleared up we must ship only what surplus the market will absorb or break the prices with a temporary glut. This is in keen contrast with last year when the market were seeking the Grower.

The Fruit Companies and local Speculators have formed an association to study the markets and only place cargoes of potatoes where they can be absorbed without causing drop in prices. This is a step in the right direction. There is another question of grave importance that must be taken into consideration: It is the question of pack. It is worse than folly to barrel and ship decayed potatoes. We may rest assured such a course eventually puts the burden on the grower.

This year considerable rot has developed in unsprayed potatoes in Digby, Annapolis and parts of Kings County. Even sprayed potatoes although showing much larger yields, are in some cases showing occasional rot. In view of this, potatoes showing any signs of rot should be picked and repicked to insure none going into storage having signs of decay. Potato fields showing rot on digging should be repicked after being in storage a short time; if much rot then shows they should be picked over a second time.

Only a few days ago the writer happened to pass a field where hundreds of barrels of newly dug potatoes were standing, each barrel covered with the tops of the newly dug tubers.

It is a well known fact that the rot in potatoes develops from a fungus the spores from which come from diseased tops. There is no better way of insuring that all the potatoes will rot than covering the open barrels with potato tops. Under no condition should potato tops be used to cover open barrels of potatoes. Until the extent of the rot is determined the movement to purchase will be very cautious on part of speculators.

We believe MINARD'S LINIMENT is the best:

His Son is Like A Different Boy

Farmer Says Way Tanlac Has Brought His Child Out is Simply Wonderful

"My son is like a different boy since he began taking Tanlac and I feel like I ought to let everybody know how the medicine has brought him out," said William Perrin, well known farmer at Clarendon, Queen's County, N. B.

"My boy had been in a badly run down condition for some time. There was no color in his face and he looked so unhealthy that we feared he was going into consumption. He had no little appetite that nothing would tempt him to eat and he used to sit down to the table and just nibble at his food. His nerves were in such a terrible state he would toss about for hours at night, unable to sleep.

"When we saw by the people how Tanlac was helping others we decided to let him try it and after the first bottle we could see a big difference in him. He began to eat much better and to take an interest in things. The color came back into his cheeks and he now has a good healthy appearance. He must have gained a good many pounds in weight for he looks much stouter and is so strong that he can do a man's work without getting tired. He sleeps well at night and gets up in the mornings as happy as a lark. Honestly, you wouldn't know him for the same boy that he was three months ago, and his wonderful improvement is entirely due to Tanlac."

Tanlac is sold in Bridgetown by S. N. Wear in Middleton by Clifford A. Mumford and in Bear River by L. V. Harris.

ROBBED AND LEFT TO DIE

James Young, of Bloomfield, Died Under Suspicious Circumstances

(Salem, Mass., News)

IPSWICH, Oct. 13.—The death yesterday morning at 9, at a stable on Topsfield road, of James Young, under suspicious circumstances, is causing an investigation of the affair to be made by the police department. Acting under instructions from the district attorney, an autopsy was performed yesterday afternoon by Medical Examiner G. G. Bailey assisted by Drs. Ames, McGinley, MacArthur and Mansfield, and the findings of the medical examination were forwarded to the district attorney's office.

At 6:30 yesterday morning, Edward Cooper, who has resided here but short time, went to the stable to care for a horse that he kept there. As he entered the stable, he saw Young lying on the floor in a dying condition. According to the story told by Cooper to the police, Young claimed that someone had struck him, and had robbed him of his watch. Young was in a serious condition, and died without being able to give any further information as to the cause of his injuries. As Cooper was the first man to enter the stable he was held by the police pending a complete investigation.

The police are working on the theory that Young was not the only man who slept in the stable on Monday night and that he was either the victim of a drunken attack, with robbery as a possible motive or that he might have fallen or been pushed from a hay loft, suffering injury that resulted in death. It was believed that at least four other persons spent the night in the stable with him and the police were busy yesterday endeavoring to ascertain the whereabouts of these other parties.

The deceased was born at Bloomfield, Digby County, N. S., Oct. 12th, 1852 and was the son of Michael and Helen Young. He was a single man and had resided in Ipswich for about 28 years. He was a man of very quiet disposition and a man who never sought or made any trouble. He leaves five brothers, John Young, of Bloomfield, N. S., George Young, of Beverly, Alfred Young, of Dover, N. H., and Michael and Ambrose Young of this town. He also leaves one sister, Mrs. Margaret Comeau, of Bloomfield, N. S.

The First N. S. Egg Laying Contest

Report of Contest, Prize Winners at The Poultry Department, Agricultural College, Truro, N. S.

This Contest started with 150 hens on November 1st, 1919. There were thirty entries of 5 birds to each entry. The duration of the Contest was for 48 weeks or for 12 periods of four weeks to each period. The health of the birds has been excellent. Four birds died during the period of laying.

FEEDING

The feeding of the birds was not in any way unusual. The morning and evening feed was wheat in litter and during the cold weather equal parts of wheat and corn was used. During the fall and winter dry feed in hoppers was supplied. This dry feed consisted of equal parts by weight of bran, middlings, cornmeal, gluten meal, ground oats and meat scraps. At noon each day a feed of boiled vegetables dried down with bran and middlings was fed to the hens. Not any more than they would consume in ten minutes was given to them of this moist mash. Water was supplied for drinking at all times. Grit and Oyster Shells were kept before them.

HOUSING

The birds were kept in double colony houses, two pens to each house 12 x 12 with open front. The pens were not put down except on very stormy days. No frost or dampness was to be observed on the inside of the houses at any time.

THE BREEDS

There were six pens of White Wyandottes, six pens of Rhode Island Reds, five pens of White Leghorns, five pens of Barred Plymouth Rocks, two pens of Anconas, one each of Rhode Island Whites, Buff Leghorns, Blue Orpingtons, Single Comb Brown Leghorns and Rose Comb Brown Leghorns.

THE NUMBER OF EGGS LAID

The number of eggs laid by the 150 hens was 22381 or an average of 152.54 each for 12 months.

The prize winners are as follows:
1st. pen 27 John Retson, Truro, N. S., Rhode Island Reds 967 eggs \$20.00
2nd. pen 25 C. B. McMullen, Truro, N. S., S. C. Rhode Island Reds 917 eggs \$18.00
3rd. pen 18 Nat. Doherty, Halifax, Barred Plymouth Rocks, 915 eggs \$16.00
4th. pen 30 W. A. Warren, Bridgetown, N. S., Barred Plymouth Rocks, 906 eggs \$14.00
5th. pen 29 Robert H. Evans, Trenton, N. S., S. C. White Leghorns 872 eggs \$11.00
6th. pen 2 John R. McDonald, Glace Bay, N. S., S. C. White Leghorn, 864 eggs \$8.00
7th. pen 15 W. J. McKinnon, Truro, N. S., Anconas, 861 eggs \$5.00
8th. pen 30 W. A. Warren, Bridgetown, N. S., Barred Plymouth Rocks, 825 eggs \$4.00
9th. pen 24 A. A. Sutherland, Westville, N. S., Rhode Island Reds, 812 eggs \$3.00
10th. pen 28 W. H. Henry, Shubenacadie, S. C. Rhode Island Reds, 809 eggs \$1.00

HENS

1st. hen 121 owned by C. B. McMullen, Truro, N. S., S. C. Rhode Island Red, 254 eggs \$10.00
2nd. hen 90 owned by Nat. Doherty, Halifax, N. S., Barred Plymouth Rock, 241 eggs \$9.00
3rd. hen 132 owned by John Retson, Truro, N. S., S. C. Rhode Island Red, 222 eggs \$8.00
4th. hen 135 owned by John Retson, Truro, N. S., S. C. Rhode Island Red, 229 eggs \$7.00
5th. hen 30 owned by Robert M. Reid, New Glasgow, N. S., White Wyandotte, 217 eggs \$5.00
6th. hen 111 owned by H. H. Hall, Glace Bay, N. S., Anconas, 210 eggs \$4.00
7th. hen 60 owned by E. C. Griffin, Port Williams, N. S., Rhode Island Red, 209 eggs \$3.00
8th. hen 13 owned by John R. McMullen, Truro, N. S., Barred Plymouth Rock, 199 eggs \$2.00
9th. hen 24 owned by J. W. Williams, Westville, N. S., White Wyandotte, 197 eggs \$1.00
10th. hen 86 owned by Nat. Doherty, Halifax, N. S., Barred Plymouth Rock, 197 eggs \$1.00

A number of pens in the Contest laid more eggs than some of the prize winners but owing to the Canadian Egg Standard of 2 ounces per egg which these birds did not strain in weight of eggs, were therefore disqualified. The Poultry Department has been encouraged to continue this work and a second contest to begin November 1st of this year is now under way.

DRAWING ON YOUR RESERVE STRENGTH

This is What Thousands of People Throughout the Country are Doing

Thousands of Canadian housewives are working from day to day on their nerve. They are daily drawing more and more on their reserve strength, knowing full well that they are using up that vital force which often means life or death in the crisis of disease. They are the victims of a feeling of hopeless exhaustion after the performance of even the simplest tasks which were once the simplest and easiest parts of the day's work. They find the appetite failing, sleep is disturbed and always feel tired and depressed. In this condition a blood building tonic is needed to restore health and activity, and for this purpose Dr. Williams' Pink Pills are unsurpassed. Often the trouble will have progressed to a point which makes full recovery slow, but the treatment should be persisted in and renewed health and activity will be the result.

The case of Mrs. W. Schooley, R. R. No. 2, Tilsonburg, Ont., well illustrates the value of Dr. Williams' Pink Pills in cases of health breakdown, through weak, watery blood. Mrs. Schooley says: "For upwards of five years I felt my strength declining until at last I could not do light chores around the place. Then a doctor was called in and after doctoring about a month he said that only an operation would help me. I did not feel like going through this, and decided that in any event I would wait a while I had no appetite, often had headaches accompanied by dizzy spells; several times I had fainting spells, and my legs would swell, and I could not even sweep a floor without resting several times. Again a doctor was called in and he said the trouble was general debility and nervous breakdown. The treatment, however, did not help me, and then one evening as my husband was reading the paper, he came across a case in many respects similar to mine, cured through the use of Dr. Williams' Pink Pills. The next day he got me a supply of the pills, and to their continued faithful use for several months I owe my present splendid health. I may say that soon after beginning the use of the pills I felt a gradual improvement in my condition, my appetite improved, I began to feel rested after a night's sleep and I gained in weight. My friends were continually expressing surprise at my improved condition, as it was generally believed I had become a chronic invalid. I always take a delight in telling them that Dr. Williams' Pink Pills are responsible for my present good health, and as they have been a real blessing to me I shall always continue to praise them."

If you are suffering from any condition due to poor, watery blood, or weak nerves, begin taking Dr. Williams' Pink Pills now, and note how your strength and health will improve. You can get these pills through any dealer in medicine, or they will be sent by mail, post paid, at 50 cents a box or six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

MOVING TO ANNAPOLIS

(Middleton Outlook)

C. A. Ritchie has been in town this week moving his family to Annapolis Royal. Mr. and Mrs. Ritchie have made many friends during their residence in Middleton. Miss Gertrude is one of our most popular young ladies and as for Max and Melbourne we do not know how the town is to get along without them. The Nickel sure will miss them and the baseball team can not hope for another such successful season without their mascot. The Ritchies have the best wishes of Middleton.

ROYAL YEAST CAKES

Royal Yeast has been the standard yeast in Canada for over 50 years, and it is a well known fact that bread made with Royal Yeast possesses a greater amount of nourishment than that made with any other.

Protest From the International Bible Students

J. F. Rutherford, president of the International Bible Students Association, has written a protest regarding a printed statement in connection with the activities of the national Bible Students. The protest is as follows:

"Quite to the contrary of the statement, our Association was founded in 1881 'for the promotion of Christian knowledge, orally by printed pages, and all of its activities have been directed toward the furtherance of those ends. Neither our organization, as such, nor the individual members of it, are in favor of violence. Further than that, this Association is in unanimous opposition to violence in all forms, as evidenced abundantly by the actions of its members."

"Your statement that we are 'spreading' socialistic propaganda and that we are 'wildly mislead' many honest intentioned citizens 'disguises' under which our members are cloaked" are too grossly palpably false to be overestimated. Either you have been misled in issuing this portion of your paper through dense ignorance of the facts (in which case both writer and publishers are guilty of carelessness, negligence) or you have deliberately and wickedly perverted the truth respecting a purely religious organization. In either case the perversion of facts is a public officials of a great Dominion would purposely lend themselves to such activities so have, we prefer to state that you have been invaded in operation with the efforts of an evident scheme of a madman to persecute loyal citizens because they are "non-conformist" non-secularists. Clerics and clergymen on have long opposed religious activities; not willing rely upon the Word of God for the establishment of their doctrines and practices. But seeking representation to across opinion and to call in the power against us."

"We believe in the kingdom of Christ as the divinely appointed means for adjusting all difficulties and for the fulfillment every human need. Everyone has prayed Our Lord's Prayer, believes in it; or else is a hypocrite. We believe that Jehovah will establish his own power in his own time, but not by violence on part or on the part of any faithful followers, anywhere. But not expect that you will employ means as are at your disposal to rectify the libelous statements we have made against us."

A COMPOSITE TYPE

Louis C. Minette, recently sent for enlistment in the United States Marine Corps at Tulsa, Okla., said that his mother was an Annapolis who married a Frenchman in the He was born on a ship flying Spanish colors while lying in the English Channel. At the age of his parents died in Sweden, and was adopted by a German. His adopted father is not a naturalized citizen. "Would you class as 'the man without a country' without a country nothing," said sergeant. "I'd class him as a 'man of nations.'"—Chicago News.

THE SMALL LADS JOY

Twas eventide The small lad sat on the bridge slapping his legs vigorously. Beyond the brow of a hill a dull red glow sufficed the sky. "A little boy!" remarked a stranger who was a little near sighted. "It does my heart good to see you prelude you cloud effect." "Yes, sir," replied the lad. "I been watching it for ten minutes. Upon the boy's face there appeared a smile of perfect bliss. "A real poet without a doubt," do you watch the sunset over a boy?" "Sunset? Why, that ain't a sunset, gov'nor! That's the village schoolhouse burning down!"

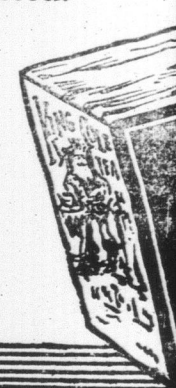

INGLISVILLE

Mrs. R. P. Best has returned from Hastings. Mrs. Irving Leonard visited parents at Tremont recently. Mr. Azariah Veint went to Hants or Wednesday to remain for a few days. Mrs. L. M. Beals is spending a few days with her son, Chester, Smith's Cove. Mrs. Harry Hatt, teacher, Virginia, accompanied by Miss Spent Thanksgiving at her home.

A N

When, four years ago first appeared, something produced—a new character after most searching experiments in flavor-blending were we at last able to develop that peculiarly mellow richness of flavor so delightful to the taste, which has won for KING COLE ORANGE PEKOE the high place it holds. The total annual sale of KING COLE ORANGE PEKOE has doubled twice in the last two years.

We are confident that you will say that it is different to any tea you ever tasted.

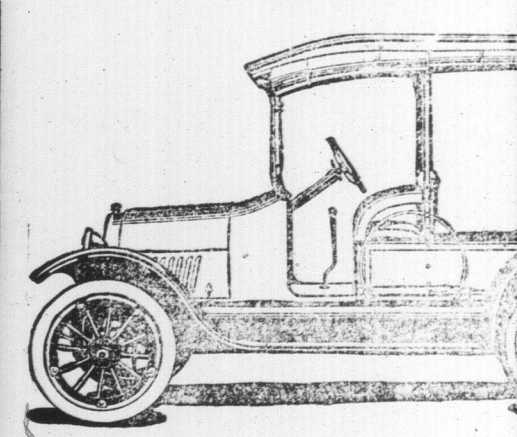

Made in Canada

WE know the sale of the Chevrolet Wagon depends on the satisfactory actual service. We also know that a motor eliminates fuel waste and delivers that ample bearings cut friction to its perfect balance—strength with sure stability and makes a maximum haul for actual hauling.

These are only a few of the of Chevrolet ability, durability and economy.
