WINTER WEATHER HARD ON LITTLE ONES

Our Canadian winters are exceedingly hard on the health of little ones. The weather is often so severe that the mother cannot take the little ones out for an airing. The consequence is that baby is confined to overheated, badly ventilated rooms; takes cold and becomes cross and peevish. Baby's Own Tablets should be given to keep the little ones healthy. They are a mild laxative which regulate the stomach and bowels and thus prevent colds. The Tablets are sold by medicine dealers or by mail, at 25 cents a box, from The Dr. Williams' Medicine Co., Brockville, Ont.
