Made up, each.....\$ 50
 " " per 25..... 10 00
 In flat, each..... 35
 " " per 25..... 7 50
 " " " 100..... 25 00

THE D. A. JONES CO.

THE CHAPMAN HONEY PLANT.

In accordance with a previous notice in Bee Periodicals, I am now prepared to fill orders for the seed of the above plant at the following prices —

½ oz., \$1; 1 oz., \$2; 2 oz., \$3; 4 oz., \$5; ½ lb., \$8.
 One ounce contains from 1600 to 1800 seeds.

On account of extreme drouth my stock of seed is limited and persons ordering will be served in rotation. The seed should be sown in the early spring and general directions for cultivation will be given on each package.

This plant is not an obnoxious weed and is as easily eradicated as clover. Having carefully watched its habit of growth and its honey-producing qualities for the past six years I believe those who commence its cultivation in a liberal way will be better pleased than by commencing with a small quantity of seed. It has been tested by prominent bee-keepers all the way from Vermont to Nebraska and Ontario. We refer to the report of the Committee appointed by the North American Bee-Keepers' Association held at Detroit in 1885. The Committee reported at the Indianapolis, Ind., convention held Oct. 12th to 14th, and their report will be found in all Bee Journals publishing the report of that convention. Write all orders plainly and give your post office address in full.

H. CHAPMAN,

83-103 Versailles, Cattaraugus Co., N. Y

A YEAR AMONG THE BEES.
