Bow Park, 16th July, 1873.

THE ABOVE SALE IS
POSTPONED
UNTIL
THURSDAY, OCT. 16.

25 Papers that have inserted this advertisement will please
insert postpaid. Same number of times and call attention
to the same.

Stamming permanently cured by Lutes' Patent Prize Scien-
tific Appliances. They received gold medals at the last London,
Paris and New York Exhibitions, and are favorably noticed in
the London Illustrated News and Medical Times.

For pamphlets and drawings describing the same, address

SIMPSON & CO., 41 BOND STREET, New York

PARIS NURSERIES
OF
Fruit and Ornamental Trees, Plants,
and Vines.

These nurseries are situated on high and exposed ground,
and are not under the ameliorating influence of a body of water,
consequently, the trees are hardy and can be successfully trans-
planted. Choice Evergreens for fall planting, large and fine.

v10-10-31

Address, **JAMES VICK, Rochester, N. Y.**

WINDSOR NURSERIES!

THE STOCK OF

FRUIT TREES, VINES, &c,

Of all kinds, for sale this fall, is very large and finely grown.

Fall planting, if the trees are got early, is better for all hardy
fruits than Spring. If got late, they should be heeled in as
directed in catalogue, and planted out in spring, which is a much
better plan for even tender varieties than waiting till Spring to
order them, as they can be planted as soon as the ground is
ready; a better selection can also be got.

v10-10-31

JAMES DOUGALL,

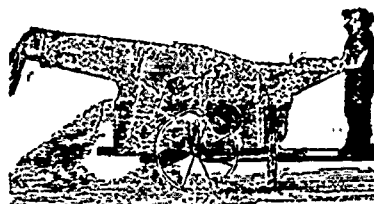

Windsor

EVERY FARMER SHOULD HAVE ONE

**THE
LITTLE GIANT**

OR

SELF-REGULATING

THRESHER AND SEPARATOR,

IMPROVED FOR 1873 (FOR FARMERS' USE,)

MADE AT THE

Stratford Agricultural Works.

I have manufactured large numbers of the above
Thresher, which have given general satisfaction
wherever introduced.

IT IS NO NEW INVENTION, HAS BEEN THOROUGHLY
TESTED, AND IS CAPABLE OF

**Threshing 200 to 300 Bush-
els of Wheat, or 400 to 500
Bushels of Oats per day.**

**It will also thresh Peas
and Barley well.**

It threshes clean, cleans well, and is not liable to throw grain
over, having regularly constructed shoe and shakers. It has no
canvas elevators or sieves, which in other machines are a con-
tinual annoyance. The Thresher is simple, can be worked by
anyone, and can be driven with four or six horses. It takes up
but little room on the barn floor, and is easily moved about,
being placed on wheels. It is the best threshing machine for
a farmer's own use (or even three or four farmers in part-
nership) while the price places it in the reach of everyone.

Price of Thresher alone \$110
Price of Thresher, with horse-power, Jack and, belting \$210 to
\$215.

Send for descriptive circular. Will have one at com-
ing Provincial Exhibition at London.
