

Aluminum Lined Aerated Ovens

Are proof against the gathering of grease or dirt of any kind. The oven is always bright and clean—not so much as a smutch to be seen anywhere. The aerated oven makes impossible the gathering of foul odors of any kind, because pure,

fresh air is ever coursing through it—the impure always crowded out. These are reasons why the most dainty and delicate dish—milky foods of all kinds—can be cooked in an aerated oven without taking on, in any degree, the odors of other dishes.

SOUVENIRS combine every modern convenience and are—
“perfect stoves.”

Our Agents, and you find them in every town and city, will be glad to describe this stove and oven to anyone interested.
