# *The Day of Judgment is Come After All*

And the jury have unanimously agreed that all the manufacturers in Canada who are looking out for their interests, are duty bound to protect themselves by using SYRACUSE BABBITT METAL only, the manufacturers to decide what grade of Babbitt they want to purchase.

For high speed and heavy pressure machinery they may choose such as Aluminum Genuine, Government Genuine, Hard Genuine and Dynamo; for medium speed Special, Manganese, Car Box and Extra; for slow speed Nos. 1, 2, 3 and 4.

THE SYRACUSE SMELTING WORKS shall have their name on every bar as a guarantee for the quality. Price is to be the lowest in Canada. Also every plumber or manufacturer who has any use whatever for any kind of solder must use the SYRACUSE SMELTING WORKS' for their own protection.

## THE VERDICT.

Everybody who is not using "SYRACUSE" BABBITT METAL or SOLDER, in fact any metals they manufacture, is working against their own interests. A word to the wise is sufficient.

## The Lamp Question

Is an Important  
One: We can  
solve it for you

That Packard Lamps are becoming better known as the most economical incandescent lamp to use is shown in the recent heavy orders we have received.

In fact, so certain are we of their superiority, that we are only too willing at all times to make shipments for test and comparison.

Packard Lamps are of long life—evenly rated—but what is the use of our telling you about them?

Send for a barrel of them to-day and become fully convinced of their merit by actual use.

### THE PACKARD ELECTRIC CO., Limited,

ST. CATHARINES, ONT.

MONTREAL, QUE.

When you are in the market for Transformers we have a very interesting story to communicate concerning our Type "R."

When writing to Advertisers kindly mention THE CANADIAN MANUFACTURER.
