THE Æolian Ventilator,

(PATENTED MAY 26th, 1894.)

WE guarantee our Ventilator to give perfect sat-
isfaction where used. Manufactured and
especially suitable for

Public Build-
ings,
Hotels,
Churches,
School Houses

Banks,
Factories,
Offices,
Private Resi-
dences,
Etc., Etc.

Cut showing the inside of Ventilator.

THIS Ventilator has proved itself to be superior
to any that has been placed before the public.
It has proved by the tests which have been made
its adaptability for ventilating large buildings,
closet rooms, vaults of churches, bank chimneys,
schools, fire-places, stables, etc.

It is fitted with a screw on the inside, by means
of which a constant current of air is established.
The chief feature of this ventilator is that its
 motive power is derived not only from the slight-
est current of air, but the difference of temperature
within and outside the building.

Every ventilator is guaranteed to give entire
satisfaction.

Testimonials obtained on application.
The ventilator is very ornamental in appear-
ance and substantial in make.

Estimates for copper ventilators given on appli-
cation.

The above cut shows a
part of the interior
of the Ventilator.
