The Gold Quartz Free Milling, Mining and Developing Co., Ltd., as the name indicates, is a Company formed for the express purpose of buying and working mining properties throughout Ontario where the ore is not refractory, but amenable to free milling, costing very little money to work and being in consequence Big Dividend Payers. The first claim to be opened and on which some work has already been done, is

THE MANITOU GEM

and known as H.P. 270, situated only 30 miles from Wabigoon Station on the C.P.R. The report of Engineer Williams is simply magnificent, and shows two distinct veins, both very rich in free gold, running right across the property.

A limited number of Treasury Shares are offered for a short time at the low price of 10 CENTS PER SHARE. These shares are selling very high and the price may be advanced at any moment without notice, therefore send in your application at once and secure your stock at rock-bottom price.

Investors and mining brokers, call or write for Prospectus and full particulars, which will be promptly and cheerfully given at the Company's Head Office.

No. 4 VICTORIA STREET, TORONTO.

TELEPHONE 948.

H. J. ROLSTON, Manager
