

wharfage, warehouses, elevators, and the most modern port facilities for the prompt handling, storing and shipping of grain and other products of the great west. Montreal should not, when making harbor improvements, lose sight of the fact that the deepening of the St. Lawrence canal will be completed in a year, and that the construction of the Ottawa and Georgian Bay canal is now looked upon as one of the next great public works necessary for the development of this country, to be undertaken and carried on in the near future. Therefore, in providing the needed improvements, provision should be made for extension, as Montreal is bound to be one of the great cities and ocean ports of this continent.

"The Dominion government should, and I have no doubt will, do their share, not only in making improvements in the harbor of Montreal, but in deepening and maintaining the channel, so that ocean vessels of the largest tonnage can safely reach the port, and the harbor board should so adjust their wharfage and other port charges as to compete with New York and attract new steamship lines and rail or inland water lines that can by their natural conditions, increase the business and tonnage of the port.

"I think I have taken up sufficient of your time, but if there are any other matters suggested by the report, as calling for explanation, either the general manager or myself will answer any questions, before the motion for the adoption of the report is put to the meeting.

"I will now move, seconded by the vice-president:

"That the report of the directors just read be adopted and printed for the information of the shareholders."

The report was unanimously adopted.

Mr. J. G. Whyte said that the report and statement just submitted was sufficient evidence that the affairs of the bank had been ably administered, and he had much pleasure in moving.

"That the thanks of the shareholders are due and are hereby tendered to the president, vice-president, and directors for their careful attention to the interests of the bank during the past year."

Senator Clemow said that he had much pleasure in seconding Mr. Whyte's motion. He thought the directors and shareholders were both to be congratulated on the good showing as the result of the year's business. He was glad to note the remarks of the president as to the possibility of the construction of the Georgian Bay canal. He was a firm believer in canals supplementing railways, and he thought the day was not far distant when there would be many more millions of bushels of grain grown in the northwest than the railroads could carry. He was strongly of the opinion that the Ottawa and Georgian Bay canal was a necessity and should be built, and that the Dominion government should assist it. He thought that Ottawa had stood by and been sidetracked long enough, and it was high time there was a change.

Mr. George Hay, vice-president, on behalf of the board, thanked the meeting for the vote of thanks, and said that if ever the bank should not be able to show a good statement, it would not be on account of want of attention to its affairs by the directors.

Moved by Mr. Newell Bate, seconded by Mr. J. Roberts Allan—
"That the thanks of the shareholders be tendered to the general manager and other officers of the bank for the efficient manner in which they have performed their respective duties." Carried.

The general manager, Mr. Burn, replying on behalf of the officers, said that the showing the bank had been able to make was due to a very considerable extent to the fidelity and zeal of the staff, who always manifested great loyalty to the institution they served, recognizing that its interests were identical with their own. He thanked the meeting for the resolution, and the kindly expressions of good-will which accompanied it. Mr. Burn then reviewed shortly the position of the Canadian banks for the past year as compared with 1893, taking 31st October in each year. He showed that the deposits in the banks had increased \$73,275,000 since 1893 and the Post Office Savings Bank \$10,000,000 in the same time. That the march of business enterprise had not kept pace with the savings of the people was abundantly manifest from the fact that the current loans had only increased \$20,000,000 in that time. It was gratifying to note, however, that the tide had turned to some extent, and that business had begun to expand, as shown by the fact that the current loans of the banks in 1898 had increased \$16,500,000. The public deposits had also been enlarged during that year by \$24,000,000. The result was manifestly that the banks generally were in a very strong position in so far as cash reserves were concerned, but that this position was not so profitable as if more activity and enterprise were being shown by good borrowers.

On motion of Mr. David McLaren, seconded by Mr. Denis Murphy, Messrs. G. F. Henderson and J. F. Cunningham were appointed scrutineers of the ballot for new directors. They declared the following gentlemen elected: The Hon. George Bryson, Jr., Messrs. Alexander Fraser, George Hay, D. McLaren, Charles Magee, John Mather, and Denis Murphy.

At a meeting of the newly elected board, held immediately afterwards, Mr. Charles Magee was re-elected president, and Mr. George Hay vice-president.

Big Scotch Whiskey Failure.

Scotch commercial circles are greatly disturbed by a big failure in the Leith Whiskey trade—that of Patersons, Limited—with liabilities of one million pounds. An agreement has been arranged with the Clydesdale and the British Linen Co.'s Bank, whereby the business will be continued until a full statement can be prepared. Some harsh criticism is indulged in regarding the affair, it being boldly stated in the press that the business has been conducted, "regardless of their best interests and the general welfare of the Scotch whiskey trade."

The Montreal Gazette of Saturday last was enclosed in a beautiful illuminated cover, in many colors. The front represented a handsomely executed Xmas fantasy. The back cover was a reproduction of the now famous picture, "What we have we'll hold," designed and used with such effect as an advertisement by the Ogilvie Milling Co.

" No. 2, only 30.00 cash

Merchants Safes, all sizes and prices
Easy terms to suit purchasers

REMEMBER

That during DECEMBER, JANUARY and FEBRUARY there are more losses through fires, than in all the other NINE months of the year put together. It is indeed a careless merchant who will run such a risk as that of leaving his books and papers in his store without some means of protection. The old saying, "an ounce of prevention is worth a pound of cure," is certainly true when applied to the purchase of a safe. Let me know your wants and get my rock-bottom prices. Cash or easy terms.
