

**CUTLER'S
POCKET INHALER**
AND
Carbulate of Iodine Inhalants.

A Remedy for all NASAL, THROAT and LUNG Diseases, affording relief in some cases in a few minutes.

This instrument is gotten up on an entirely new principle, and is well adapted to the treatment of all those diseases of the air passages requiring efficient inhalation. It is endorsed by many leading practitioners, and commends itself to all desiring an apparatus.

Dr. George Hadley, Professor of Chemistry and Pharmacy in the University of Buffalo, in a carefully considered report upon its merits, concludes in these words:—

“On the whole, this Inhaler seems to me to accomplish its purposes, by novel, yet by the most simple and effectual means; to be philosophical in conception, and well carried out in the execution.”

Always ready, no danger of breaking or spilling, besides being as safe and efficient in the hands of the novice as the adept. Made of Hard Rubber, it may be carried about the person as handily as a pencil case, and used regardless of time or place. Patented in the United States, England, and Canada. Over 50,000 now in use in this country.
