

LACTO-PHOSPHATES.

Compound Elixir of Phosphates and Calisaya,
A Chemical Food and Nutritive Tonic.

In cases convalescing from adynamic fevers, in all conditions of depraved nutrition from indigestion and mal-assimilation of food, in nervous prostration from mental and physical exertion, dissipation or bad habits, in chlorotic or anæmic women, and in the strumous diathesis in adults and children, — it is a combination of great reliability and efficacy, and it may be taken for a protracted period without becoming repugnant to the patient.

Pharmacopectine may be indicated, each fluid drachm making the 4th of a grain to a half fluid ounce of the Elixir,—a valuable combination in dyspepsia with constipation and headaches. This compound is prepared with great care, and will be maintained of standard purity and strength. Prepared by

T. B. WHEELER, MONTREAL, D. C.
