

BARB-WIRE FENCING

"MANITOBA 4-POINT BARB."

In calling your attention to the subject of **BARB WIRE**, we do so with the belief that the past Twelve months' experience of the business has increased your knowledge of the requirements of the Farmers, and fitted you to judge better of the comparative merits of the various kinds now in the Market. Barb wire is a **NECESSITY!** Farmers know its value, and the demand is **STEADILY INCREASING.** It is generally conceded that the chief requirements for a perfect fence are **STRENGTH OF CABLES, ELASTICITY** (secured by even twist) and **SHORT, SHARP BARBS**, which are **THE MOST MERCIFUL.**

In these respects the "**MANITOBA 4-POINT BARB**" excels all others, and is obtaining preference wherever it is known.
