GEOMETRICAL BOARDING.

A Kansas girl attending Vassar College sends the Journal the following excerpt from what the students of that institution call "The Domestic Euclid."

Definitions:

1. All boarding-houses are the same boarding-house.

2. Boarders in the same boarding-house and on the same flat are equal to one another.

3. A single room is that which hath no parts and no magnitude.

4. The landlady of the boarding-house is a parallelogram—that is, an oblong angular figure that cannot be described, and is equal to anything.

5. A wrangle is the disinclination to each other of two boarders that meet together but are not on the same floor.

6. All the other rooms being taken, a single room is said to be a double room.

Postulates and propositions:

1. A pie may be produced any number of times.

2. The landlady may be reduced to her lowest terms by a series of propositions.

3. A bee-line may be made from any boarding-house to any other boarding-house.

4. The clothes of a boarding-house bed, stretched ever so far both ways, will not meet.

5. Any two meals at a boarding-house are together less than one square feed.

6. On the same bill and on the same side of it there should not be two charges for the same thing.

7. If there be two boarders on the same floor, and the amount of side of one be equal to the amount of side of the other, and the wrangle between the one boarder and the landlady be equal to the wrangle between the landlady and the other boarder, then shall the weekly bills of the two boarders be equal. For if not, let one bill be the greater, then the other bill is less than it might have been, which is absurd.—Kansas City Journal.

—Townley—"This paper says that one of those idiotic Western colleges is going to make Senator Boodler a 'Doctor of Laws.'"

Brownley—"Well, that's appropriate enough. He doctors the laws every time he gets a chance."—Philadelphia Public Ledger.

—Old Pedagogue—"When you teach your pupils that two apples added to two apples make four apples you believe in demonstrating the proposition by giving them the apples, do you?"

Kindergarten Teacher—"Certainly, sir. By that means they get both the sum and the substance."—Chicago Tribune.

The illustration shows the very latest style in a

Deep Club Bag.

The principal new points about this bag are:—

The sewing of one seam at the ends only.

The leather is turned over and sewn at the bottom.

The body of the bag is two inches deeper than usual.

The double handles are flat on the inside, making it easy to carry.

No. 999—16 inch. \$9.00.

18 inch. \$10.00.—20 inch. \$11.00.
