

BITUNAMEL

REGISTERED

Comes Ready for Application

Prevents all rust and corrosion on iron, steel wood, concrete, and stone surfaces — on bridges, roofs, sidings, girders, water tanks, gasometers, ties and foundations.

Saving Foundations

At Slight Cost

Bitunamel will preserve and strengthen foundations and the other exposed parts of a building subjected to corrosion.

Bitunamel provides an impervious coating which makes corrosive action of any kind impossible.

The average cost of painting a surface with Bitunamel is about half a cent a foot, so great is its covering capacity. The film it gives is highly elastic and will last for many years. It practically doubles the life and value of any surface to which it is applied.

Send for the "Bitunamel Pamphlet"

Bitunamel is specified by leading architects for foundation and all iron work.

Bitunamel is water-proof, weather-proof, acid-proof, alkali-proof and gas-proof.
