The Fisheries Division of EAITC can provide any required information on INFOFISH, or the FAO in general.

The first point of contact for obtaining information on export opportunities in Japan can be obtained from regional International Trade Centres, located in every major city in Canada.

Provision of this report to you is part of a continuing effort to share with Canadian exporters information and observations made at international marketing events by members of the fisheries Division and we hope these help you in your marketing efforts.

Richard L. Ablett

Director,
Fisheries Division
External Affairs and International Trade Canada.
