

7. Nothing in this Convention shall be construed as preventing a Contracting State from imposing on the earnings of a company attributable to a permanent establishment in that State, tax in addition to the tax which would be chargeable on the earnings of a company which is a national of that State, provided that any additional tax so imposed shall not exceed 10 per cent of the amount of such earnings which have not been subjected to such additional tax in previous taxation years. For the purpose of this provision, the term "earnings" means the profits attributable to a permanent establishment in a Contracting State in a year and previous years after deducting therefrom all taxes, other than the additional tax referred to herein, imposed on such profits by that State.
