

Over the years, various agencies have reported  
to the Department of Health, Education and Welfare  
the results of their studies on the health status  
of the population. These studies have shown that  
the health status of the population has improved  
over the years. This is due to a number of factors,  
including better nutrition, improved sanitation,  
and the development of modern medicine.

In the United States, the health status of the  
population has improved significantly over the  
years. This is due to a number of factors,  
including better nutrition, improved sanitation,  
and the development of modern medicine.
