

PREFACE.

In the preparation of the following Report it did not appear necessary to change the plan adopted in my similar report on the archæology of the Township of Tiny, issued by the Education Department, last May. By following in the main the same method, viz., putting the notes into the form of a catalogue of the village sites, the one becomes a continuation of the other, and they may be preserved together by students of the history and archæology of our Province. Separate copies of this Report on Tay have been prepared for the use of those who received my former report on the Township of Tiny.

A. F. HUNTER.

Barrie, Ont., November, 1899.
