Note and Comment

When will the Leafs strike their stride? Easy question, the answer being when they shake the jinx you read about. And what is the jinx? or is there such a phantom? Pshaw, he is merely an excuse of the partisan. The Toronto champions are just now playing the kind of ball that merits defeat, and as long as they keep it up the bottom rung is ours. However, new life injected by the management may have the desired effect. The president, interviewed last night, had no excuses to offer, tho he was apparently not as cheerful as towards the finish of the season last autumn.

LONDON, April 27.—(Copyright.)—George Bernard Shaw says the only mistake Secretary of State Bryan made, was in offering his diplomatic guests unformented grape-juice or anything else except plain water. Shaw would approve if the American Shaw would approve if the American Secretary of state should go a step further and give a vegetarian dinner.

All the criticism of Mr. and Mrs. Bryan's wineless banquet, Shaw condemns as a gress abuse of hospitality and an affront to the social decencies. Seats for forty thousand persons will be provided at American League Park, in Chicago, on May 17, when followers of the game will welcome Frank Chance manager of the Yankees and former leader of the Chicago Cubs. Work on building twenty-five hundred box seats in front of the grand stand was begun the other day. With this addition the park will have a total of ten thousand box seats.

Bryan had given their dinner without fish or sweets, it would not have excited remark, but because they paid their guests the compliment of assuming that they are not slaves to intoxicants; they are held up to the charge of inhospitality, and it is insinuated that they obtained the presence of their guests by false pretenses.

BERLIN. April 27.—(Copyright.)—The Emperor William's energies have found a new outlet. On the excellent authority of a Dusseldorf trade publication, devoted solely fo protecting the eleomars in industry, his majesty is about to blossom forth at Cadinen as a manufacture of this variety of butter.

Prussia has no eleomargarine factory, despite the ever-increasing demand for it among parsimonious Germans, and the kaiser's advisers, ever on the lookout for "a good thing" for their master, have seen the financial possibilities in supplying the want.

Oleomargarine manufacturers are highly elated at this imperial championing of their product, which quite recently the agrarian party in the Relensag suggested should be dyed blue in order to disgust purchasers from persisting in consuming so unwholesome a concoction.

It remains to be seen now whether withing it, will once again have to put

ADDING FIGURES

Honors at Business Show Competition Were Evenly Divided.

The main feature of the Business Show Saturday night in Massey Hall was the adding machine contest, in which the honors were divided between representatives of the Eaton and Simpson companies. The first contest for adding and listing columns of figures, 300 amounts, on Burroughs electric machines was won by Miss Lloyd of Eaton's general office, her time being six minutes and 43 seconds. The only other contestant to have the right total in this event was W. Clemow of the Standard Bank. Bertha Filey of the Canadian General Electric broke all local speed records by doing the work in five minutes and seven seconds, but she made one slight

error and lost out.
The other contest, for ladies only, was the adding of 300 cheques on Burroughs electric machines, and was won by Miss Angela Gauthier of the Robert Simpson Co. She was the only one to have the right total, while Miss Ford, also of Simpson's, made better time, but omitted a cheque for \$275, and failed on accuracy. The contests were watched with great interest, not only by the office staffs of various large concerns, but by numerous prominent business men, who took advantage of the show to see how such work could really be handled by these wonderful machines.

Program For This Evening.

Twenty-eight men from the leading Canadian banks will struggle for supremacy in speed and accuracy in handling 300 bank cheques. Twelve men from the business houses in the city will handle 300 cheques, also on Burroughs hand-operated machines. Fourteen ladfes will also add 200. store checks on Burroughs non-list-
