PROBS: Moderate winds, some local showers in
 southern portion, mostly fair and cool.

THREE GREAT WAVES.

In 1878 a great wave of feeling arose in this country and sustained Sir John Macdonald in the making of what is now known as the National Policy, which was opposed by Sir Wilfrid Laurier and his then friends.
 In 1891 a similar national wave arose and rejected the proposal of commercial union advocated by Sir Wilfrid Laurier and his then political friends.
 In 1911 a similar wave is sweeping over the country to reject the anti-national proposal of reciprocity put forward by Sir Wilfrid Laurier and his friends.
 You cannot beat a nation in asserting its nationhood and resisting all or any efforts to destroy it.
 And this last wave of national feeling is the greatest yet.
 Be a Canadian and assert your birthright.

An old York County boy, graduate of the Ontario Veterinary College, now practicing in the United States, and in Toronto this week, says he has no doubt that if reciprocity carries, the price of horses in Ontario will drop to one-half of what it is to-day.
 One reason is that branded horses, now barred from the Dominion will come into Canada from the Western States in large numbers. At present the Canadian Government inspects all horses coming over the border for glanders and other diseases; on account of the difficulty of doing this in the case of the wild, unaltered horses of the roundup, branded horses are kept out altogether. But the minute reciprocity is passed, he said, and free trade in horses established, there will be free trade in disease as well, and the danger of glanders, which the Canadian Government has spent large sums of money to stamp out, will increase to three times its present extent.
 Nor will the western farmer under reciprocity, he continued, come 1100 miles to buy horses in Ontario if he can get them south of the line at a distance of four to six hundred miles from his home. At the present time, he said, a lot of Canadians now cross the border into the United States to buy horses, pay the duty thereon, and take them back to Canada. These are the horses that are competing with Ontario horses, and once the duty is taken off there will not be a single Ontario horse sold to the farmers of Manitoba and the west. Good unbroken horses weighing from 1100 to 1300 lbs. can be bought for \$26 to \$27 a head in carload lots at Dickinson, South Dakota, which is the main roundup station for the western states, and it is the ranchers in those states who are looking for an outlet for their horses. He went on to say that never had he seen such good prices for work or farm horses as there are in Ontario to-day and it was a market that would last if protected.

Here is confirmation of the Toronto farmer, if he needs any, of the reality of the competition ready to swamp him in the western market, and anxious now, as at all times, to have a convenient dumping market for surplus stock or in crop emergencies as at present. The Globe is trying to divert attention from the main reciprocity issue, which is the submergence of the Canadian farmer. There is a very old fable about a dog who had a fine piece of meat, and crossing a stream saw another dog with another fine piece of meat in the water below. Making a dash at the reflection the dog lost what he had. The Globe has a fine piece of shadow-beef in mind, but the Canadian voter will have just enough dog sense to vindicate his own good business and enjoy his own good market and leave the Americans to arrange their tariffs to suit themselves as they have done in the past.

And here is a view of the stream into which The Globe would entice the Canadian farmer to leap. It is a circular which a Saskatchewan bank handed to a shipper of horses from Ontario to the west:

James River National Bank,
 Jamestown, N.D., Aug. 7th, 1911.

Gentlemen:—
 There are from eight to ten carloads of horses for sale in this county at a very low figure, due to poor crops, and we ask you to make inquiry of your horse dealers and put us in communication with anyone who will be interested and whom you can recommend. We enclose stamped envelope for your reply, which we hope to receive by return mail.
 Yours truly,
 JAMES RIVER NATIONAL BANK,
 Jamestown, N. Dak.
 ABD-JN. Cashier.

FRUSTRATED ROBBERY

Young Couple Had Assaults of Old Gentleman Arrested.

Two suspicious looking men were seen following an elderly gentleman down McCaul-street last evening by L. F. Landers, 210 John-street, and Miss Blanch Edwards, 98 McCaul-street. The young couple followed the men, partly from curiosity and partly to protect the old gentleman should anything happen him.

The two suspicious looking men kept close to the heels of their would-be victim until he was passing The Grange, and then they stepped forward and pushed him into a secluded and dark corner. They divested him of his watch and other salable articles of value. A little way of the road of evil was extracted from his hip pocket, and as that was the chief interest in the eyes of the robbers, they proceeded on their way, leaving their prey to shift for himself.

Mr. Landers and Miss Edwards followed the men and at the corner of Richmond and Yonge-streets pointed out Charles Martin, aged 27, living at 125 Spadina-avenue, and William Gashart, 41 Simcoe-street, to Detective Sackett, who placed the men under arrest and charged them with assault and robbery. The victim has not yet been found.

BY REQUEST.

Controller Ward is said to have consented to run in South Toronto at the special request of Sir Wilfrid Laurier. Ald. Maguire has supplanted L. Heyd as the candidate for Centre Toronto, and he is also running on the solicitation of the premier. Two of the five Toronto candidates are now assured of Reform candidates. Sir Wilfrid will, perhaps, use his personal influence to get three more candidates.

Premier Whitney's Program.
 Sir James Whitney leaves to-day for Walkerton, where he will address a meeting to-night. He will return to the city to-morrow.
 Sir James has a tentative list of places arranged where he intends to speak during the coming week.

HOTEL ACCOMMODATION

Plenty of Room for All Visitors to the City.

With all the city's 110 hotels assisting, and aided by the City Information Bureau, accommodation for visitors to the fair is assured. The large hotels have been taxed to their utmost for the past week, with the many conventions and advance fair visitors. The City Information Bureau is one of the busiest places in the city, people pouring in looking for rooms. The bureau has no trouble locating them in suitable quarters.
 "They complained last year," said the manager of the bureau, "that many people walked the streets during the fair. If people did that they were very foolish, for if they had come to us we could have fixed them up." There are more than 110 hotels in the city, in addition to which excellent rooming and boarding houses and private homes can be called upon to take care of their share of the visitors.

A SOUND SLEEPER

This Girl Goes Into Trances of Several Days' Duration.

MONTREAL, Aug. 24.—The identity of the young girl who was brought to the Royal Victoria Hospital from St. Henri car barn, apparently under the influence of a drug, at an early hour this morning, has been established. She is Blanche David, 18 years of age, who lives with her parents at 87 Grande-avenue. Her mother states that she was not drugged, but in a trance, and that she has been subject to trances, from which it is impossible to awaken her, ever since the month of January. The trances last from two or three days to a week. Between trances the girl enjoys perfect health. She has been treated unsuccessfully at every hospital in the city. At present she is resting easily in the hospital, and all appearances merely sleeping an unusually deep sleep. The doctors expect her to awaken in a few days.

GOING TO MARKET

An unfortunate slip for Uncle Will.

PROVINCE OF QUEBEC WILL REJECT LAURIER

French-Canadians Almost Unanimously Hostile to the Reciprocity Agreement.

MONTREAL, Aug. 24.—(Special)—With the nomination of a candidate in Quebec County, all of which provinces to oppose Mr. Alphonse Verreuil, the opposition will have all their men in the field on the island, and about all in the district, a record never before established by the Conservative party in its history.

A funeral director named Mr. Henri Bougie was nominated this evening to bring about, if possible, the political extinction of Meiric Martin, and at the same hour the Liberals nominated J. C. Walsh, K.C., and ex-M.P., to oppose ex-Judge Doherty in St. Ann's.

The news from the Quebec end of the province is as interesting as there is every probability of Chase Casgrin accepting the party candidature in Montmorency, and L. Pelletier in Quebec County, all of which provinces the increased activity of the opponents of the government. As Mr. Papineau Mathieu, the French secretary at headquarters announced this evening, three years ago at nomination day some 12 counties were taken care of by sending the amount of their deposit to 12 stop-gaps to prevent the government from carrying the seats by acclamation. To-day almost every Conservative candidate is in the field, and the chances are bright for redeeming many constituencies.
 Rodolphe Forget, who returned from Charlevoix to-day, and against whom no candidate has yet been found, declared that if Laurier comes back to power it will be by English votes, as the French-Canadians are almost unanimously hostile to the reciprocity agreement as he asks if the English do not also vote against the government they should never again talk about loyalty and the Union Jack.

PARTITION OF FINLAND

Two Parishes to Be Added to Province of St. Petersburg.

ST. PETERSBURG, Aug. 24.—The emperor has approved for submission to the Duma the draft of a bill cutting the Kivinevo and Nykirka parishes from Viborg Province and adding them to the Province of St. Petersburg. This measure is regarded as the first step in the partition of Finland.
 These two parishes cover an area of nearly 1000 square miles and contain a population of 30,000, for the most part Russian summer dwellers. The area is important, strategically, as it skirts the coast line for a distance of about 25 miles to the north of the present boundary of St. Petersburg Province.

Broke Leg on Steamer.
 While working on the Steamer Dundee, at the foot of Bay-street last evening, John Morrison, a deck hand, slipped and broke his leg. He was removed to Grace Hospital in the city ambulance.

A Backhander for King.

BERLIN, Ont., Aug. 24.—(Special)—In a letter published in the local papers to-day D. E. Braund, furniture manufacturer, strongly criticizes Mackenzie King for having read on Tuesday night's meeting here a letter written by him in reply to one from Mr. King, following the announcement of the reciprocity agreement, asserting that it was a private communication. In that letter Mr. Hibner said that so long as manufacturers were not affected they would not suffer by the passing of the agreement, but it should not have got into party politics. In to-day's letter he accuses Mr. King of making political capital of the letter, but announces his unequivocal opposition to reciprocity in the United States in any form, and will do all in his power to defeat the measure. Owing to Mr. King's action he will appear on Mr. Welch's platform at the next meeting he holds here.

North Toronto Annexation.

Friends of the hydro-electric project are puzzled over the attitude of some of the city opponents of North Toronto annexation. The very serious element in the problem is the legal situation in connection with the corporation, claims that are held to exist upon the town's light and power franchise. Some of the aldermen have made light of the matter, but a corporation and municipal law is not a matter to be made light of, and if it goes to the privy council it may take all the five years before which annexation will become imperative, to be settled. Why not settle it at once?
 Another misleading article in yesterday's Evening Telegram leads many to ask why that paper is playing the game of the electric and traction interests. The Telegram article states "It is public property that the railway will give \$20 a mile and eight tickets for a quarter to the people of North Toronto." That is the double fare arrangement the traction interests want to make. The Telegram is advising the people to accept that, rather than the single fare concession all over the city, which annexation means. The other arguments against annexation are on a par with this, and should easily be recognized as ammunition bearing the corporation stamp.

BEAUTIFY TORONTO.

To-night the Toronto Horticultural Society will hold its fourth exhibition of this season in the large tent in the Allan Gardens. One of the main features of the show will be a grand display of gladioli, from the garden of an enthusiast who makes a specialty of this flower. Although the tropical heat of this summer dried up many of the varieties of flowers, yet it has helped the rose wonderfully, as will be seen by the large number of these flowers on exhibition this evening. An orchestra will add to the enjoyment and the public is invited to attend without fee and without price.

MORE MONEY FOR FILTERS IN VIEW OF CONSUMPTION

Water Department Has an Extensive Program, But the Water is Now All Right.

Because the city has been using more water on some days than the filtration plant would clean, it is now proposed to build seven more filtering beds at a cost of \$430,000. The matter will probably be submitted to the people in the form of a by-law on Jan. 1.
 The present plant has 12 beds, and they can handle 50,000,000 gallons per day. But some days 60,000,000 gallons of water have been used by the city. When the new pumps are in use they will be able to send 110,000,000 gallons of water through the day. In a few years it will probably be necessary to build even more filtration beds in addition to those now proposed.
 The city council will be asked to send the matter to the polls. The council will probably deal with it in November.

Contract for Intake.

The board recommended the council to give the contract for the 500-foot intake extension to Cumming & Robertson, on a basis of 20 per cent. profit on cost.
 The mayor announced that Premier Whitney had told him that the government would give Toronto permission to issue another \$100,000 worth of debentures to cover the cost of the rest of the intake pipe repairs.
 To Bore for Tunnel.
 Willis Chipman, secretary of the board of water experts, advised the board of control that in order to find if a tunnel could be constructed to get water from the lake east of the city, it would be necessary to make two deep borings at a cost of \$1200. The city engineer will be asked for a report. A boring machine will have to be purchased. Holes will be made in order to discover the nature of the ground, so that an estimate of the cost of the tunnel can be made.
 Dr. Hastings, M.H.O., reported to the board that he water was good.

FIRST NUMBER OF PUBLIC OPINION IS AGAINST THE PACT

Life-long Liberals Beginning to Desert in Hon. George P. Graham's Constituency — Cannot Stand for Reciprocity — Arthur Hawkes to Speak in Quebec.

BROOKVILLE, Aug. 24.—(Special)—The landslide is beginning and if Hon. George P. Graham is buried beneath it on Sept. 21, it will not greatly surprise close observers of political conditions in this constituency.
 W. Braund, one of Brookville's leading merchants and a life-long Liberal, comes out in yesterday's local press with a strong letter against reciprocity, and signifies not only his intention of voting against Hon. G. P. Graham, but calls upon all patriotic Liberals to do likewise. Mr. Braund sends a highly patriotic note in his discussion of reciprocity, pointing out the danger of weakening the imperial ties by a trade alliance with the United States.
 "I have not a word to say against Mr. Graham," he remarks. "I wish I could vote for him, for he has done good work. He is ready to give away Canada, not that he wants to do it in his very heart, but he has promised to do it and he must."
 In his letter Mr. Braund makes an appeal to the clergymen of Brookville by name, and requests that they discuss the matter from the pulpit, dissuading the people how they should vote to keep Canada for Canadians. The letter has proved a bomb in the Liberal ranks.
 Another Bolter.
 But Mr. Braund was not the only bolter and it looks as if his letter had already begun to set in its effect. At a mammoth meeting in Victoria Hall to-night addressed by Arthur Hawkes, secretary of the Canadian National League, a letter was read from Rev. S. J. Robins, pastor of Calvary Baptist Church, regretting his absence and highly commending the cause. Mr. Robins explained that he had never yet cast anything but a Liberal vote. It had cost him a great deal to take the position of opponent to the Hon. G. P. Graham, "but," he added, "in the crisis that is upon us the duty of every loyal son of the empire is to cast aside all considerations of party and do that which we know will best maintain our Canadian position within the empire as against continentalism, advocated directly and indirectly by the champions of reciprocity on both sides of the great St. Lawrence."
 With Mr. Hawkes on the platform was Rev. F. Deahly Woodcock, rector of Trinity Anglican Church, who gave a brief address on the necessity for more political independence in Canada. Then the leaders of both great parties would undertake to reply to certain criticisms leveled at him thru the Liberal press and on the platform. He was observed to echo when he emphatically denied being in league with the Conservative party to defeat reciprocity by stirring up racial strife. Mr. Hawkes said he was too busy himself to enquire what Messrs. Monk and Bourassa were saying to the British-born press. He was observed to close, he hoped to visit that province for a series of addresses such as he is now conducting in Ontario.

Hawkes to Speak in Quebec.

Mr. Hawkes made a strong and vigorous plea to the British-born to oppose reciprocity. He also took occasion to reply to certain criticisms leveled at him thru the Liberal press and on the platform. He was observed to echo when he emphatically denied being in league with the Conservative party to defeat reciprocity by stirring up racial strife. Mr. Hawkes said he was too busy himself to enquire what Messrs. Monk and Bourassa were saying to the British-born press. He was observed to close, he hoped to visit that province for a series of addresses such as he is now conducting in Ontario.

Breaks New Ground.

J. H. Burnham, the Conservative candidate in a brief speech proceeded to break new ground. He congratulated the ladies upon their presence and expressed in the hope that the day will come, and come speedily, when women will have votes. "The substance of the arguments put forward by the government was that the people might take it or leave it. Reciprocity would benefit the country, but in any event, 'put us in power,' was their cry. Concluding Mr. Burnham declared in favor of the old age pensions and thought more money was wasted every year in graft by the Laurier government than would be necessary to provide for such a system.
 Jas. Sexsmith, former member for East Peterboro, found in the cry of "obstruction," the defencelessness of the government's position in regard to reciprocity.
 "As far as the Liberal-Conservative party is concerned, reciprocity within the empire is good enough for us. It is the ideal of a great statesman, the seas, and I believe of the people of this great country as well." (Applause.)

James Kendrick Arrived at Peterboro.

James Kendrick, president of the West Waterloo Conservative Association, who was in the chair, declared the meeting to be one of the finest gatherings he had ever seen in the city. The Liberal leaders and former Canadian factories being closed down in 1878 and he predicted similar results if this proposed pact went into force.
 In the Field to Win.
 Mr. Borden's reception was equal to those which have been tendered him on previous occasions during the present campaign, and as he advanced to

ANNEXATIONIST SORRY AT ELECTION SYMPTOMS

E. B. Luke of Oklahoma Believes Reciprocity First Step Towards Political Union.

"I am very much disappointed," said E. B. Luke of Ardmore, Oklahoma, at the Walker House, last night to a World man. "I have just returned from thirty days' trip up around Fort Arthur, Fort William and other places, and all I heard was 'defeat reciprocity,' and it looks to me like they are going to do it."
 Mr. Luke said reciprocity was simply a stepping stone to annexation, and he hoped the United States would get hold of Canada. He was observed to peroration minute and the opposite of corruption, of jobs, of infidelity to professed ideals, of offering nostrums, most of all of a departure from Liberalism. For doing this he is now being slated from one end of Canada to the other as an enemy of his country, and in Quebec of being the ally of the Orangemen!
 It is hard enough to fight an entrenched and unscrupulous enemy; but hardest of all is to fight the misrepresentations that the Liberals make of those who attack them and their idol. Whoever attacks Laurierism in its stronghold is the object of vituperation, of misrepresentation, of belittlement. Associated therewith is a glorification of Laurier into deity, his elevation to an idolatrous pedestal, his exaltation before all the people as the Very One.
 When an outraged people start to smash this Canadian Baal his prophets curse and cry all sorts of sacrifices. They are now cursing Henri Bourassa's crime of all crimes. Bourassa is guilty of the unforgivable and unpardonable sin of smothering an overworked idol. Bourassa is sick of the worship.

JAPANESE PREMIER RESIGNS.

TOKYO, Aug. 24.—Count Katsura to-day tendered his resignation as premier. He recomended the appointment of Marquis Saloni for that post. The cabinet, of which Count Katsura is premier and minister of finance was formed July 15, 1910. The resignation of Count Katsura was forecasted nearly a month ago and it was known that many changes in the cabinet had been under consideration for several months.

BOURASSA, THE IDOL SMASHER.

What is the main issue that Bourassa has raised? If you analyze it you come to the conclusion that it is Laurierism and nothing else. Like many another young man in politics, like the Indian doctor on the market, Bourassa has first to get an audience; and he gets his audience by rather startling statements and methods. But now that he has his audience, when he has all Quebec lined up in the street, he is talking about Laurierism; Sir Wilfrid's methods, his administration of Canada, of the departments, of double deals, of misrepresentation, of talking imperialism on minute and the opposite of corruption, of jobs, of infidelity to professed ideals, of offering nostrums, most of all of a departure from Liberalism. For doing this he is now being slated from one end of Canada to the other as an enemy of his country, and in Quebec of being the ally of the Orangemen!
 It is hard enough to fight an entrenched and unscrupulous enemy; but hardest of all is to fight the misrepresentations that the Liberals make of those who attack them and their idol. Whoever attacks Laurierism in its stronghold is the object of vituperation, of misrepresentation, of belittlement. Associated therewith is a glorification of Laurier into deity, his elevation to an idolatrous pedestal, his exaltation before all the people as the Very One.
 When an outraged people start to smash this Canadian Baal his prophets curse and cry all sorts of sacrifices. They are now cursing Henri Bourassa's crime of all crimes. Bourassa is guilty of the unforgivable and unpardonable sin of smothering an overworked idol. Bourassa is sick of the worship.
