Boxing Bouts at St. Andrew's

Cricket City Dates

Note and Comment

In two more days the International League umpires will arrive for the first time of the season. So the officers of the Toronto Club are off to Jersey City, where the Leafs are expected on Thursday to win the first of the long list of victories that will give the pennant. President McCaffrey will be accompanied by Vice-President Burger, Alf. Maguire, the chairman of the civic reception committee making a special trip to welcome Ambrose McConnell, Eimer Steele and other new members to our city.

The Amateur Athletic Union of Canada are progressing favorably with their boxing show, and will be able to announce their dates definitely in a few days. The show officials yesterday were called upon to investigate something akin to a strike among the boxers. It seems to be the old story of prices not up to the standard, and the lack of expense money for the clubs. In answer, the officials say they are willing to hear the men if they have a grievance.

Leafs at Scranton Run Into the Rain Fine For Today

SCRANTON, Pa., April 15.—The Leafs ran into another bad spell of wet weather when they arrived here to-day. It rained at noon, but the ball game was a regular swimming pool. The squad arrived this morning after an hour's ride from Wilkes-Barre, and were anxious to get in to-day's game. It is fine and mild here, but the owners give every promise of nice weather for to-morrow. Manager Koenig is paying for kindly treatment from the citizens and wants to get the last two exhibition games in before opening the championship season at Jersey City on Thursday. The team will leave for New York to-morrow night and go from there on Wednesday to play the exhibition fixture at Trenton, returning to New York right after the game.

The Dominion Day regatta committee held a meeting to-night. The committee consists of two members from each aquatic club. The main order of business will be as to where the regatta will be held. It is likely the Ashbridge's Bay, which is favorably looked upon, will be the chosen spot. The Dons have all their working boats well under construction. A number of applications for membership were read and accepted.
The ice broke up on the bay yesterday and the oarsmen and scullers from the different clubs will be out this week.

A Tire Covering That Will Not Cut.
It is not possible to make a pneumatic motor car tire that will ride easily, give long wear and that cannot be cut or punctured, but it is possible to protect a good tire so that it will not be cut or punctured and will not blow out until it has given at least 10,000 to 15,000 miles of service. The tire protectors known as the Wood-ward's are practically puncture proof, and they protect the tires absolutely from all injuries from outside sources. When they are placed over good tires kept well inflated and not overloaded the tires will last at least three to four times as long as if run bare. The user will thus make considerable saving in his tire bill and at the same time be free from delays on the road.
