

SAMARITAN CLUB DOING GREAT WORK

Annual Reports Show Help Given to Those Afflicted With Tuberculosis.

Exceptionally good reports were read at the annual meeting of the Samaritan Club held in the Gage Institute yesterday afternoon. Mrs. C. H. Wilson presiding, and a large number of members in attendance. One of the most interesting items of the program was the report of the visiting nurse, Miss Julia Stewart, who told of 2461 visits to tubercular homes and an attendance of 2678, of which 272 were children, at various clinics. In all 64 families had received assistance, 45 of the cases being new. The report also dealt with much information regarding the methods used in visiting homes and the care taken to keep the children from becoming infected, the statement being quoted that there was not one chance in a thousand for a child in a tubercular home.

The treasurer's report, read by Miss Burns, showed receipts, \$8495.36; expenditure, \$7678.42; balance on hand, \$221.94. The Valdez Rest Home, which will accommodate 16 persons, had entertained and given rest and recreation to 89 guests. The recent sale of children's clothing had proved very successful, netting the society \$2000. Miss Blackwell moved the adoption of the reports, and paid eloquent tribute to the work of the visiting nurse, Miss Stewart.

Arcedeo Cody spoke of the pleasure he had experienced in listening to the reports, from which he had learned of the great work being done in trying to combat tuberculosis. The speaker also referred to the efforts of Sir William Gage in the direction of the prevention of the disease, his vision and hard work having done so much to stamp it out. The Samaritan Club he described as a group of specialists, who have the right to have protection against bad surroundings, to be taught to play and to be given a good education. The speaker commended the work of preserving the fit and transmitting the unfit among the children, and said there was motive to be found in the name of Samaritan.

Sir William Gage added his congratulations, and said that through their field secretary, Miss Winifred Wiseman, the work of the Samaritan Club would become widely known. Dr. Powell said that the amount of effort was necessary to make Canada safe for future generations. Dr. Doby also said a few words, emphasizing the care that ought to be taken in guarding children from adults affected with tuberculosis.

In her presidential address Mrs. Wilson reviewed the work of the year, and announced her retirement from office, an announcement which was received with much regret, and voiced by the new president, Miss M. E. Thornhill.

The other officers are: Vice-presidents, Mrs. Arnold Tovell, Mrs. G. C. Milligan; treasurer, Miss M. Burns; recording secretary, Mrs. Morden; J. M. Miller; committee: Lady Flaherty, Miss Margaret Burns, Miss Blackwell, Mrs. Ralph Connable, Mrs. Crofton Kelly, Miss Dickson, Mrs. H. J. Denton, Mrs. W. F. Elliott, Mrs. H. J. Fraser, Miss Fielding, Mrs. J. Graham, Mrs. J. H. Gundy, Miss Hogg, Mrs. H. Kerman, Mrs. R. J. Kerman, Mrs. R. J. Kerman, Mrs. R. J. Kerman.

Spend An Afternoon Inspecting The "Wonder Dairy" of America

How complex is the equipment used? Have you ever realized what care is shown in handling the milk you use, or the way in which butter is made?

Now that the warmer weather is here, we are pleased to renew our invitation to you to visit our dairy. Last year hundreds of people were delighted with their tour of inspection. We believe you, too, will find it wonderfully interesting.

In this building with glistening enamelled white walls and gleaming metal work, every nook and corner is bathed in sunshine.

You will see elaborate machinery for cleaning all bottles and cans—first with hot and cold water, then with live steam which sterilizes and dries.

Milk from the Farmers' Dairy Costs No More Than Ordinary Milk. From Our Salesman, or Phone Hillcrest 4400

marvellous device for pasteurizing the milk, making it doubly safe.

You will see the coolers in a glass-enclosed room, a complete modern refrigerating plant, the spotless machinery that replaces human hands in bottling, the laboratory where milk we receive is tested, the stables where our fine teams of horses are housed.

You will see the men at work in clean, white clothing.

There's a reception room for visitors. We'll gladly welcome you here any afternoon you desire, so make your inspection of "The Wonder Dairy of America."
