DROWNED FROM CANOE

ONE TOWN SWALLOWED UP 40,000 PEOPLE FLEE FOR SAFETY LAVA SURROUNDS A CITY

Boscotrecase, Which Harbored SIFTON BACK IN YEAR'S TI Even Naples' Population is Panic-Stricken by Vesuvius'

Naples, April 8.-The hope that Mt. Vesuvius was becoming calm was dissipated to-day, when the volcano be came more active than ever-

The panic has spread to Naples. Two strong earthquake shocks which shattered window panes and oracked the walls of buildings were experienced today. The entire population rushed to the streets in terror, many persons crying, "The Madonna has forsaken us: the end of the world has come."

No trace remains of Boscotrecase, a commune on the southern declivity of the mountain, where up to 48 hours ago ten thousand persons lived; and Guif of Naples, one mile to the southward, is almost surrounded by the invading lava and has been evacuated by its 30,000 inhabitants. The people were brought to Naples by trains, street cars, military carts and steamships. Transportation facilities have been sent to Torre Del Greco, to take away the people. The police and carbineers are guarding the abandoned houses and several members of the government are also there. Terror Stricken.

A telegram received from the mayor of Sebastiano, a village near the observatory on the northwest declivity of Vesuvius, says the lava is approach-

The work of succor is hampered owing to the railway service, which is interrupted by red hot stones thrown to a height or 2000 feet follows.

And yet it is impossible to count the craters that have opened and from which streams of lava have flooded the beautiful, prosperous and happy land lying on the southeast shores of the Gulf of Naples.

An Inferno.

The atmosphere is heavily charged with electricity and now and then the flashes of lightning are blinding, while the detonations from the volcano re-semble in sound a terrible explosion.

The churches of the city were open all Saturday night and were crowded with panic-stricken persons. Members of the clergy are doing their utmost to calm their fears, but the effects of their arguments go almost for naught when renewed earthquake shocks are experienced. With the danand horror of the situation Vesuvius presents one of the

The 13th Battalion Band From Hamilton at the Pure Food Show The management committee of the Pure Food Show have been fortunate in again securing another great special attraction for this afternoon and evening, by having the 13th Battalion Band from Hamilton. This famous band, in addition to the following high-class tallent, should draw the biggest houses ever seen in Massey Hall.

The talent for this week consists of the Cleveland Ladies' Orchestra, H. Ruthven MacDonald, Mary Florence Stevens of Chicago, Morris and Abbott, istar entertainers, of Indianapolis; Harry Bennett, Gratton's Bijou Orchestra and Clark's Punch and Judy Show. Seats may be reserved for the Monday evening performance for 10c extra. The general admission is 25c, or 15c if you ask your grocer for a special ticket. The Pure Food Show has become the most popular place in the city. It was crowded every day last week and will be this week also.

The attalion Band From Hamilton at the Pure Food Show has become the most price for it. It is announced that the Great Northern will begin construction at once from Winnipeg to Vanctory. Lake Route to Buffalo.

"The scheme involves the most intricate system of cross lines, and interchange of traffic that has ever been devised in the Northwest. The Great Northern transcentinental line promises to be an important feeder for the main line of the Great Northern in the States, and yet will draw from the most settled agricultural sections of the Canadian Northwest.

"Unlike the Canadian Pacific, it will not be necessary for the Hill road to drag its trains across the entire continent loaded with freight, for it may reach the markets of the Middle States via Winnipeg and St. Paul or via Winnipeg or Dujuth thru the lake route to Buffalo and Chicago.

"The eastern extension of the line is from Winnipeg to Montreal, paralleling the Canadian Pacific. While Mr. Hill has said that his road would operate from the Atlantic to the Pacific, it is understood that Montreal will be the eastern termirus, with probably a traffic connection with some lines reaching Boston. The associates of Mr. Hill are sanguine that the road will be completed in two years. Phe officers under Mr. Hill have declared that every detail has been cared for and that nothing can interfere with the completion of the line."

The nets were found moored across the openings of small swamps into which the pike and bass run to spawn. Saturday was practically the first warm day since the ice went off, and the fish began running freely. The officers heard that the movement had started in to fish and they prepared themselves

accordingly.

About 9 o'clock they started out in a rowboat. Perceiving another craft at the far side of the bay they chased across, but the boat disappeared. They then started feeling for a net. It was struck within a few moments. Even the the net had not been down more than a quarter of an hour it contained three large pike. It was stowed away and in perfect silence the two officers rowed around the bay scanning the shore line closely.

A man was seen crouched over the water's edge setting a net. The policermen landed and set off in pursuit of the man, who started to run. The chase continued for over a half a mile, when the officer came up with the man, who had some trouble getting out of a boghole. His name was taken and he was set at liberty. The net he was attempt ing to set was only a half-size one, 50 yards long.
