STRIKE HURTS FRUIT TRADE.  
C.R. Not Receiving Perishable Goods From the West at Present.

Winnipeg, March 14.—A Vancouver despatch says, while it is not officially announced it is certain that at least seven of the strike returned to work yesterday. The U.B.E. denies this, but the company will probably issue a statement to this effect to-day, when more of the employees are expected to go back to work. Master drivers continue to do all their own hauling, the teamsters staying out. Constant reports of congestion of freight and a general strike in the interior are as constantly contradicted by the company. The wholesale fruit trade here is affected by the strike, the C.P.R. having, as well as Winnipeg in general, declined to receive any perishable goods. Each of the fruit handling houses has from two to three cars oranges and lemons, and these are not as yet injured. It is a great loss to hold them in stock, but the fruit is in good condition for the season is due to arrive, and if they cannot be got out at once, they will be heavy losses. Labor unions continue to pass resolutions endorsing the men, otherwise there are no new developments here or at Calgary.

## TRIAL OF MONTREAL EDITOR

Charge of Blackmail Being Defended by Les Debats, With Other Accusations to Meet.

### WAS AFTER EMPIRE AND THE CHURCH

Sketch of the "Fearless Journalism" That Resulted in Prosecution.

Montreal, March 15.—(Special.)—The trial of Edward Charlier, proprietor of Les Debats, the French Sunday paper, published here, and Wilhelm, his business manager, for an alleged attempt to blackmail the Metropolitan Insurance Co., has caused a good deal of interest throughout the city.

The jury reported at 10 o'clock last evening that they were unable to agree, and Judge Wurtelle ordered them to be locked up until this morning.

Charlier is a Frenchman, who came here a few years ago, and has been endeavoring ever since to do the work of the editor-in-chief of Les Debats. While he was pulling away at the British lion's tail, the foreign journalist got along fairly well, for he supported the Laurier government at the same time, but when he started in to knock out the church, Les Debats was threatened with bankruptcy.
