Free-Heart advertisement. 40,000 members of the Commercial Travellers Accident Association carry cards on which are printed "Medical and Surgical Helps," by the Surgeon-in-Chief of the Association, paragraph 4 of which says: "FOR VERTIGO OR DIZZINESS—Please remember that Coffee often produces it; therefore when you have congestion of the head, skin is yellow, or you feel heavy about the heart—stop using Coffee." Insurance Companies now refuse policies for "Coffee-heart" just as they do for Consumption, Apoplexy or Morphine habit. Because, with most people, Coffee weakens the Heart, inflames the Spinal Cord, and arrests the digestion of food. "Postum" Food Coffee which corrects "Coffee-heart," rebuilds Brain and Nerve Tissue up to their normal condition, causing them to feel as good all day as Coffee makes them feel for a few minutes in the day just after drinking it. "Postum" is made from the outer coats of Wheat, which are rich in Phosphate of Potash, the readiest Brain and Nerve food that Nature has provided. These outer coats (being sifted from flour in the milling) cannot, in daily Bread, make good the ravages of Coffee. But when, in Postum, they are boiled for 15 minutes, the Phosphates are freely extracted from the Wheat fibres, just as soup is extracted from tough meat or bone, ready for prompt assimilation. It is easy to switch from Coffee, because "Postum" has the delicious flavor, and rich aroma, of fine old Government Java. A ten days trial shows wonderful results.

Public Amusements. It is rather difficult to recall among the younger actors on the stage one day with whom it is possible to compare Harry Beresford. Harry Beresford, in "The Professor's Love Story," at Grand Next Week. The theme of the story is that of a science-lured scholar, prematurely aged, enamored only of his muse who suddenly conceives a sense of human affection. He loves unconsciously and the woman is his secretary, a character the more interesting because she is worthy of any man's love. Critics in cities in which Mr. Beresford has been seen aver that he stands the equal in artistic work of Nat Goodwin and William H. Crane. What could be more thrilling than to see a powerful blacksmith, a perfect physical giant, at the risk of his life grapple with a team of spirited runaway horses on a stage, and bring them to their haunches. This scene actually occurs in "For His Brother's Crime," at Majestic Next Week. The play is written, in the undisputed next week of the American stage. The climax, of which but few men could make good, abound throughout the entire play, including a terrific broadsword combat and a marvelous piece of stage realism where the hero actually supports the weight of a huge bridge while a team of horses and a carriage, containing four people, pass over it safely. The headliner at Shea's Theatre next week will be Clayton White, Marie Stuart & Co. in one of the cleverest one-act comedies in vaudeville. Mr. White has probably no superior in character work, and this sketch gives him an opportunity to show the opposites, changing from a sedate judge to a ward politician. Miss Stuart is also extremely clever. The Four Lankens, who have the greatest acrobatic casting act now in vaudeville will be another feature. Hines & Remington, in their clever talking act which they have labeled Miss Patter of Patterson do and say humorous things. The Wartenburg Bros., foot jugglers, have an act that is quite neat and pleasing. Jack Gardner, a new comer, does a black face singing and talking act, extremely clever. The Four Lankens, that will compare favorably with any that has been heard here. The Fluecy Trio, whirlwind dancers, dress their act handsomely. Alfons, a very clever foreigner who does a trapeze act, actu-
