Sarnia's war chest campaign has been making such good progress that it is believed the \$75,000 objective will be materially exceeded. Damage which will amount to \$3,000 was done by a windstorm in the vicinity of Tara. The new skating rink there in course of erection was destroyed. The business district suffered heavily.

Mixed farming in the Duart district is reported as being more popular than ever. Onlons were the main vegetable crop last year, but because of poor returns few were planted this season.

It appears probable that baseball players in the United States will be exempted for the duration of the present playing season from the "work or fight" order of the provost marshal-general, recently issued. Baseball magnates, it is learned, have been promised a definite answer on the matter within ten days, during which time the whole question will be put before Secretary of War Baker, probably with favorable recommendations from the provost marshal-general.

MAY PLAY BALL IN HYDE PARK, ENGLAND

London, June 12.—American soldiers and sailors may play baseball in Hyde Park. Sir Alfred Mond, first commissioner of works, today signed a permit giving this authorization. The games will be staged on the parade ground opposite the Guards barracks every afternoon. This is the first time in history that a permit has been issued for the playing of any game in Hyde Park.

STEPS TAKEN TO PERMIT N. YORK SUNDAY BALL

New York, June 12.—Formal steps toward the enactment of legislation to permit Sunday baseball in New York city were taken today by the general welfare committee of the board of aldermen. A resolution was introduced providing that games may be played on Sundays at 10 a.m., and that 25 per cent of the receipts shall be turned over to the Red Cross, the Y. M. C. A., Knights of Columbus and the Young Men's Hebrew Association.

STORM PUTS PHONES OUT OF COMMISSION

THORNDALE, June 12.—As a result of the heavy electrical storm which swept over this district last evening eight telephone lines are out of commission. Although the telephone company has no repairman at present the lines will be put in commission as quickly as possible.

Hydro was off for some time this afternoon, and as a result the work at the mill was at a standstill.

Crop conditions all through this district are most favorable, and it is expected that there will be a splendid yield of grain of the finest quality. Apples promise a big yield, and there will be an abundance of hay.

reland's production of food, including specially her supplies of food to Great ritain, has for several years past been growing until the supply from Ireland has become the most important in quantity and character arriving in Great Britain from any country in the world, according to the report. NIAGARA CAMP, June 12.—Several large mess tents were blown down, all telegraphic communication cut off, and other damage was done by the severe slectric and windstorm, accompanied by heavy rains, which swept this camp last night between 10 c'clock and midnight. The bell tents in which the men sleep stood the storm very well.
