# B.C. HINDUS PLOT TO THROW OFF "YOKER"

### Conspiracy to Manufacture Bombs for India's Malcontent Revealed to Vancouver Police by a Sikh.

VANCOUVER, Nov. 6.—(Special).—That a conspiracy having for its object the manufacture of bombs and supplying them, together with arms, to malcontents in Calcutta and other disaffected districts in India exists among Hindus at Millside, near Westminster, was the startling information to-day conveyed by a Sikh to a police official in this city who formerly resided in India, who speaks Bengali and who has befriended numbers of these people since their arrival in British Columbia. To what lengths the plot has already gone, it is difficult to learn, for reason that the heads of the conspiracy are comparatively few in number and very closely guard the innermost secrets of their work. In a general way, however, scores of Hindus, now living at Millside, are aware that the manufacture of bombs is proceeding in a secret guarded room at that place. They also have general knowledge that money secured from them by subscription from time to time is ultimately converted into firearms, with which the "yokers" of Great Britain are to be thrown off India's millions.
