## ASK PROTECTION OF TREE PURCHASERS

Ontario Horticultural Society  
Also Opposes Billboards  
on Highways.

### SPOILING LANDSCAPE

Suggest That Botanical Gar-  
den Be Situated in or  
Near Toronto.

That the government be asked to introduce legislation protecting purchasers of trees, shrubs, plants, etc., against deception and misrepresentation, and also eliminating billboards on public highways, which are regarded as defacements to the landscape, were two of the resolutions passed at yesterday's session of the Ontario Horticultural Society, in convention at Hart House.

The convention approved of the botanical garden being situated in or near Toronto, which would be of advantage to the university, and recommended that an annual memorial service in honor of fallen soldiers be held by each society on the last Sunday in June or the Sunday immediately preceding the national holiday. It further recommended the appointment of a C.N.E. committee of three and that future conventions be held in the last week of October or in the first week of September.

**Successful Efforts.**  
The success in getting council to look after the small parks in Toronto and the appointment of a park superintendent was pointed out, and the fact that The Canadian Horticulturist had degenerated into a mere scrap of paper, instead of an educational journal, was deplored.

In his paper on "Our Cause in Town and Country," J. P. Jaffray, Cash, touched upon the importance of co-operation between town and country for civic advancement, the need of an intensive educational campaign, in which 30,000 members could be thrown today, and the necessity of cultivating public opinion.

J. C. Maybee, Port Credit, believed in persistent advertising and a greater interest in the children, as it was very easy to install in them the desire to do things. He spoke of the advancement that would be made when the show committee of the society co-operated with the officers of the school fairs.

Other papers were given by Samuel Kirk, Georgetown, and Prof. W. T. Macoun, Ottawa.

**New Officers Elected.**  
The officers elected for 1921 are: President, Miss Mary Yates, Port Credit; first vice-president, Rev. Wm. McKay, Weston; second vice-president, J. P. Jaffray, Galt; secretary and editor, J. Lockie Wilson, Toronto; treasurer, W. A. Hilsen, St. Catharines. The directors are: Dr. A. H. Scott, Perth; H. A. Middleton, Lindsay; Chas. Wilson, Port William; T. D. Dockray, Toronto; W. B. Burroughs, St. Catharines; W. Harry, Seaforth; J. E. Carter, Guelph; Dr. F. E. Bennett, St. Thomas; and J. E. Brown, Kingsville. Auditors, W. J. Evans, Toronto, and W. T. Graham, Toronto.

Representatives to C.N.E.: Wm. Fountain, Toronto. To Royal Agricultural Winter Fair, W. J. Evans, Toronto; J. M. Pearen, Weston; Miss Mary Yates, Port Credit. To American Civic Association: G. M. Hilsen, J. Lockie Wilson and C. A. Hilsen.

**BOTH DRIVERS NEGLIGENCE.**  
Judge Withfield yesterday dismissed the suit of A. W. Shelton against Harry Smith for \$284 damages for alleged negligence. While crossing the intersection of Boon and Ascot avenues on his motor cycle, the plaintiff was hit by Smith's auto, driven by his son. His honor found that both drivers had been negligent.

## A GOOD DIGESTION A GREAT BLESSING

A Sufferer Tells How New  
Health Was Found.

Very few people appreciate what good digestion means until they lose it. To be able to eat what you want and to properly digest it is a blessing. But if your digestion is impaired, you cannot afford to risk experiments by trying uncertain remedies. Strong medicines are hard on the stomach; pre-digested foods only aggravate the trouble. What is needed is a tonic that will so strengthen the stomach as to enable it to do its own work. There is no tonic for the stomach that is not at the same time a tonic for every other part of the body. As the blood circulates thru all the body an improvement in its condition quickly results in strengthening any weak organ. Rich, red blood is absolutely necessary to good digestion. If your stomach is weak, if you are troubled with sour risings in your throat, feelings of nausea after eating, pains or fluttering about the heart, try the tonic treatment of Dr. Williams' Pink Pills. So many people have been helped by this treatment that every sufferer from indigestion should promptly try Dr. Williams' Pink Pills. Among the many who rejoice in a better digestion thru the use of this medicine is Mr. D. Gouthro, Balls Creek, N. S., who says: "For nearly four years I was an almost constant sufferer from indigestion. Any food I took disagreed with me, and I always felt drowsy and uncomfortable after eating. I had frequent headaches, and the trouble made me nervous, and I slept poorly at night. I was constantly doctoring, but did not find much benefit until I began using Dr. Williams' Pink Pills. By the time I had taken six boxes of these I could eat anything with relish and felt better than I had done for years. For this reason I highly recommend these pills."

You can get Dr. Williams' Pink Pills thru any dealer in medicine, or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## ALLEGES BRITAIN WORKING FOR DELAY

(Continued From Page 1).

naval powers for reduction of building programs and also advocated a careful investigation to determine whether capital ships are tactically obsolete.

**Will Lead to War.**  
"Unless there is an agreement reached between the United States and the powers competing in naval building," he said, "it will lead to war inevitably."

Opinions of British, United States, German and other naval experts that capital ships have become obsolete were presented by Senator Borah. He read from a letter by United States rear-admiral, retired, who said:

"I would stake my life that in a few years a surface navy can go nowhere but to the bottom."

The name of the officer who wrote the letter, Senator Borah said, "would be given to the naval committee, if it desired." This officer, he added, also wrote that the United States could never be attacked successfully by a power or combination of powers from overseas.

Senator Poindexter, in defending the naval committee's report supporting the capital shipbuilding program, declared that if the United States accepted the building postponement plan, it would "become at once a defeated nation, would lose its insular possessions," and its citizens would be able to travel the seas only upon terms laid down by rival nations.

**Would Britain Reduce Fleet.**  
"Before sitting down with these nations at the conference," he said, "the committee feels we should take precautions not to sit down armed. If the six months' suspension were adopted we would lose, in addition, between \$15,000,000 and \$25,000,000."

The senator said he would like to know whether Great Britain would reduce its fleet to the present strength of the United States navy and if Japan would actually stop naval construction. He asserted that the British main fleet was twice as strong as the United States and that Japan would equal the United States strength within the next three or four years.

Senator Smith, Democrat, Georgia, suggested that Great Britain give the United States in payment for its war debt half of its naval forces so that the two powers would be equal in strength.

**SLIGHT FIRE IN CITY.**  
Waste paper fire in the basement of the premises at 66 Bay street, occupied by the commission merchants, Cockburn & Bachrack, caused \$20 damage at seven o'clock last night.

## SHOWS PURITY OF WATER IN TORONTO

Highly Favored Conditions,  
Says Commissioner Harris  
at Rotary Club.

Toronto occupies a very favored position with regard to the cost, distribution and quality of its water, according to R. C. Harris, city works commissioner, who addressed the Rotary Club yesterday. The waterworks, said he, represented an investment of \$16,000,000, and, besides being self-sustaining, furnished cheaper water of better quality than any other similar works on the continent.

In 1920, said Mr. Harris, the average daily pumpage had been 85,987 gallons, 35 per cent. of which had been pumped to that section north of Carlton street. Although creditable, 125 gallons per capita had been the daily consumption, which was to a large extent waste. One man had found that, by allowing the taps to run while he shaved, he had used some thirty gallons.

Mr. Harris outlined the operation of the filter plants and spoke of the daily testing of the "safeguard" the public against disease. The chlorine used represented the very low percentage of 2 parts per million parts of water.

He spoke in glowing terms of the hardship endured by the men who worked in the sewers, sometimes under the most trying conditions, and he paid a high tribute to Margerson, the diver, who made inspections of the intake, etc., even in winter, when the hazards that always attended diving became doubled on account of the ice cakes.

"A large portion of our employees," said Mr. Harris, "are always on the ragged edge of danger, while giving their best in the interests of the public, and as far as their dismissal or engagement is concerned, it is entirely free from aldermanic control."

**City Consensus Alive.**  
Toronto had last year, he said, an assessment of \$703,351,000, the budget was \$29,850,000, and the tax rate 30.5 mills. Of this, 140 mills were controlled by council, proving its limitation. The city service was having a marked influence on the public and the city consensus was more alive than any other. The board of control and council aimed to secure the interest of the public in the work that was being carried on, he continued, because complaints were welcomed.

Toronto contained an area of forty square miles, 32 1-2 of which was land. There were 1707 streets, representing 180 miles, 140 miles of lanes and 407 miles of pavements, representing \$14,500,000.

Regarding asphalt, Mr. Harris said that the engineers were dealing with a big problem in securing such a variation of temperature as that of the city. There were also 569 miles of sewers, in the construction of which, the workmen often took their lives in their hands.

Ernest R. Ball, composer, playing at Shea's this week, was a great hit, and was heartily applauded after two selections. Under Dr. Fricker, the Glee Club gave an excellent rendering of an Irish melody, "My Love is Like an Arbutus" with Ernie Colville as soloist.

## BRAINS ON THE FARM MAY YET REPLACE BRAWN

Speaking on the benefits to be derived from co-operation to the farmers attending the short winter course at the university yesterday, Prof. W. T. Jackman said the farmers should become so organized that they would be able to control the system so that they could hold their products in times of flush markets till they become scarce.

"Any member," he added, "of a co-operative society was a traitor if he bought for his temporary advantage from private sources and fell back on the association when it offered a cheaper price. You don't want to have a friend of that kind in any human relation."

"Farming," the professor emphasized, "is going to be more and more a business and not a means of individual subsistence. In other words, brain on the farm is going to be more important than brawn."

## Indigestion

is usually the result of sluggish torpid action of the liver and bowels, and disappears when Dr. Chase's Kidney-Liver Pills are used. One pill a dose. 25 c. a box, all dealers.

Dr. Chase's  
Kidney-Liver  
K & L Pills

Waste paper fire in the basement of the premises at 66 Bay street, occupied by the commission merchants, Cockburn & Bachrack, caused \$20 damage at seven o'clock last night.

## THIRD FATAL CASE OF SLEEPING SICKNESS

Sleeping sickness is given as the cause of the death of Mrs. Marnia Tobin, aged 31 years, of 58 Edward street. This is the third fatal case of this disease registered at the medical health department this year. Two fatal cases of "flu" were registered yesterday, the victims being Mrs. Rebecca Johnson, 74 years of age, 117 Emerson avenue, and Rose Mary Verrey, four years 11 months, of 561 Markham street.

## REQUEST MONEY FOR OBSERVATION HOME

Controller Hiltz was appointed chairman of the juvenile court committee at the first meeting of the 1921 committee yesterday.

It was decided to ask the board of control to place in the estimates this year the money required for the construction of an observation home and court.

**Should Trim Estimates.**  
The decision of the school board to pass maintenance estimates which will mean a ten-mill rate, has called forth a protest from Mayor Church, who thinks a greater effort should have been made to trim the estimates.

## STORMY WEATHER HARD ON BABY

The stormy, blustery weather which we have during February and March is extremely hard on children. Conditions make it necessary for the mother to keep them in the house. They are often confined to overheated, badly ventilated rooms and catch colds which rack their whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regularly. This will not fail to break up colds and keep the health of the baby in good condition till the brighter days come along. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Personal Banking Service

Every business is fraught with problems peculiar to itself. Problems which are materially simplified by an intimate knowledge of the basic principles of finance.

Personal Banking Service places such a fund of knowledge at the disposal of every Sterling Bank client. Our executives are ready to discuss financial matters with any client—in his own office if necessary; to offer him friendly counsel and sound, constructive advice, based on years of close co-operation with many varied industries.

This is one of the practical sides of our "Personal Banking Service" policy. Others less visible, but none the less tangible in the results they produce—are a faster and better Collection Service, and a general speeding up of every Banking activity.

If there are some particularly "knotty" problems troubling you at the present time, we'll be glad of the opportunity of discussing them—in your office or ours.

## The STERLING Bank OF CANADA

WILL NOT SELL BONDS  
OVER CITY HALL COUNCIL

The finance commissioner has decided not to sell bonds over the counter to provide for the taking over of the

Toronto Street Railway. He is calling for tenders for bonds to the amount of \$5,000,000, of which a portion is on account of the T. S. R.

**COOPER ELECTS JURY TRIAL.**  
Edward Cooper, arraigned before Judge Denton in the sessions yesterday, pleaded not guilty and elected trial by jury on a charge of robbery. The charge reads that Cooper stole a large quantity of diamonds, jewelry and bonds from Mrs. Christina Ryvie. T. H. Lennox, counsel for accused, did not appear in court.

## A PROTEST

To the Navy League of Canada, as to every British man, woman, boy and girl, the name of Nelson is a household word, honored and beloved.

The Navy League of Canada therefore protest against the exhibition of photoplays in which Nelson's memory is dishonored.

If the Motion Picture industry cannot carry on without the exploitation of human frailty, then in the opinion of the Navy League of Canada

## BRITISH DECENCY BRITISH HONOR and BRITISH GRATITUDE

suggest that material for such be sought elsewhere than in the private life and character of British heroes.

The film advertised as "The English Version of Passion" is an insult to every loyal British subject and true Canadian.

Published under the auspices of the Dominion Educational Committee  
Navy League of Canada

## THE GUMPS—AND THE CLOCK IN THE STEEPLE STRUCK 2
