EMERY BROS., Phone Main 1122, 82 Germain St.**THE NEAL THREE-DAY
DRINK HABIT CURE**

The Neal Treatment consists of the administration of a perfectly harmless and purely vegetable medicine taken internally only and without any hypodermic injections.
The Neal Treatment and the methods of its administration are pronounced and conceded by all who have investigated, to be not only ethical and professional, but entirely satisfactory. The success and success of the treatment in all cases has been demonstrated and proved by Doctor Neal who, during the past ten years, has successfully cured upwards of five thousand of bad cases of the drink habit without a single failure—each one in just three days' time.
The Neal Treatment is simple yet very effective. Doctor Neal, after many years of the most painstaking, professional and thorough study, experiment and investigation, has found and demonstrated that the drink habit instead of being a disease or an inherited affliction is due to the stored up poison in the system, coming from the continued and excessive use of alcohol.
After making this discovery and demonstration he found the antidote for alcoholism. The administration of this antidote results in the neutralization of the poison. Thus antidoted and neutralized, the poison is eliminated from the system, and the desire, appetite and craving for drink is at once destroyed or lost.
This is all accomplished in each case in from one to thirty-six hours, depending entirely upon the physical and mental condition of the patient. With this accomplished, nature aided by the recuperative and building-up treatment, soon asserts its power, and at the end of three days the patient returns to his home in a normal and healthy condition.
The Neal Cure is the most effective and safest ever devised to the cause of greater human happiness. There is a buoyant air in the "God-bless-you" which daily is showered upon Neal Institutes by men redeemed.
The Neal Institute, 46 Crown St., Cor. King and Crown. Phone 1086. B. L. Stevens, Manager.
Augustus: "I'm not fond of the stage, Violet, but I hear your father on the stage, and I think I had better go before the foot lights."

BEAVER BOARD

Is a Pure Wool Fibre Wall Board which takes the place of lath and plaster and makes unnecessary the use of wall paper for new and remodelled buildings.

Beaver Board is cream white in color and has a mat or pebbled surface admirably adapted to artistic decorations.

**DORCAS SNOODGRASS,
MOUNT VERNON NURSE,
MISSING TWELVE DAYS**

Mount Vernon, N. Y., July 29.—Miss Dorcas Ijams Snodgrass, who disappeared July 17, is still missing, though her brother, Edward T. Snodgrass, of Berry-

ville (Va.), has offered a reward of \$500 for information concerning her. Miss Snodgrass was well known in this city. She had been a nurse at the Mount Vernon hospital, and when she left her home she said she was going to New York to visit friends.

**STEEL INDUSTRY
FOR SAINT JOHN
MUST SOON COME**

Important Announcement by W. Burton Stewart—Mammoth Plant to Cost Millions and Employ Thousands—Courtney Bay Work

"It must come, and if it must come, it must come soon," was the chief response of W. Burton Stewart, vice-president and general manager of the Norton Griffiths Co., Ltd., to a query of a Telegraph representative, who had an interesting talk with him last evening. He spoke on many topics very important to the people of St. John, but chiefly on a subject of far more than ordinary interest and importance—the establishing of a big iron and steel industry near Courtney Bay, and concerning which the reply quoted was spoken.

"Do you regard the project as more of a likelihood than a mere possibility?" asked the reporter.

"More than that," was his reply. "There is nothing in the way and nothing to stop such a plant being erected, and the expense is not too enormous."
"Are you interested in securing a site for location?" Mr. Stewart was asked.

"Yes, I am very much interested in this matter. As you know there is very little level land suitable for an industrial site here. It will, therefore, be necessary to reclaim a part of the flats, and in that event the location will be as near as possible to the site of the dry dock. As the reclamation will have to be made before any extensive dredging is done near the shore—and the dredging will be commenced in two or three months—you will see that something will have to be done very soon."

"When the thing comes, I expect it will be something big. We will not have to go as far as the other side for capital, for there is a Canadian firm already in operation elsewhere, interested in the project. I am not in a position to state the name of this company."

Asked as to the extent of the plant that will likely be established here, Mr. Stewart said that it would cost in the vicinity of three or four millions of dollars, would employ more than 1,000 men at the start, and would have, roughly, an output of 1,000 tons a day.

"An iron and steel industry," he added, "is what I consider most important to, and most needed in St. John, and as dry dock owners, we are greatly interested in securing such an industry for this city, and we will give every assistance in our power so that St. John may have this business before very long."

Asked about the possibilities of British capital being invested here, Mr. Stewart said that a great many capitalists were coming to Canada this fall to look over the ground. A great many more than have already been here will come, but they will not make the trip in parties, but will go quietly about, and in that way they will possibly gather much more information.

Mr. Stewart expects to be in the city about a week, and will then go to Montreal and from there to Vancouver. Mr. Stewart said that the work at Courtney Bay was proceeding satisfactorily, although the wet weather had retarded matters somewhat. The force of 100 men would be doubled soon, and before the end of the year there would be 1,000 men employed. The work, he said, would go on all winter unless the weather was too severe.

PARIS MISSION A SUCCESS

Paris, July 29.—Hon. Mr. Hazen announced today that the conference with M. Delcasse, French minister of marine, on the subject of reciprocal shipping regulations notably with respect to an increase in the number of lifeboats on steamships plying between France and Canada and the possibilities of improving trade between the two countries had been most satisfactory.

How's This?

May Robson, now regarded as one of the greatest actresses on the stage, will appear in two fine offerings at the Grand Theatre. On Wednesday and Friday Miss Robson will present for the last time in this city 'The Rejuvenation of Aunt Mary', a comedy of pure humor and consistent action which has been admired by the press as one of the funniest plays of the century.

MORNING NEWS OVER THE WIRES

The story published in a Montreal evening weekly to the effect that the Allan liner Virginia on her last trip from St. John carried among other things a box containing bombs, has turned out to be unwarranted. The paper stated that the bombs were found among unclaimed goods, and suggested anarchist plots. Mr. Hannah of the Allan line writing to the editor of the journal in question says: "What you term bombs are in reality floats for fishing tackle and constitute part of a fishing outfit which includes several knives. They are still on the wharf for anyone to examine."

Campbellton citizens were awakened this morning about 1 o'clock by a fire in Victoria street, which was discovered by Policeman Mann. The fire started in a shed owned by the municipal authorities, and spread to a grocery store owned by E. J. Allingham and a hardware store occupied by S. M. Moore. Both of these dealers suffered heavily by stock losses.

Alexander Knox, mayor of Wetaskiwin, Alberta, is missing. He went there from Scotland and little was known of him, but he has been mayor since 1910. It is now thought that he has received word of the Scottish authorities being in action under the fugitive offenders' act. He shipped after tendering his resignation and his whereabouts are unknown.

At a meeting of the Westminster Electoral Reform League in Montreal yesterday it was decided to prosecute some alleged violators of the election act. It was deemed unwise to hold an enquiry.

The western provinces are asking this year for \$7,500,000 to harvest the wheat as against \$6,500,000 last year.

The Robb-Engineering Works at Amherst suffered by a disastrous fire last evening, when the moulding shop and many valuable patterns were destroyed. The loss is well covered by insurance.

Louis Lech, a Mormon, who fled with his family from the scene of trouble, said yesterday in El Paso, Texas, that information had been given out along the Mexican frontier that all Americans in the insurrection zone must be stripped of arms and that guarantees of protection were to be withdrawn. The rebels hope to bring about American intervention by barbarous acts, and even plan the massacre of Americans on the frontier unless the government intervenes.

St. John's Nfld., July 29.—The British steamer Manchester inventor put into port today badly damaged as a result of colliding during a dense fog July 24 with a submerged iceberg.

London, July 29.—A local tradesman the windows of whose store were smashed in one of the suffragette riots was awarded \$75 damages and costs by Judge Woodfall in the Westminster county court today.

Boston, July 29.—The strike of the conductors and motormen of the Boston Elevated Railway Company, which has lasted for fifty-three days and is estimated to have cost \$1,028,000, was ended tonight by the agreement of the company officials to the terms of settlement, the strikers winning every point sought. The strikers will begin to go back to work tomorrow.

A meeting to have been held yesterday afternoon by a committee appointed by the Exhibition Association regarding the "made in St. John" exhibit, did not materialize, only two members showing up. A member of the committee said yesterday that it was likely that St. John would be in line with Moncton, Fredericton and other places in this regard, but it was a matter for the merchants themselves to decide.

NEWBRO'S HERPICIDE**SAVES THE HAIR****And Keeps You Looking Young**

Don't look older than you are. It is just as easy to look younger. While lack of hair or poor hair is not always an indication of age, it is frequently accepted as such.

A person well advanced in years possessing a good head of hair is always spoken of as "well preserved."

Everyone can retain beautiful, luxuriant hair if they make the effort. In all cases every instance poor hair or the loss of hair may be traced to the activity of the dandruff germ. Newbro's Herpicide kills the germ and puts the scalp in a perfectly healthy condition. With the destruction of the dandruff germ the hair no longer drops out. The itching of the scalp stops almost at once.

Newbro's Herpicide is the original remedy for which there are many substitutes, preparations claimed to be "just as good." You don't have to accept a cheap imitator. Insist upon having genuine Herpicide.

Send 10c. in postage to The Herpicide Co., Dept. R., Detroit, Mich., for sample and book.

Newbro's Herpicide in 50c. and \$1.00 sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded. E. Clinton Brown, special agent.

RIOT IN PORT ARTHUR

Port William, Ont., July 29.—A riot which resulted in the serious wounding of six persons and minor injuries to many occurred in Port Arthur tonight. Chief of Police McLennan was laid out by a club in the hands of an enraged foreigner. P. C. Schiltzer received a bullet wound in the back, P. C. Peterson was badly clubbed and three foreigners were wounded by bullets.

The trouble was caused by pickets of strikers among the Canadian Northern Railway employees interfering with some men of their way to work. The chief of police and two constables took a hand, but when they tried to make an arrest their prisoner was taken from them by an angry mob and they were beaten back. Shots were exchanged and three foreigners were wounded. The fighting quieted after a time, but it is thought if any one attempted to go to work about the railway properties that it would break out afresh.

Military Notes

3rd New Brunswick Regiment, Garrison Artillery—Major S. B. Smith is permitted to resign his commission, May 25.

28th New Brunswick Dragoons—To be provisional lieutenant (superannuated): Francis Louis Cotter, gentleman, June 10.

To be adjutant with the rank of lieutenant: Charles Maurice Parkin Fisher, gentleman, (R. M. C. graduate), June 20.

73rd Northumberland Regiment—To be provisional lieutenant (superannuated): Frank Frederick Fowle, gentleman, June 8.

6th Regiment, Carleton Light Infantry—To be signalling officer (provisionally) with the rank of lieutenant: Private Rose, June 1.

WISE HENS.

Raven: Why do the hens go to roost so early? Egbert: To get rest. Haven't you noticed how early the roosters begin crowing?

MORNING LOCALS

Some little anxiety is felt here for the schooners Herald and R. Bowers, well known here and for whom R. C. Ekin, Ltd., are the agents. The Herald left Campbellton on the 26th and the R. Bowers Port Daniel, Bay Chaleur, both for New York, and they have not been heard of since. It is hoped that they are in some place for harbor.

The twelve bluejackets from H. M. S. Terror who arrived in the city on Sunday on the West India liner Oraro, left last evening for Quebec to take passage to the other side by the O. P. R. liner Lake Champlain. One of the sailors talking with newspapermen expressed the opinion that war between Britain and Germany is bound to come.

David McPherson, an aged farmer, living on the Manawagonish Road, was thrown from his wagon yesterday in Douglass Avenue and had two ribs broken. The horse became frightened and bolted and the driver, Mr. McPherson, who held to the reins was dragged some distance. His son came over from Fairville and took his father home, Dr. Allingham accompanying them.

Clarence M. Sprague of the Merchants' Bank staff has been transferred to Bluebrook, Quebec, and will leave for there tomorrow night. Last night he was tendered a banquet at the St. John Golf Club, of which he was a valued member. During the evening he was presented with a golf bag.

The extension work of the St. John Street Railway is being held up on account of the shortage of rails. The company, however, expects to have a large shipment arrive soon and the work will be rushed to completion.

S. S. Valetta left Glasgow on Monday for St. John with a large cargo of Scotch anthracite coal. She will be due here about August 10.

The telephone cable to Partridge Island has been broken and out of commission for about three weeks and efforts are now being made by the marine department to locate the break. Residents of the island are as a result reduced to former conditions of communication, by boat only.

Chinese merchants in Hong Kong are establishing department stores modeled on the American plan.

**HOUSE FLIES**

are hatched in manure and revel in filth. Scientists have discovered that they are largely responsible for the spread of Tuberculosis, Typhoid, Diphtheria, Dysentery, infantile Diseases of the Bowels, etc.

Every packet of

**WILSON'S
FLY PADS**

will kill more flies than 300 sheets of sticky paper.
