

ST. ANDREW'S CHURCH MISSIONARY ASSOCIATION

In submitting the report of the Missionary Association for the year just closed, the Committee are glad to report an increase in the receipts of seventy dollars over the previous year. Considering the general depression of the times there is great reason for gratitude in the success the Collectors have met with; but the Committee feel there is much yet to be done in order to perfect the working of the Association and bring the annual contributions up to that amount which will justly entitle St. Andrew's to be classed amongst the liberal contributors to the schemes of the Church.

Your Committee would therefore bespeak for the Collectors a hearty welcome as they make their monthly calls, and would kindly remind the subscribers that they can do much to lighten the labors of the Collectors by putting aside on the first of each month for "mission work" "as the Lord hath prospered," and thus being always ready..

The annual meeting was held on Wednesday evening, 16th January, when the following office-bearers, committees and collectors were appointed for 1878 :—
