> Mr. Rismuller holds the Canadian patents on a large quantity of whaling apparatus and his trip here has en made in connection with the transfer of British Columbia rights to the Victoria company. Having secured these the Victoria company will now be able to go ahead with its business. From now on, says Capt. Balcom, the ndustry on the coast will be under full swing. For months the station has been doing very little for different reasons, the principal one, it is understood, being the trouble which the dryer gave. The first installed did not give entire satisfaction, and so a new one had to be introduced. This is now in place and it is expected that henceforth all interruptions will be of a minor character.

Last week a few whales were taken to the station by the Orion, these having been the first killed in many weeks. It is not officially stated, but it is believed that a test of the new equipment was made with these, and that this test was satisfactory would now appear evident in view of the commencement of operations. A large force of men has been retained at the station in anticipation of this, so that there will be no delay for want of labor, Mr. Ris muller, who appears on the Driard re gister as from Vancouver, could not be seen to-day. The newspaper man who attempted to obtain an interview with him had his card returned with the cheerful note that Mr. Rismuller was very basy to-day, and would se the reporter to-morrow.

Chicago, Milwaukee & St. Paul Railway Has Announced Intention to Build!

A dispatch from New York says: At special meeting of the directors of ne Chicago, Milwaukee & St. Paul Railway Company, the board formally authorized the building of the St. Paul extension to the Pacific coast from Evarts, S. D., to Seattle and Tacoma. It was specified in the official announcement that the work of construction is to begin forthwith. It is estimated that the cost will be about \$50,-

It was announced at the close of the meeting that as yet no plans had been determined on for financing the project. This matter in all probability vill be decided upon at a meeting of the executive committee to be held to orrow. An issue of convertible bonds has been under consideration, but there no likelihood of an increase in the road's capital stock, about \$25,000,000 of which is still unissued.

Preparations already have been made for the incorporation of a new railway company from Evarts, which, however, will be entirely financed by the Chicago, Milwaukee & St. Paul.

While all the details of the route have not been decided on, the line will run toward the Rocky mountains, west by north of west, to Butte. C. P. R. Decides to Lay New Rails-Contemplates Improvements Will Cost \$1,250,000.

A dispatch from Cranbrook says the C. P. R. has decided to relay with new steel next year the entire Crow's Nest Pass line from Lethbridge to Kootenay Landing, a distance of two hundred and eleven miles. The total contemplated improvements will cost \$1,250,000. Each mile will take about 125 tons of rails, or say 26,375 tons for the entire distance. Each ton of rails will cost (exclusive of freight) \$33, or \$869,275. Labor will cost about \$120,000 and the ballasting of the road for the new rails will mean an outlay of \$211,000, extra exnenses of one kind or another will evhaust the appropriation of \$1,250,000. The average of one a week is somewhat slow and the quality of many might be greatly improved upon. It is also to be hoped that the new lessee will make some arrangement with Mr. Boscowitz for the alteration of the house. The fact is conclusive that few cities of Victoria's prominence on the continent have more dismal looking show houses. Of course nobody cares to make a big outlay of money without an appreciable return in sight, but with a good class of attractions, and the field properly Madam President and Ladies:-The hospital was visited on Wednesday, the 23rd might be established for the Victoria inst., and found in perfect condition. Collins Unable to Postpone His Trial

A dispatch from San Francisco under date of November 98th says. "All the efforts of Attorney George Collins to postpone his trial on the charge of perjury have failed, and to-day the emneling of the jury is in progress before Judge Lennon.

"Four jurors were accepted and at the close of the proceedings the judge instructed Bailiff Walsh to take the defendant into custody. Collins pleaded to be allowed to prepare subpoenas for his witnesses and to do other necessary work, but the judge told him that that was in discretion of the sheriff.
"It was while the jury was being empaneled in the bigamy case that Col-

ins fled to Victoria, B. C. "His battle for delay this time was based on an affidavit that his rights demanded the presence of Rev. M. D. Connolly, who would prove that Collins was married to Agnes M. Newman, on May 15th, 1889, and not to Charlotta Newman, and that Father Connolly would be in San Francisco on December 24th. The motion was overruled when the prosecution filed an puffiness under the eyes, yellow, sallow affidavit that Connolly was traveling in Europe with Archbishop Riordan,
