Mr. Cassady's New Factory.

The Vancouver Daily News-Advertiser of 6th inst., says:—

"The new saw and door factory of Messrs. George Cassady & Co., on False Creek near the foot of Cambie street, is rapidly approaching completion, and will commence operations in a few days. The building is a large three-story frame structure and is fitted with the latest and most approved machinery. The power is furnished by a horizontal 30 h.p. nominal engine, the boiler being 60 h.p. It is the intention to simply heat by means of steam pipes the drying rooms from the same boiler. Nearly all the machinery is in duplicate, so there is no chance of the production of any article being stopped through a breakdown. The factory is one of the most complete on the Pacific coast and will turn out everything that is required in the way of woodwork for houses and other buildings. Outside of the site of the building there is already 42,000 sq. ft. of wharf in the factory, and a built-in pier as long as well as a wharf, the British Columbia wharf, is the largest in the world for domestic trade."

Postal Complaint.

CHATHAM, 26th June, 1888.

Editor of the Advance—

DEAR SIR:—Can you inform me through your usual paper if there is any reason why the mail matter in the Chatham Post Office is not delivered in proper time? Last Wednesday I sent a postal card from Miramichi to my friends in Chatham which was not delivered until today, although it was sent for daily. The Montreal postmark of the 20th is quite plain, and it is a Chatham postmark. However, I have no doubt that it was in the office when called for on Friday, as I left Montreal on Thursday night and arrived here in due time, and I do not suppose that the mail did not arrive till today. I would suggest that a subscription be started to provide spectacles for the employees of the Post-office to enable them to see letters and read the addresses.

I remain yours truly,

C. Wood.

Next County Notes.

RICHMOND, June 26.

The event of this week has been the arrival of Lady Macdonald and Mrs. Fletcher, who came by train yesterday afternoon and were driven to "The Beaches."

In the evening very many of our citizens attended themselves of an invitation from Mr. and Mrs. Phair and called on the distinguished visitors who received them in a most cordial and social manner. Among the ladies present were Mrs. W. J. Smith, the Misses Ferguson, Mrs. Dr. Brin, Mrs. G. V. McFarlane, Mrs. Vanou, Mrs. Henry O'Leary, Miss Hanny, Miss Foster, Mrs. Black and others. The gentlemen included Collector of Customs Rank, Postmaster Vailant, Robert Hinchman, Newspaper Editor, J. H. Abbott, of the Merchants' Bank, Oswald Smith, Sheriff Whelan, John T. Gale, Henry A. Foster and many more. This morning the distinguished visitors were driven around town, after which they proceeded by train to St. Louis where they visited the Roman Catholic buildings and grounds, and then returned to town and left for Kent Junction, highly pleased with Richibucto, which they had called on the day before.

With the ladies and the attention and courtesy shown them by Mr. and Mrs. Phair and Mr. J. C. Brown, it is not surprising that they will have a pleasant stay in the season, when more favorable weather prevails and the town will look its best.

Capt. Keating of the Sch. "Annie S." cleared his vessel to-day for Ship Harbor, N. B., laden with some hundred barrels of provisions, which were caught and cured on the Richibucto river near Middle Island. Capt. Keating speaks of these fish as the best he has ever handled.

The County Court will meet on Tuesday next.

A letter containing papers of much importance was mailed at Richibucto, June 26.

12th, and delivered at the Richibucto Post Office June 19.

A gentleman who forwarded a telegraphic message from Newcastle yesterday reached here two hours before the message! Steam electricity.

The train on the Kent Northern made its last yesterday from this junction to town in one hour and a quarter including stoppages.

The rain yesterday and to-day has produced a refreshing appearance to the farms and gardens, and gladdened the hearts of the tillers of the soil.

A disturbance.

On Monday evening considerable excitement was caused by a fractious horse becoming frightened by the beating of the Salvation Army drum. The army had just left their barracks to parade and were marching towards the Square. A buggy was coming down the hill containing Mr. and Mrs. Frank Morrison. The horse was turned towards the marching band and the horse becoming frightened, and rearing and kicking, and the buggy was thrown over the side of the road, and the driver and passengers were thrown out. The horse was then taken to the stable and the buggy was repaired.

During the progress of the case there was a disposition evinced by Mr. Fox to settle, and the case was adjourned to the 10th inst. at 10 o'clock.

Mr. Morrison was bruised and badly shaken up, but received no serious injury. The general opinion is that the army should discontinue the beating of the drum when frightened horses are near, and that the law should be enforced against them.
