IMPURE MILK

Is the kind most frequently gotten from grocery stores—milk that is old, tainted and poor.

We now have an up-to-date system of treating and delivering milk. We have fresh morning's milk from Jersey cows delivered to us early every morning, and it is at once put into sterilized bottles and into our new ice milk case, where it quickly cools. We can thus deliver ice cold milk which is only a few hours old—and you can always be sure it is sweet, pure and wholesome. A small item, perhaps, but an important one to our customers.

DEATH—3 NEW CASES.

The epidemic of diphtheria is not yet over, and another death has been added to the list resulting from this dread disease. The sympathy of a large number of friends will be extended to Mr. and Mrs. M. J. Moran, of 32 Orange street, for the loss of their eldest daughter, Eulalia, aged eleven years. CANADIAN FURS FINEST IN BOSTON.

The Boston Globe, speaking of fall styles in furs says that Dunlap, Cooke & Co.'s new fur show rooms in the T. C. A. State's building, 107 Tremont st., are the finest and most tastefully arranged in Boston, and the large number of buyers visiting them daily attest to the fact that Americans are very much interested in "Canadian Fur and Canadian prices."

The firm's New York fashion publishers are issuing a very handsome catalogue of fur fashions which will be mailed post free upon request to any address in Canada or United States.

The opening of the Boston business is to meet the demands of Americans for Canadian furs, which in the manufactured state are subject to a 35 per cent. duty. Dunlap, Cooke & Co. ship their furs from Canada to United States in the raw state in which they are admitted duty free; manufacture garments there, and sell direct to users. The firm has a large and influential following in Canada, with its own stores at St. John, Halifax, Winnipeg, Amherst and Boston.

A STRAIGHT UNDERSTANDING.

"To speak in a manner intelligible to the multitude."—Business schools invariably talk about positions in a vague "hope that something will turn up in the spring" sort of way, whilst the Currie Business University, Ltd., through the instrumentality of its well organized situation department, is filling positions almost daily. The situation department enables this school to guarantee a position with every student, for the simple reason that at least fifty people who are prominent in business affairs lend active aid to this department in the matter of giving private information, re vacancies.

The Currie Business University does not demand your money on the day you enter, but you are requested to take free trial, after which you receive expert advice free. If accepted by the institution, a position is guaranteed in the holding clause of your agreement and you are allowed to hold one-half of your tuition fee until said agreement is carried out.

TIP O'NEIL WON'T COME HOME.

It is not likely that John "Tip" O'Neil, who is a well known ball player, will be seen in St. John this winter, as he has received an offer of a good position in Boston for the winter. If "Tip" comes home it will probably be only for a day or so, and at present his leg is yet so weak that he does not wish to travel any more than is necessary. While "Tip" has not decided on anything definite it is expected by his friends that he will spend the winter in Boston.
