COMMERCIAL

MILLERS ARE BULLISH.

CHICAGO, Jan. 16.—A leading Winnipeg house wires: "I find 1,800,000 bushels wheat at Fort Arthur sold, but not yet shipped out. Stocks there are less than last year, and wheat stocks in Eastern Canada practically nothing; only two days supply of milling wheat in Winnipeg about 21,000,000 in country elevator; about 14,000,000 bushels left in farmer's hands, making available supply about 35,000,000 against 30,000,000 bushels last year. Railroad managers tell me there is no chance of anything more than a dragging movement in the balance of the crop year. In Northern North Dakota the situation is the same as in Manitoba. Millers are bullish. On one road it took two engines to haul seven cars of provisions yesterday, and dozens of towns were crying for fuel and provisions. On one division alone 21 engines were laid up for lack of coal." May wheat sold from 75c to 76c to 76c, and July from 75c to 76c to 76c, compared with 75c and 76c, respectively last. All of the early loss was recovered and a gain of half as much made later. Easier cables and the fact that there was a good snow covering ahead of the cold wave now sweeping down from the northwest, induced some selling. Only 211 cars at Minneapolis and Duluth compared with 633 a year ago. Cash wheat in demand here at northwest. The oats market here is attracting widespread interest. James A. Patton, the principal long and bull, and the Bouscaw crowd is on the bull side in a big way.

SATISFIED WITH PRICES.
LONDON, Jan. 16.—Mr. McHugh, of Alberta, who brought 700 Canadian cattle to this country, has expressed himself as very well satisfied with the prices obtained. Prices would have been better however, had the cattle arrived in time for the Christmas market.

ESTIMATED CUT OF TIMBER.
TORONTO, Jan. 16.—The lands, forests and mines department estimates that the timber cut in Ontario during present season will be as follows:—Pine, board measure, 1,000,000 feet; hemlock, 700,000 feet; spruce, 1,100,000 feet; squared timber, 1,300,000 cubic feet; railway ties, 4,500,000 feet; pulpwood, 100,000 cords. The estimates are all larger than the actual cut of last season, but it is expected that they will be realized in every case, owing to the great demand for timber of all kinds.

QUALITY OF CATTLE GOOD.

MONTREAL, Jan. 16.—At the stock yards at Point St. Charles today there was a larger supply of cattle than is usually offered. Demand for local consumption was good, and the quality of the cattle was quite up to the average. Prices were well maintained and an active trade was done. A few very choice heaves sold at 5 1/4c. per lb. but the bulk of the business was done in choice stock at 4 3/4c. to 5c., while good steers and heifers brought 4 1/4c. to 4 1/2c., fair 3 3/4c. to 4c., common 3 1/4c. to 3 1/2c. and inferior 3 1/4c. to 3 3/4c. per lb.

SMALL SUPPLY OF HOGS.
The comparatively small supplies of hogs coming in makes the situation very strong in this trade, and prices have again made an advance of from 15c. to 25c. per 100 lbs., and sales of selected lots were made today at \$7.25 per 100 lbs., weighed off cars. Packers say it looks as if the hogs are not in the country, and if they were, surely the present high prices would be the means of bringing them forward in larger quantities.

The supplies of sheep and lambs on the local market were very small, the demand was good and prices firm. Lambs sold at 5 3/4c. to 6 1/4c. and sheep at 4c. to 4 1/2c. per lb.

CHEESE INDUSTRY IN CANADA.

Brussels.
The rapidly growing importance of the cheese industry to Canada may be gathered from the fact that the return in money to dairy farmers of this country for the cheese exports of the past season amount to about \$20,000,000. This estimate includes the cheese made during the season yet to go forward. The past year has been one of the most successful in the history of the industry in Canada. The total make has not been so large as that of some previous seasons, but the high prices which prevailed almost throughout the season eclipsed those of any previous year. It is a fact that on account of the smaller make of butter and the high price ruling during a large part of the season the total dairy trade was not greatly in excess of last year, and was below that of 1906. The total exports of cheese from the ports of Montreal, Quebec and Portland for the season of 1906 were 2,253,357 boxes, of a total value of \$21,225,554. For last season exports totalled 2,148,883 boxes, at a value of \$18,383,685; 1906 thus showing an increase of 50,474 boxes, valued at \$2,841,869. The average price of cheese during the season was 11 1/2 cents per pound, or \$9.40 per box. This compares with the average price of 10 1/2 cents per pound or \$8.50 per box in 1905; 8 1/2 cents per pound or \$6.80 per box in 1904, and 11 1/4 cents per pound, or \$9 per box in 1903. In commenting on this good market for Canadian cheese in Great Britain, the British papers say it was largely due to an increased consumption following the distrust of tinned meats. It is to be remembered these figures do not represent the entire trade in dairy products. The consumption of both butter and cheese in Canada has very heavily increased. It is reasonable to suppose it was larger this year than ever before and prices were high. The entire return to the Canadian farmer, then, can only be guessed at, but its importance cannot be overestimated.

THE HUNGAR STANDARD.

The general public is hereby notified that Ungar's Laundry, which has been out of its own quarters for a period of weeks, due to a disastrous fire, is re-established again in the same old stand but in a new building and with a complete modern plant. That a very quick recovery from the effects of the fire has been made is unmistakably evidenced by the perfect quality of the work turned out. Today's orders were fully up to the high standard set years ago by Ungar's.

These Days Are Bargain Days —AT THE— London House.

And Great Bargain Days, Too.

The reason why they are greater than other days is that we are making a special effort to reduce the remainder of our Winter Stock to the smallest possible size, in order to make room for our Spring stock. We have cut out the profits and are bending every effort to sell the goods. When the seller is anxious to sell it is the best time for the buyer to buy.

There is many things we wish to move. We would rather move them to your house than to some other part of our store house. Hence we make these sure to move prices.

Ladies' Heavy Wool Hose.

Ladies' Heavy Rib Wool Hose, Canadian make—the good warm kind—in sizes 8 1-2, 9, 9 1-4. were priced at 25c and 35c. Clearing Sale Prices at per pair, 19c and 29c

QUARTERCENTURY MARK

FOR JOHN D. ROCKEFELLER

CLEVELAND, Ohio, Jan. 17. — The officers of Euclid street Baptist church last night re-elected John D. Rockefeller superintendent of the Sunday school. His term has almost reached the quarter century mark.

JAMES LYND'S DEAD

HOPEWELL HILL, Jan. 15.—James Lynd, one of the oldest residents of the shiretown, died at his home there on Sunday and was buried this afternoon. He was 80 years of age and had been in declining health for some time. The deceased was the uncle of Sheriff Lynd, and leaves a grown up family. Mr. Lynd was engaged in the blacksmithing business for many years, and was a superior workman.

READ THIS

OUR immense reduction sale has been a great saving to many people on FURS for ladies, Furs, Hats, Caps, Gloves, Raincoats, Umbrellas for men, Children's Furs, Headwear, etc.

We've cut 25 to 30 per cent off the price of all articles and garments, therefore they are one and all SNAPS.

We have been well pleased with the keen interest taken in this great sale, and expect a continuance the balance of the week, as we have cut many lines down to fairly give away prices, simply to clear out the odds.

Remember—All Our High Grade Furs at big discounts, and you can save dollars this week.

CASTRO STILL

HOLDS REINS.

Predicted Coup d'etat Did Not Take Place.

Venezuela's Famous President Reported Improving in Health—Intervention Would be Welcomed.

CARACAS, Venezuela, Jan. 17.—New Year's week has passed without noteworthy incident in Venezuelan history. Two coups d'etat were predicted for the beginning of 1907. One would have been Vice-President Gomez director; the other would have given the directorship to Dr. Revenga, secretary general to President Castro, and also the latter's private physician. Neither rumor seems to have had any foundation in fact.

The all-important subject here is the health of President Castro. Since he became ill, over six months ago, his condition has been the most jealously guarded of state secrets. For political reasons all official information concerning his condition has been optimistic. For the same reasons reports from antagonistic quarters have invariably been pessimistic. Hence the conflict of reports reaching the United States. If he is suffering from gastric fever, as his physician, Dr. Revenga, states, it is merely a contributory ailment. His real malady is more serious, sometimes results fatally and seldom fails to leave its victim weakened in some way.

Castro at present is reported better by a source of information apparently unprejudiced.

In the meantime the country suffers from the lack of an active head. Scarcely any headway is being made by any of the foreign concessions. Conditions are too uncertain. There is sufficient popular discontent for a dozen revolutions, but no leader strong enough can bring about concentrated action. Should Castro die, however, it is commonly accepted as a fact that there would very promptly be a revolution.

It is reported here that President Roosevelt will send to Congress a special message dealing with Venezuelan affairs, and the deepest interest is felt concerning it. It is hoped by commercial interests that if such a message is delivered it will bring a change for the better in the economic situation in this country.

A merchant recently, in conversation with Associated Press correspondent asserted emphatically that eighty per cent of the business men of Venezuela would welcome American intervention in almost any form. They view with envy the prosperity of Cuba, Porto Rico and Panama.

EL PASO, Tex., Jan. 16.—Three Japanese, who had been employed as servants by the officers at Fort Clark, disappeared today. Their actions in examining the fort and equipment, their close attention to the drilling and the discovery that they were frequently making memoranda led to the belief by some persons that the servants were Japanese spies.

WERE JAPANESE SPIES
