The Simple Inscription on the Pope's Sarcophagus.

An Extract from the Last WIII and Testament of His Holiness-Press Stories About the Election of the Next Pontiff.

ROME, July 26.—Several thousands of the faithful crowded St. Peter's today to pay tribute before the sarcopha gus containing the remains of the late pontiff, on which is the following sim ion in gilded letters: "Leo

Meanwhile requiem masses contined in the Chapel of the Sacrament as well as in many other Roman churches. The will of Leo was read today. While nominally leaving the estate of Carpineto to his nephew, Ludovico Pecci, it really makes no change, as the whole family property, amounting approximately to \$120,000, has already been divided among the three nephews, Count Camillo having already sold his share.

The congregation again today made further progress with the arrange-ments for the conclave. Cardinal Giboons arrived today, but did not attend today's meeting. A wall is being built around the apartments where the conclave will be held. It is already ten feet high. Some of the Italian bookmakers here

proposed to conduct public betting on the chances of the papal candidates, and in order to obtain permission to do so offered to donate their gains to charitable institutions. The government, however, promptly vetoed the proposition and refused the request. ROME, July 26.-At the sixth meet-

ing of the congregation of cardinals held today, forty-five cardinals were present. Cardinal Della Volpe, voicing ilso the opinions of some of his colleagues, critisised the ceremonies in nection with the interment of Le XIII last night because the cardinals did not participate in the entire process sion, and complained generally of the lack of order. Cardinal Oreglia replied that he had already noticed this and that he would punish those who were responsible. Mgr. Merry Del Val com-municated to the cardinals the report from Santiago, Chili, of the incident which occurred there during the celebration of the requiem for the late Pope which was attended by the president of the republic and all the authorities. According to the report, Mgr. Uguarte in delivering the eulogy upon the late pontiff protested against the usurpation of papal territory by Italy where Count Bousso left the church and lowered the Italian flag which had been hoisted at the legation as a sign of mourning. The

sal mourning, The ceremonial of the conclave established by Gregory XV. is to be followed at the coming meeting. The cardin-als have decided during the conclave to eat in common in order to facilitate their work. A local paper quotes the response of Cardinal Syampa to a question as to whether he believed the conclave would be of lengthy duration, as

"On the contrary, I think it will be very short. I believe that two days is spread. The eggs can be placed in the preservative every day; they should be packed closely in the vessel, Another paper quotes Mgr. Francica Neva as to the possibility of the elec-tion of a Pope who would reconcile the Vatican and the Quirinal thus: "No Pope ever hated Italy. The government must reconcile itself to the

Pope. Certainly Italy, on the occa-sion of the death of Leo, showed her self well disposed for a reconciliation.' The will of the late Pope was read today after the meeting of the congregation of cardinals. Only that por tion which deals with the material matter of the personal papal estate was made public That portion is as follows:

"In the name of the Father, the Son and the Holy Ghost, as the end of our mortal career is approaching, we put in this holograph will our last desires Before all, we humbly supplicate infinite bounty and charity of the plessed Lord to condone the faults of our life and receive benignantly our spirit in the beatific eternity which we specially hope through the merits of Jesus the Redeemer, trusting to His very sacred heart, an ardent furnace of charity and fount of spiritual life and humanity. We also implore as mediators the blessed Virgin Mary, Mother of God, and our own much beoved Mother, and that legion of saints whom in our own life we venerated in

special way.

"Now, coming to dispose of the fam ily patrimony, which is ours according to the deed of division drawn up by the netary, Curzio Franchi, Dec 17, 1882, we appoint as heir to this patrimony our nephew, Count Ladivico Pecci, son of Giovanni Battista, our deceased brother. From this pro perty must be deducted that already denated to Count Ricardo, another pephew, on the occasion of his mariage according to a deed of Feb. 13, 1886, by notary Franchi. Equally from this property must be deducted all the estate in the Carpineto Ron ano belonging to the Holy See according to the declaration in our chirograph of Feb. 8, 1900. In this our tesamentary disposition we have not thought of our other nephew, Camillo, nd our nieces Anna and Maria, son and daughters of our brother Giovan-ni Battista. For them we have in life properly provided decorous mainten-ance on the occasion of their marriages. We declare that no one of our family can claim any right in any-thing not contemplated in the present document because all the other belongings of whatever nature which have come to us as pontiff consequently are, and in any case we wish, to be

Mario Mocenni and Serafino Cretoni. This declaration is to be our last will. The Vatican, Rome, this eight day "GIOACCHINO PECCI,

LEO, P. P. XIII." Cardinal Gibbons arrived here today, accompanied by Father Garvan, his secretary. He was received at the station by Mgr. Kennedy, rector of the American College at Rome, and Father Hertzog, procurator general of the Order of Sulpicians. They drove to the Sulpician house, where mass was celebrated. Being tired and the hour late, Cardinal Gibbons did not attend the meeting of the cardinals this morning. In the afternoon he drove to the vati-can and paid his respects to Cardinal Oreglia, who received him most cordially. He had a friendly conversation with he latter, in which the Camerlenge informed Cardinal Gibbons of the leadng decisions made by the congregation with reference to the conclave. Car-dinal Gibbons will receive no one ex-cept cardinals until after the conclave.

THE FARM.

The Trade in Eggs and Some Usefu Advice About It.

DEPARTMENT OF AGRICULTURE, Ottawa, July 28 .- Some advice regarding the marketing of fresh eggs and the preservation of eggs for future use or shipment, is given by the poultry division, Ottawa. Concerning fresh eggs, with each other for championship Mr. Hare says : Eggs to be palatable should be eaten in a strictly fresh condition; therefore they should reach the consumer without unnecessary delay. This requires (1) that the eggs be collected regularly every day and stored in a cool room (temp. 40 to 50 deg. F.) until a sufficient number are on hand to deliver to a dealer; (2) that the dealer forward the eggs to the merchthe merchant should protect the eggs from deterioration while in his posses-

the city merchant weekly are usually trade in fresh winter eggs. Let's new ter there is a great demand for new among the professional winners in this laid eggs; the supply is limited and class, and gold trophies among the high prices are paid. Exporting firms amateur winners. Following is the list

There is a growing preference on the me markets for brown-shelled eggs. The shells of the eggs should be wiped of St. John enter and start; 1st prize, clean, if necessary, and the eggs graded \$300; 2nd prize, \$100. Amateur fourn size. For shipment to the merchant the eggs should be packed in cases nolding twelve dozens or thirty dozens

While no process of preservation will retain the fine flavor of a newly-laid egg, so that later it can honestly be sold as such, yet for culinary purposes when the supply of new-laid eggs is imited, preserved eggs meet the demand. The eggs are placed in the pre-scrvative during the spring and sum-mer. None but fresh eggs should be packed; stale or cracked eggs are not Mrs. Hurd, Minneapolis, Minn., arrived yesterday in Sir W.'s private car Saskatchewan. Miss M. Van Horne, notwithstanding her recent severe sickonly bad in themselves, but they will

of new lime to four gallons of water The mixture should be well stirred an the liquid portion, which is "saturated lime-water," poured into a crock or ing the lime-water should be placed in a cool room. As exposure to the air tends to weaken the preservative, the vessel should be covered with a of burlap upon which a paste of lime out no part of any egg should be abov the surface of the liquid. Afterwards the eggs should be examined occasion ally, and if necessary fresh lime-water added to keep the eggs always covered

### HOTEL KING OF EUROPE BECOMES A LUNATICA

Remarkable Career of Caesar Ritz Who Rose From Poverty

GENEVA, Switzerland, July 21. Three months ago Caesar Ritz was one of the most progressive and enterpris ing hotel managers in Europe: today he is the inmate of a lunatic asylum in one of the cantons of his native Switzerland.

The career of Mr. Ritz was truly an amazing one. Born near Genoa about fifty years ago, he went, while yet youth to Monte Carlo, where he ed employment as a waiter. Being frugal and industrious, he saved money steadily and having amassed a fortune, went to London, where he began his remarkable career as a hotel man. He first opened the Hotel Savoy and this, from the start was a success

singularly successful, and then ing the need of a first-class English speaking hotel in Rome, opened the Grand Hotel, which almost immediately ecame paying and popular. Now the Savoy Hotel ranks with an of the leading establishments, while the Hotel Ritz, on the Place Vendom

Paris, is probably the most magnificently equipped in the French capital. ng thus established leadin in London, Paris and Rome Having Ritz branched out, as it were, and either established or became interested in at least one hundred other hotels throughout Europe.
All this stupendous work was accomplished in the short space of fifteen years, a living monument of the ex-traordinary enterprise and energy of

perhaps one of the most remarkable men in Europe.

The mental and physical strain involved in his huge business enterprises told, however, upon him, and the result is that he is now the occupant of a lunatic asylum, with little probability of ever leaving it.

DEPT. OF AGRICULTURE, Commisisoner's Branch, Fruit Div., OTTAWA, July 20, 1903,

To the Editor of the Sun: Sir-Will you kindly permit me

At the present time there appears to be a good opening for trade in fresh, dried and evaporated apples in Germany, where the latter pay a duty of \$1.25 per 110 pounds and the former enter duty free. It is true that an act has been passed imposing a duty on fresh fruit from Canada, but it has not been brought into force, and will only become operative by imperial pro-clamation. Large quantities of evap-orated apples from the United States are sold annually in Germany, and as the quality of the Canadian goods is admitted to be better, there is no reason why we should not be able to com-

pete with the Americans. apples are wanted. The duty is 5 per viled and raised his traitorous hand In Holland only fancy evaporated

cent. ad valorem for both fresh and dried fruits. Belgium will take considerable quan tities of both dried and fresh fruits, MORE MONEY FOR MUSQUASH. particularly Spy, Baldwin and Green ing apples in boxes. Fresh apples ar free of duty, but 10 per cent. ad valorem is collected on dried and evapor ated goods. Canadian cheddar cheese, if mild, will sell even in competition with the best Holand. It would bring about 20 cents per pound retail, leaving an ample margin for profit after paying freight and commission and the duty, which is slightly over one cent per pound. It is particularly to be noted that only a mild cheese is wanted. Belgium takes annually 23,000,000 to 32,000,000 pounds of Dutch cheese, 6,500,000 pounds of Swiss Gruyere, and 2,100,000 pounds of fine cheese from France. Practically none is made in and tinned tomatoes are also in de-

of this trade they will have to get out Patrick Nugent, St. Martins . . . . \$4 00 and "hustle" for business. The merchants as well as the consumers of Belgium and Germany are very cona statement that we often hear but do TROUBLES AND HEADACHE not fully appreciate. Americans and ARE CURED BY DR. CHASE'S Canadians will buy and test a new article simply because it is nev with the European consumers the opposite is the case. The merchants over there have their trade established and are content. Why should they change? We must show them that it would be to their advantage to do so. In this connection I desire to emphasize par-ticularly the advisability of Canadian shippers sending over liberal supplies of their food products for distribu-tion. They will find it profitable to do so, and to quote prices freely. At first goods would have to be shipped on commission, but when a footing is 32; George T. Clark, \$2; J. J. Hennessy, Special gained, business can be done on a casu basis. It is, of course, necessary above all things that goods shipped shall be carefully packed and true to sample, mest, \$1; James Bryant, \$1; Harry Keirstead, \$2; Angus McLeuty \$2; Friend, \$1; A. T. Dykeman, \$1; Thomas Harrington, \$1; William Shycarefully packed and true to sample, mest, \$1; James Bryant, \$1; Harry Keirstead, \$2; Angus McLeuty \$1; Angus McLeuty \$1; James McAuley, \$1; Ja as this is the only way to gain and hold the confidence of the merchants. It may be mentioned that the Canadian agent in Belgium, D. Treau de Coeli, 75 Marche St. Jacques, Antwerp, will be glad to answer inquiries and to give all the assistance in his power to enable Canadian shippers to make satisfactory connections in that \$2: Louis Ready, \$1: Joseph L. For the present the returned blood foregather when the mother flag young man will visit his parents' sum-flies unfurled." Aye; even though the mer home at Drury Cove, but wheth-er he will return to Jamaica or not is against those to the south of the mother land, and who speak, albeit, Dr. Chase's Ointment

with a nasal twang, the same tongue, but who hesitate not in their foremos journals, and on their every political stump and in private conver tween citizens to assert that their Stars and Stripes must float over Mexico and

to the north pole. That brings me to the editorial also in your issue of July 8th under the caption "Civilized Counsel," where in your unveiled sarcasm in reply to the "foremost journal of civilization" is and should be a delight to the heart of

the wanderer and to him at home. And now at the risk of taking up tod much of your valuable time and feel constrained, as the son of a loyalist in the sense of lineal descent, to protest with all my heart and soul and strength against the unspeakable a front to all loyalists in the rear a memorial statue in London t George Washington. If in the trying scoundrel, for whose crime the penalty if caught of capital punishment was a fitting one, then he is no less to our sire's children today, and I would sug-gest most urgently that the United Empire Loyalists make such a protest against the enormity of the offence proposed that London shall not only hear but heed. I feel that the sons of oyalists the world over would be only

too glad to enter their protes thinks a fitting offset to such a move would be a statue to our sainted Queen Victoria in Washington, but nothing could be a fitting monument in Washington to George

to Be Distributed

at Once.

At a meeting of the Musquash Fire Relief Fund morning in the mayor's office, it was decided to distribute fifty per cent. of the money remaining after the paywho were burnt out and who are re-Already all who suffered by the Muse quash fire have received sixteen cent, of their losses in cash. Later the

Tinned meats, game, poultry This fifty per cent distributed will give balance of the fund will be distributed about \$800 to the sufferers. Additional local contributions to the fund have been received as follows

J. V. McLellan, St. John . Baseball club, per Chas. Damery ... 5 00 homas Kickham . . . . . . . . . . . . 1 Yesterday morning a handsome conribution of \$294.25 was received from the people of Lancaster, through Lowell and Catherwood, councillors. The contributions were: -J. Ready, \$50, Randolph & Baker, James Walker, \$25; George E. Barnhill, \$25; James Lowell, \$20; concert in

Orange hall, \$16.25; W. F. Barnhill, \$10; George Irvine, \$10; T. H. Wilson, \$10; James Masson, \$5; Robert Catherwood, \$5; M. J. Collins, \$5; O. D. Hanson, \$5; Amador Anderson, \$3; Dr. Corbett, \$2; A. C. Gregory, \$2; Richard Stewart, \$2; Daniel Brophy, \$2; William Catherwood, Hanson, \$1; James McAuley, \$1; Jas. ## OTTAWA LETTER.

Government Using the Put lic Departments for Party Advantage.

Decision to Make Sifton Minister of Railways and Canals Caused Great Surprise in Grit Circles—

The Coming Cabinet

Shuffle.

++ (Special Cor. of the Sun.) OTTAWA, July 22.-The extent t which the public departments are uti lized for party advantage was show by an answer to a question put by Mr Blain of Peel, in the house this week L. J. Latour is postmaster the department of public works, al cessity for the office is. For this sine-cure he receives a salary of \$1,000 per annum. Mr. Latour is well known throughout the province of Quebec, and when the liberal leaders in Montreal discovered that Mr. Tarte was not going to hand over his newspaper, La Patrie, to them, they had to set about getting a personal organ of their own Accordingly Le Canada, a French liberal morning paper, was established in Montreal about three months ago. In order to work up the subscription order to work up the subscription list and to assist in putting the paper up-on its feet, Mr. Latour was called from his position in the public works de-partment and sent on the road as can-vasser for Le Canada. Needless to say that he carries with him a copy of the civil service list, and the first persons he calls upon on his arrival in any town or village are those who may happen to be on the federal pay list. Mr. Latour is being handsomely paid for his work, but before he would accept the position of subscription canvasser for Le Canada he insisted upon some one holding down his office in the public works department, and accordingly his young son, who has barely entered into his teens, is filling the father's job until all the faithful have been approached to cash up their subscriptions for Le Canada. Young Latour up to July 1st had drawn \$366 from the public treasury, and his father is still engaged in the congenial

work of squeezing the civil servants. Another of the stalwarts of the liberal party has got his reward. It is noteworthy that when the liberals were not in power they were insistent and persistent in condemning the practice of appointing members and expublic trust. No sooner were the liberals in control of the gover than they commenced to repudiate the professions which they had so recent gled to get a senatorship or some public office, and the number of those who are today drawing pay from the government may be counted by the core. It has just developed that another ex-member has been give a nice billet, carrying with it a fat salary and little work. This gentleman is Mr. Savard, ex-M. P. for Chicoutimi, who, through the good offices of Mr. Prefontaine, has been engaged by the department of marine and fisheries to enquire into certain legal points connoted with conflicting claims of the dederal and provincial governments and the Labrador Co., to the right of fishery within the limits of that portion of the north shore of the Gulf of St. Lawrence known as the Mingan Seigneury. For this work he receives

remuneration at the rate of \$5 a day.

In connection with the bill to

amend the fisheries act there was an interesting discussion on the subject of the use of purse seines in the waters of both the Atlantic and Pacific bceans. The bill authorizes the minister of marine and fisheries to issue licenses for purse seining for salmon in British Columbia waters, with a view to off setting the practice of trap net fishing pursued by the Americans from the mouth of the Fraser. It is felt that with the use of purse seines the salmon can be intercepted before they reach the estuary of the Fraser, and to that extent the British Columbia canners will be benefitted, and the American trap fishermen correspondingly crippled. This provision led to a general discussion as to the merits of this kind of fishing. The Nova Scotia and P. E. Island members insisted upon one uniform law; that British Columbia fishermen should not receive the benefit of a concession which was withheld from the maritime provinces. Hon. William Ross declared that American seiners were frequenting the coast of Nova Scotia in the spring of the year with purse seines and were going home with large cargoes of mackerel caught in this way. thought that this method of fishing should be forbidden by both the Canadian and United States governments. Since, however, the American fishermen were permitted to use the purse seines outside of the three mile limit and frequently poached inside that limit, when not watched . Mr. Ross argued that it was a decided ardship to the Canadian fishermen not to be able to use the same methods for catching mackerel within their own waters as the American fishermen used in their immediate neighborhood. Mr. Kaulbach of Lunenburg, pointed out that by the use of these purse nes American fishermen were sin ply depleting Canadian waters, while government regulations put the Canadian fisherman under a serious disadvantage. He insisted that either some arrangement should be made with the United States government, or else tardy justice done to the Canadian Atlantic fishermen by granting them the same privileges as the American hermen enjoyed. Finally Mr. Prefontaine agreed to make /representaons to the American authorities, pointing out that if they insisted in nsing these destructive methods of
