GOODYEAR SHOWN

"Comparing the year's operations with last year, the current year has shown a considerable improvement," says C H Carlisle, president of Goodyear Tire and Rubber Co. of Canada, Limited, in a letter to shareholders accompanying the cheques for dividends on the preferred and common stocks for the last quarter of the year.

Mr Carlisle states that the dividends for the year on both the preferred and common stocks have been earned, and after making allowances for depreciation, bad debts taxes, etc., there will be a sizeable balance to carry forward to surplus.

Following a complete audit of the affairs of the company now being made, the balance sheet and full information as to the year's operations will go forward to shareholders.

"I am asking you," says Mr Carlisle, "as one of the 3,447 Canadian shareholders, to take an active interest in your company's affairs, such as the purchasing of your own product, your influence among your friends, and in your locality. Any criticisms or comments which you may have to offer to the officers and staff will be of great assistance. We have appreciated your co-operation in the past and it has been a big factor in the building of your company. Business shows improvement and we are looking forward to better conditions for the coming year."
