Commissioner Fisher moved a special meeting of the Council be held on Thursday to consider the tenders for permanent pavement of various streets, being held up. Adopted. The Senior Cadets' Corps' Inspection

Large Audience Pleased Yesterday With Excellent Showing Made by the Boys Who Were Finely Trained—The Judges' Awards.

There was a large attendance of ladies and gentlemen at the Armories yesterday afternoon, when, beginning at four o'clock, there commenced the Physical Training Competition of the St. John Senior Cadet Corps. The boys in this branch made an excellent showing, and were inspected by Brigadier-General Macdonnell, G. O. C. of M. D. 7; Col. Sparling, G. S. O., and Col. A. H. Powell, A. A. G., who also acted as judges in determining the points awarded the different squads.

On the arrival of the above-named officers, the boys were drawn up in review order and inspected, after which they were addressed by their Brigadier-General, who spoke of the High School, the excellent work they were carrying on, and the good work performed by their instructors.

The first squad to be inspected was the right half of the High School cadets, under the command of Oliver. The boys made a splendid showing, going through their work with a decided snap, which was their credit to ten hours' training in preparation for the event. This squad was followed by the left half of the High School Corps, who were followed in turn by the left half of their corps.

There's a home for little children

NOT an orphanage, or an institution—a home.

THE children there are not all total orphans. Some have fathers; some have mothers. IT'S a heart-warming sight to see fathers come there on Saturdays and Sundays to spend happy hours with their motherless babies.

TO preserve the atmosphere of home; that's the guiding spirit of the Orphan Children's work of the Salvation Army.

Says Gratitude Is Beyond Words

Mrs. John McIsaac Declares Tanlac Brought Her Health and Happiness—Feels Better Than in Ten Years.

“Tanlac has brought me health and happiness and words just can't express how grateful I feel for the good this wonderful medicine has done me,” said Mrs. John McIsaac, 15 Prince St., Sydney, Nova Scotia, a few days ago.

“Only my friends know what I endured during the past ten years, in fact, I was so bad off I lost interest in everything and got no pleasure out of life. My appetite was so poor that I ate very little of anything and some mornings a glass of water would be so choked up I thought I would suffocate. Sometimes at night I lay in bed so long without closing my eyes that I just couldn't stay there any longer and I would have to get up and walk the floor. I suffered from severe headache spells and lots of times I would be walking along the street and get so dizzy I would have to catch hold of something to keep from falling. I got so weak that my house-work became burdensome and it was an effort for me to get around the house.

“But now, I just feel like a different person for Tanlac has given me new life and strength and I am enjoying better health than I have in over ten years. I can hardly wait for meal time to come and everything I eat digests without a particle of trouble. I never suffer from a headache spell any more and the dizziness has disappeared entirely. My sleep is sound and refreshing and I get up every morning feeling so refreshed that I do my house-work without tiring in the least. Every suffering woman should certainly know about Tanlac and I feel it my duty to tell others publicly what this medicine has done for me.

Getting Too Fat? Try This—Reduce. People who don't grow too fat are the fortunate exception. But if you find the fat accumulating or already cumbersome, you will be wise to follow this suggestion, which is endorsed by thousands of people who know. Ask your druggist (or if you prefer write to the Marmola Co., 864 Woodward Ave., Detroit, Mich.) for a large quantity of the price the world over. By doing this you will be safe from harmful drugs and be able to reduce two, three or four pounds a week without dieting or exercise.

CONSIDER THESE FACTS

Clothing is High. You know it. We know it—everyone knows it. It will take a long time before prices come down.

And there is only one way to get the best of this condition. That is to insist upon quality. One good suit costs less than two poor ones. Besides it wears longer; looks better and gives more satisfaction and stronger value. If you buy good, well-tailored clothes from a reliable store you won't have to buy so many clothes. That's economy pure and simple. Quality and correct style are essentials with us. That's why we endorse the 20th Century Brand and our other good makes. They've stood the test. A pleasure to show them.
