N the first of January, 1872, the publication of a Weekly Edition of THE NEW YORK EVENING MAIL was begun under most encouraging auspices. It has been a success from the start, because it possesses peculiar features that make it especially desirable as a newspaper for FAMILY READLING. No other existing weekly contains such a variety of Attractive and Original Correspondence Literary and Art Departments, FIRST CLASS STORY CONTAINED IN EACH NUMBER. Besides these features there will be contribu-tions from such writers as "Howarl Glyndon," Sophie Sparkle," "Anchor," and other well-known correspondents of The Daily Evening Mail. There will also be a JOHN McARTHUR & CO. The Insurance Department of The Weekly Mail has been universally recognized by State Insurance officials, the Insurance Press, and leading Life and Fire Managers, as, beyond comparison, the most successful attempt yet made to invest the subject of Insurance with that degree of interest and vivacity which will compol the attention of casual readers. The people study it; the Insurance papers quote it; agents welcome it; and underwriters everywhere endorse it. The paper is also peculiarly adapted for circulation among Insurance Agents, and has been so recognized by several Companies whose agents have been supplied with it. ICE-CREEPER,

A MONG the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throat and Lungs. A vast trial of its virtues, throat and Lungs. A vast trial of its virtues, throat and Lungs. A vast trial of its virtues, throat and Lungs beyond any other medicine. The testimony of our best citizens, of all classes, establishes the fact that Cherky Pecroal. will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be helieved, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tenderlungs need this defence; and it is unwise to a twithout it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, Cherry Pecroard, is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centered on them. It acts speedi v and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitts, when they know how easily they can be cured. Prepared by
