Department of Indian Affairs.

The Deputy Minister, Ottawa, 2nd June 1896

MEMO.

ask
some
the
Survey
W. G. Green

With reference to Mr. Indian Agent Beattie's letter where ~~he~~ he asks for a resurvey of the Reserve of the Moravians of the Thames, which was moved and carried at a meeting of the Council of the Moravians of May 1895. and that the expenses incurred in the survey be paid from the Capital funds of the Band repaid to the Capital in a ~~part~~ number of years from the interest on ~~the~~ of each year to the amount of \$75 per annum.

I do not see that Mr. Bray can be spared from this Office to make this resurvey there being too much work still to be done. But would recommend that if you see fit that Mr. Green be written to do this work and that a copy of the Plan of the reserve be forth with sent him with instructions for the survey. But should you deem it necessary that Mr. Green proceed to the North West to aid Mr. Pontore in the work there. I would recommend that some local surveyor recommended by the M. P. of the Locality might have the ~~the~~ work.

The Capital fund of the Band is \$157 970. —
And the Interest 1129.30
Approx. estimate \$10. of work including ~~the~~ ~~work~~
