

CHAPTER IV—Continued.

	PAGE
Introduction.....	32
Distribution.....	32
Geological relations.....	33
Character of ore bodies.....	34
Character of ore.....	35
Mineralogy.....	36
Metallic minerals.....	36
Chalcopyrite.....	36
Iron pyrite.....	36
Magnetite.....	37
Limonite.....	37
Malachite.....	37
Non-metallic minerals.....	38
Actinolite.....	38
Tremolite.....	38
Garnet.....	38
Epidote.....	39
Zoisite.....	39
Chlorite.....	39
Calcite.....	39
Quartz.....	39
Origin of ore bodies.....	40

CHAPTER V.

Detailed description of mines.....	43
The British Columbia Copper Company.....	43
Introduction.....	43
Mother Lode mine.....	45
Location.....	45
Production.....	45
Development and equipment.....	46
Methods of mining.....	46
Geological relations and character of the ore body.....	47
Character of the ore.....	48
The Sunset mine.....	50
Location.....	50
Production.....	50
Development and equipment.....	50
Geological relations and character of the ore bodies.....	50
Character of the ore.....	51
The Crown Silver mine.....	51
The Quebec Copper Company.....	52
The Marguerite mine.....	52
INDEX.....	53

ILLUSTRATIONS.

Map 29A. Mother Lode and Sunset mines, topographical edition.....	in pocket
" 30A. Mother Lode and Sunset mines, geological edition.....	in pocket
Plate I. Mother Lode mine, 1910.....	Frontispiece
" II. (A): Shows characteristic topography of the Boundary district. Phoenix upper right and Greenwood lower centre; (B): Brecciated limestone in the mineralized zone.....	6
" III. (A): Limestone in part replaced by silica; (B): Limestone in part replaced by epidote and quartz.....	14
" IV. (A): Glory hole (in part) Mother Lode mine, 1910; (B): Quartz veinlets traversing a partially silicified tuff.....	25
" V. (A): Garnet crystals in calcite; (B): Chalcopyrite in actinolite..	36
Fig. 1. Index map.....	2
" 2. Map showing distribution of granodiorite in the vicinity of the Mother Lode mine.....	21
" 3. Claim map, Mother Lode mine and vicinity.....	44
