

KAWARTHA LAKES NAVIGATION Co., LIMITED.—The *Str. Kenosha* is one of the finest steamers plying on the Trent Valley Waters, having been almost entirely rebuilt during the winter of 1902-3, after plans furnished by Inspector Davis, of the Dominion Marine Department, and this season further extensive improvements have been carried into effect by ship carpenters at Bobcaygeon at a cost of over \$500. All that experience can suggest for the safety and comfort of passengers has been done and patrons will find the service faultless, staterooms for invalids, ladies' toilet rooms, parcel and basket checking office, folding deck tables for parties bringing lunches, are a few of the privileges. Meals served on board by a first-class caterer on all trips. Parties interested are reminded of the importance of an early arrangement as to date of intended excursion. Address enquiries for rates, etc., to A. E. Gregory, Lindsay, Ont.

*The Kenosha.*
