

- Bladder wall, condition of, in myoma cases, 370
- Bleeder, constitutional, successful hysteromyomectomy on, 625
- Bleeding. *See Hemorrhage.*
- Bleeding, intermenstrual, in myoma cases, 444
into abdominal cavity on bimanual examination of subperitoneal pedunculated myoma, 444
- Blood in uterine cavity in myoma cases, 309
- Blood supply of myomata, 6
of parasitic myoma, 16, 38, 39, 41, 48
- Blood-vessels of broad ligament, dilatation of, with myoma, 354
of uterine mucosa, alterations in, with myoma, 317
- Bluish color of vaginal mucosa with myoma, 439
- Breasts, carcinoma of, associated with myoma, 450
colostrum in, with uterine myoma, 449
condition of, with uterine myoma, 449
in differential diagnosis of myoma and pregnancy, 467
tumors of, benign, with myoma, 450
- Broad ligament, abscess beneath, associated with myosarcoma of uterus, 196
abscess in, after removal of myoma, 553
associated with uterine myoma, 355
adhesions to, in myoma cases, 354
alterations in, associated with uterine myoma, 354
cyst in, 396
dilatation of blood-vessels of, with uterine myoma, 354
dilated lymph-spaces in, with myoma, 355
hematoma in, during abdominal hysteromyomectomy, 623
infection of, after abdominal hysteromyomectomy, 664
myoma of, 51, 53, 354, 510
abdominal myomectomy for, 510
secondary nodule in, from myosarcoma of uterus, 195
thickening of, with uterine myoma, 355
- Bronchial lymph-glands, metastases in, from adenocarcinoma of uterus, 405
from squamous-celled carcinoma of cervix, 399
- Bronchitis after abdominal hysteromyomectomy, 668
myomectomy, 554
- Bronchopneumonia after abdominal hysteromyomectomy, 668, 685
* myomectomy, 555
45
- CALCAREOUS nodules in mesentery, 464
plates in an arterial wall, 129
- Calcification of heart muscle associated with uterine myoma, 424
of myoma, 126, 130, 132, 133, 268
- Calcium salts, how deposited, in myoma, 127
- Calculus, uterine, with myoma, 130
vesical, associated with myoma, 375
- Capillaries, marked proliferation of endothelium of, in myoma, 99
- Carcinoma of body of uterus, unsuspected during abdominal myomectomy, 540
with myoma, detected at autopsy, 404
of breast, associated with myoma, 450
of cervix, associated with myoma, 262
found at autopsy, 398
early, with myoma, 269
simulated by submucous myoma, 487
suspicion of, with myoma, 304
with primary carcinoma of ovary and myoma, 271
with sloughing submucous myoma, 398
- Carcinoma of Fallopian tube, secondary, with myoma, 396
of omentum, myoma and, differentiation, 499
of ovary, primary, with carcinoma of cervix and myoma, 271
with myoma, 396
with carcinoma of stomach, 396
of rectum, associated with uterine myoma, 391, 417
of uterus, associated with myoma, found at autopsy, 404
histological changes in myoma suggesting, 491
myoma and, differentiation, 485
secondary, with uterine myoma, 295
- Cardiac hyaline degeneration, with necrotic uterine myoma, 423
hypertrophy, with uterine myoma, 414, 423
lesions, possibly attributable to uterine myoma, 421
sounds in myoma cases, 451
- Cardinal vessels, clamping and application of ligatures later, 600
- Catgut, death following use of, in abdominal myomectomy, 541
too early absorption of, with fatal hemorrhage, after hysteromyomectomy, 681
- Cecum, suppurating myoma opening into, 46
- Cells in myoma, 9
- Cerebral embolus following abdominal myomectomy, 537
- Cervical endometritis with myoma, 302
glands, dilatation of, with myoma, 298
unfolding of, with myoma, 302
